CONSOLIDATED FINANCIAL STATEMENTS AND

REVIEW REPORT OF INDEPENDENT

ACCOUNTANTS

JUNE 30, 2017 AND 2016

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

REVIEW REPORT OF INDEPENDENT ACCOUNTANTS

To the Board of Directors and Stockholders of Ton Yi Industrial Corp.

We have reviewed the accompanying consolidated balance sheets of Ton Yi Industrial Corp. and subsidiaries as of June 30, 2017 and 2016, and the related consolidated statements of comprehensive income for the three-month and six-month periods then ended, as well as the statements of changes in equity and of cash flows for the six-month periods then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

Except as explained in the following paragraph, we conducted our reviews in accordance with the Statement of Auditing Standards No. 36, "Review of Financial Statements" in the Republic of China. A review consists principally of inquiries of company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards in the Republic of China, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

As explained in Note 4(3), we did not review the financial statements of certain insignificant consolidated subsidiaries, whose statements reflect total assets of NT$8,981,390 thousand and NT$9,307,537 thousand, constituting 22.87% and 21.72% of the consolidated total assets, and total liabilities of NT$3,489,520 thousand and NT$3,306,646 thousand, constituting 16.91% and 14.13% of the consolidated total liabilities as of June 30, 2017 and 2016, respectively, and total comprehensive income (loss) of NT$51,829 thousand, NT$59,972 thousand, NT$113,800 thousand and NT$143,509 thousand, constituting 14.12%, (1,011.33%), 150.89% and 88.76% of the consolidated total comprehensive income (loss) for the three-month and six-month periods then ended, respectively. These amounts and the information disclosed in Note 13 were based solely on the unreviewed financial statements of these subsidiaries as of June 30, 2017 and 2016.

Based on our reviews, except for the effect of such adjustments, if any, as might have been determined to be necessary had the financial statements of certain insignificant consolidated subsidiaries and the information disclosed in Note 13 been reviewed by independent accountants, we are not aware of any material modifications that should be made to the consolidated financial statements referred to in the first paragraph for them to be in conformity with the R.O.C. "Rules Governing the Preparation of Financial Statements by Securities Issuers" and International Accounting Standard 34, "Interim Financial Reporting" as endorsed by the Financial Supervisory Commission.

(1) Ton Yi Industrial Corp. (the "Company") was incorporated as a company limited by shares under the provisions of the Company Act of the Republic of China (R.O.C.) on April 14, 1969. The Company is primarily engaged in the manufacture, processing and sales of various cans of steel and tin plate. For the subsidiaries' scope of business, please refer to Note 4(3) for details.

(2) The common shares of the Company have been listed on the Taiwan Stock Exchange since January 1991.

(3) Uni-President Enterprises Corp. holds 45.55% equity interest in the Company and is the ultimate parent company.

2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION

These consolidated financial statements were authorized for issuance by the Board of Directors on August 3, 2017.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") as endorsed by the Financial Supervisory Commission ("FSC")

New standards, interpretations and amendments as endorsed by FSC effective from 2017 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Recoverable amount disclosures for non-financial assets (amendments to IAS 36)	January 1, 2014
Novation of derivatives and continuation of hedge accounting (amendments to IAS 39)	January 1, 2014
IFRIC 21, 'Levies'	January 1, 2014
Defined benefit plans: employee contributions (amendments to IAS 19)	July 1, 2014
Improvements to IFRSs 2010-2012	July 1, 2014
Improvements to IFRSs 2011-2013	July 1, 2014
Investment entities: applying the consolidation exception (amendments to IFRS 10, IFRS 12 and IAS 28)	January 1, 2016
Accounting for acquisition of interests in joint operations (amendments to IFRS 11)	January 1, 2016

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
IFRS 14,'Regulatory deferral accounts'	January 1, 2016
Disclosure initiative (amendments to IAS 1)	January 1, 2016
Clarification of acceptable methods of depreciation and amortisation (amendments to IAS 16 and IAS 38)	January 1, 2016
Agriculture: bearer plants (amendments to IAS 16 and IAS 41)	January 1, 2016
Equity method in separate financial statements (amendments to IAS 27)	January 1, 2016
Improvements to IFRSs 2012-2014	January 1, 2016

Except for the following, the above standards and interpretations have no significant impact to the Company and its subsidiaries' (collectively referred herein as the "Group") financial performance and financial position based on the Group's assessment.

Amendments to IAS 36, 'Recoverable amount disclosures for non-financial assets'

The amendments remove the requirement to disclose recoverable amount when a cash generating unit (CGU) contains goodwill or indefinite lived intangible assets but there has been no impairment. When a material impairment loss has been recognised or reversed for an individual asset, including goodwill, or a CGU, it is required to disclose the recoverable amount of the asset or CGU. If the recoverable amount is fair value less costs of disposal, it is required to disclose the level of the fair value hierarchy, the valuation techniques used and key assumptions.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Company

New standards, interpretations and amendments as endorsed by the FSC effective from 2018 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Disclosure initiative (amendments to IAS 7)	January 1, 2017
Recognition of deferred tax assets for unrealised losses (amendments to IAS 12)	January 1, 2017
Annual improvements to IFRSs 2014-2016 cycle - Amendments to IFRS 12, 'Disclosure of interests in other entities'	January 1, 2017
Transfers of investment property (amendments to IAS 40)	January 1, 2018
Classification and measurement of share-based payment transactions (amendments to IFRS 2)	January 1, 2018
Applying IFRS 9, 'Financial instruments' with IFRS 4, 'Insurance contracts' (amendments to IFRS 4)	January 1, 2018
IFRS 9, 'Financial instruments'	January 1, 2018
IFRS 15, 'Revenue from contracts with customers'	January 1, 2018

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Clarifications to IFRS 15, 'Revenue from contracts with customers' (amendments to IFRS 15)	January 1, 2018
IFRIC 22, 'Foreign currency transactions and advance consideration'	January 1, 2018
Annual improvements to IFRSs 2014-2016 cycle - Amendments to IFRS 1,'First-time adoption of International Financial Reporting Standards'	January 1, 2018
Annual improvements to IFRSs 2014-2016 cycle - Amendments to IAS 28, 'Investments in associates and joint ventures'	January 1, 2018

Except for the following, the above standards and interpretations have no significant impact to the Group's financial performance and financial position based on the Group's assessment. The quantitative impact will be disclosed when the assessment is complete.

A. Amendments to IAS 12, 'Recognition of deferred tax assets for unrealised losses'

These amendments clarify the recognition of deferred tax assets for unrealised losses related to debt instruments measured at fair value, and they clarify several of the general principles underlying the accounting for deferred tax assets. The amendments clarify that a deductible temporary difference exists whenever an asset is measured at fair value and that fair value is below the asset's tax base. When an entity assesses whether taxable profits will be available against which it can utilise a deductible temporary difference, it considers a deductible temporary difference in combination with all of its other deductible temporary differences unless there are tax law restrictions, and the tax deduction resulting from temporary differences is excluded from estimated future taxable profits.

B. IFRS 9, 'Financial instruments'

(a) Equity instruments would be classified as financial asset at fair value through profit or loss, unless an entity makes an irrevocable election at inception to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument that is not held for trading.

(b) The impairment losses of debt instruments are assessed using an 'expected credit loss' approach. An entity assesses at each balance sheet date whether there has been a significant increase in credit risk on that instrument since initial recognition to recognise 12-month expected credit losses or lifetime expected credit losses (interest revenue would be calculated on the gross carrying amount of the asset before impairment losses occurred); or if the instrument that has objective evidence of impairment, interest revenue after the impairment would be calculated on the book value of net carrying amount (i.e. net of credit allowance). The Company shall always measure the loss allowance at an amount equal to lifetime expected credit losses for trade receivables that do not contain a significant financing component.

C. IFRS 15, 'Revenue from contracts with customers'

IFRS 15, 'Revenue from contracts with customers' replaces IAS 11, 'Construction Contracts', IAS 18, 'Revenue' and relevant interpretations. According to IFRS 15, revenue is recognised when a customer obtains control of promised goods or services. A customer obtains control of goods or services when a customer has the ability to direct the use of, and obtain substantially all of the remaining benefits from, the asset.

The core principle of IFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. An entity recognises revenue in accordance with that core principle by applying the following steps:

Step 1: Identify contracts with customer

Step 2: Identify separate performance obligations in the contract(s)

Step 3: Determine the transaction price

Step 4: Allocate the transaction price

Step 5: Recognise revenue when the performance obligation is satisfied

Further, IFRS 15 includes a set of comprehensive disclosure requirements that requires an entity to disclose sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers.

D. Amendments to IFRS 15, 'Clarifications to IFRS 15 Revenue from Contracts with Customers'

The amendments clarify how to identify a performance obligation (the promise to transfer a good or a service to a customer) in a contract; determine whether a company is a principal (the provider of a good or service) or an agent (responsible for arranging for the good or service to be provided); and determine whether the revenue from granting a licence should be recognised at a point in time or over time. In addition to the clarifications, the amendments include two additional reliefs to reduce cost and complexity for a company when it first applies the new Standard.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
IFRS 16, 'Leases'	January 1, 2019
IFRIC 23, 'Uncertainty over income tax treatments'	January 1, 2019
IFRS 17, 'Insurance contracts'	January 1, 2021
Sale or contribution of assets between an investor and its associate or joint venture (amendments to IFRS 10 and IAS 28)	To be determined by International Accounting Standards Board

Except for the following, the above standards and interpretations have no significant impact to the Group's financial performance and financial position based on the Group's assessment. The quantitative impact will be disclosed when the assessment is complete.

IFRS 16, 'Leases'

IFRS 16, 'Leases', replaces IAS 17, 'Leases' and related interpretations and SICs. The standard requires lessees to recognise a 'right-of-use asset' and a lease liability (except for those leases with terms of 12 months or less and leases of low-value assets). The accounting stays the same for lessors, which is to classify their leases as either finance leases or operating leases and account for those two types of leases differently. IFRS 16 only requires enhanced disclosures to be provided by lessors.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and IAS 34, 'Interim Financial Reporting' as endorsed by the FSC.

(2) Basis of preparation

A. Except for the following items, these consolidated financial statements have been prepared under the historical cost convention:

(a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.

(b) Available-for-sale financial assets measured at fair value.

(c) Defined benefit liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligation.

B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the "IFRSs") requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

(3) Basis of consolidation

A. Basis for preparation of consolidated financial statements:

(a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.

(b) Inter-company transactions, balances and unrealized gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.

(c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

(d) Transactions with non-controlling interest that do not result in loss of control are accounted for as equity transaction- that is, as transactions with the owners in their capacity as owners. The difference between non-controlling interest adjustments and consideration paid or received is recorded in equity.

(e) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognized in profit or loss. All amounts previously recognized in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognized in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

Except for Cayman Ton Yi Industrial Holdings Ltd., Cayman Ton Yi Holdings Ltd., Cayman Ton Yi (China) Holdings Ltd., Fujian Ton Yi Tinplate Co., Ltd., Jiangsu Ton Yi Tinplate Co., Ltd., Ton Yi (China) Investment Co., Ltd., Taizhou Ton Yi Industrial Co., Ltd., Zhangzhou Ton Yi Industrial Co., Ltd. and Kunshan Ton Yi Industrial Co., Ltd., the financial statements of subsidiaries and disclosures in Note 13 included in the consolidated financial statements as of June 30, 2017 were not reviewed by independent accountants as the subsidiaries do not meet the definition of significant subsidiaries. Except for Cayman Ton Yi Industrial Holdings Ltd., Cayman Ton Yi Holdings Ltd., Cayman Fujian Ton Yi Industrial Holdings Ltd., Cayman Ton Yi (China) Holdings Ltd., Fujian Ton Yi Tinplate Co., Ltd., Jiangsu Ton Yi Tinplate Co., Ltd., Ton Yi (China) Investment Co., Ltd., Taizhou Ton Yi Industrial Co., Ltd., Zhangzhou Ton Yi Industrial Co., Ltd., Sichuan Ton Yi Industrial Co., Ltd. and Zhanjiang Ton Yi Industrial, Co., Ltd., the financial statements of subsidiaries included in the consolidated financial statements as of June 30, 2016 were not reviewed by independent accountants. The total assets of these subsidiaries were $8,981,390 and $9,307,537, constituting 22.87% and 21.72% of the Group's consolidated total assets, and total liabilities were $3,489,520 and $3,306,646, constituting 16.91% and 14.13% of the Group's consolidated total liabilities as of June 30, 2017 and 2016, respectively; and the total comprehensive income was $51,829, $59,972, $113,800 and $143,509, constituting 14.12%, (1,011.33%), 150.89% and 88.76% of the Group's consolidated comprehensive income for the three-month and the six-month periods then ended, respectively.

C. Subsidiaries not included in the consolidated financial statements: None.

D. Adjustments for subsidiaries with different balance sheet dates: None.

E. Significant restrictions: None.

F. Subsidiaries that have non-controlling interests that are material to the Group:

As of June 30, 2017, December 31, 2016 and June 30, 2016, the non-controlling interest amounted to $941,111, $982,282 and $997,334, representing 2.40%, 2.46% and 2.33% of the consolidated total assets, respectively. None of the non-controlling interest is material to the Group.

(4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan Dollars, which is the Company's functional and presentation currency.

A. Foreign currency transactions and balances

(a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.

(b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.

(c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.

(d) All foreign exchange gains and losses based on the nature of those transactions are presented in the statement of comprehensive income within other gains and losses.

B. Translation of foreign operations

(a) The financial performance and financial position of all the group entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;

ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and

iii. All resulting exchange differences are recognized in other comprehensive income.

(b) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, even when the Group still retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.

(5) Classification of current and non-current items

A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:

(a) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;

(b) Assets held mainly for trading purposes;

(c) Assets that are expected to be realized within twelve months from the balance sheet date;

(d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.

B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:

(a) Liabilities that are expected to be paid off within the normal operating cycle;

(b) Liabilities arising mainly from trading activities;

(c) Liabilities that are to be paid off within twelve months from the balance sheet date;

(d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(6) Cash equivalents

A. Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

B. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(7) Loans and receivables

Accounts receivable are loans and receivables originated by the entity. They are created by the entity by selling goods or providing services to customers in the ordinary course of business. Accounts receivable are initially recognized at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment. However, for short-term accounts receivable which are not interest bearing, as the effect of discounting is insignificant, they are measured subsequently at the original invoice amount.

(8) Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted-average method. The cost of finished goods and work in process comprises raw materials, direct labor, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost to completion and applicable variable selling expenses. When the cost of inventory is lower than net realizable value, a write down is provided and recognized in operating costs. If the circumstances that caused the write-down cease to exist, such that all or part of the write down is no longer needed, it should be reversed to that extent and recognized as deduction of operating costs.

(9) Available-for-sale financial assets

A. Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories.

B. For regular way purchase or sale, available-for-sale financial assets are recognized and derecognized using trade date accounting.

C. Available-for-sale financial assets are initially recognized at fair value plus transaction costs. These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial assets are recognized in other comprehensive income. Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured or derivatives that are linked to and must be settled by delivery of such unquoted equity instruments are presented in 'financial assets carried at cost'.

(10) Impairment of financial assets

A. The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

B. The criteria that the Group uses to determine whether there is objective evidence of an impairment loss is as follows:

(a) Significant financial difficulty of the issuer or debtor;

(b) A breach of contract, such as a default or delinquency in interest or principal payments;

(c) The disappearance of an active market for that financial asset because of financial difficulties;

(d) Observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial asset in the group, including adverse changes in the payment status of borrowers in the group or national or local economic conditions that correlate with defaults on the assets in the group;

(e) Information about significant changes with an adverse effect that have taken place in the technology, market, economic or legal environment in which the issuer operates, and indicates that the cost of the equity investment may not be recovered;

(f) A significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.

C. When the Group assesses that there has been objective evidence of impairment and an impairment loss has occurred, accounting treatment for impairment is as follows:

(a) Available-for-sale financial assets

The amount of the impairment loss is measured as the difference between the asset's acquisition cost (less any principal repayment and amortisation) and current fair value, less any impairment loss on that financial asset previously recognized in profit or loss, and is reclassified from 'other comprehensive income' to 'profit or loss'. If, in a subsequent period, the fair value of an investment in a debt instrument increases, and the increase can be related objectively to an event occurring after the impairment loss was recognized, then such impairment loss is reversed through profit or loss. Impairment loss of an equity instrument recognized in profit or loss shall not be reversed through profit or loss. Impairment loss is recognized and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.

(b) Financial assets carried at cost

The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at current market rate of return of similar financial asset, and is recognized in profit or loss. Impairment loss recognized for this category shall not be reversed subsequently. Impairment loss is recognized by adjusting the carrying amount of the asset through the use of an impairment allowance account.

(c) Financial assets measured at amortized cost

The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate, and is recognized in profit or loss. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset does not exceed its amortized cost that would have been at the date of reversal had the impairment loss not been recognized previously. Impairment loss is recognized and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.

(11) Derecognition of financial assets

The Group derecognizes a financial asset when one of the following conditions is met:

A. The contractual rights to receive cash flows from the financial asset expire.

B. The contractual rights to receive cash flows from the financial asset have been transferred and the Group has transferred substantially all risks and rewards of ownership of the financial asset.

C. The contractual rights to receive cash flows from the financial asset have been transferred, and the Group has not retained control of the financial asset.

(12) Property, plant and equipment

A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.

B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

C. Property, plant and equipment apply the cost model. Except for land, other property, plant and equipment are depreciated using the straight-line method to allocate their cost over their estimated useful lives. If each component of property, plant and equipment is significant, it is depreciated separately.

D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance sheet date. If expectations for the assets' residual values and useful lives differ from previous estimates or the consumption patterns of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Asset Name	Useful Lives
Buildings	2 ～ 55 years
Machinery and equipment	2 ～ 30 years
Transportation equipment	3 ～ 20 years
Office equipment	2 ～ 10 years
Other equipment	2 ～ 40 years

(13) Lease (Lessor)

Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

(14) Lease (Lessee)

Payments made under an operating lease (net of any incentives received from the lessor) are recognized in profit or loss on a straight-line basis over the lease term.

(15) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 20 years.

(16) Intangible assets

A. Goodwill

Goodwill arises in a business combination accounted for by applying the acquisition method.

B. Royalties

Royalties are stated at cost and amortized on a straight-line basis over its estimated useful life of 10 years.

C. Computer software

Computer software is stated at cost and amortized on a straight-line basis over its estimated useful life of 10 years.

(17) Impairment of non-financial assets

A. The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

B. The recoverable amounts of goodwill shall be evaluated periodically. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. Impairment loss of goodwill previously recognized in profit or loss shall not be reversed in the following years.

C. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units, or groups of cash-generating units, that is/are expected to benefit from the synergies of the business combination.

(18) Borrowings

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.

(19) Notes and accounts payable

Accounts payable are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. They are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method. However, for short-term accounts payable which are not interest bearing, as the effect of discounting is insignificant, they are measured subsequently at the original invoice amount.

(20) Financial liabilities instruments

Ordinary corporate bonds issued by the Group are initially recognized at fair value, net of transaction costs incurred. Ordinary corporate bonds are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is accounted for as the premium or discount on bonds payable and presented as an addition to or deduction from bonds payable, which is amortized in profit or loss as an adjustment to the 'finance costs' over the period of bond circulation using the effective interest method.

(21) Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability specified in the contract is discharged, cancelled or expired.

(22) Offsetting financial instruments

Financial assets and liabilities are offset and reported at net amount on the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

(23) Provision

Provision (decommissioning liabilities) is recognized when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Provision is measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date, which is discounted using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to passage of time is recognized as interest expense.

(24) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid and should be recognized as expenses in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognized as pension expenses on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plans

i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) of a currency and term consistent with the currency and term of the employment benefit obligations.

ii. Remeasurements arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.

iii. Pension cost for the interim period is calculated on a year-to-date basis by using the pension cost rate derive`d from the actuarial valuation at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events. Also, the related information is disclosed accordingly.

C. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognized as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is distributed by shares, the Group calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

(25) Income tax

A. The tax expense comprises current and deferred tax. Income tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which case the tax is recognized in other comprehensive income or equity.

B. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional 10% tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the shareholders resolve to retain the earnings.

C. Deferred income tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

D. Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognized and recognized deferred income tax assets are reassessed.

E. Current income tax assets and liabilities are offset and the net amount is reported on the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.

F. The interim period income tax expense is recognized based on the estimated average annual effective income tax rate expected for the full financial year applied to the pretax income of the interim period, and the related information is disclosed accordingly.

(26) Share capital

A. Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.

B. Where the Company repurchases its outstanding shares, the consideration paid, including any directly attributable incremental costs (net of income taxes), is deducted from equity attributable to the Company's equity holders. When such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

(27) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares and share premium on the effective date of new shares issuance.

(28) Revenue recognition

The Group manufactures and sells tinplate, empty can and PET package, etc. Revenue is measured at the fair value of the consideration received or receivable taking into account the business tax, returns, rebates and discounts for the sale of goods to external customers in the ordinary course of the Group's activities. Revenue arising from the sales of goods is recognized when the Group has delivered the goods to the customer, the amount of sales revenue can be measured reliably and it is probable that the future economic benefits associated with the transaction will flow to the entity. The delivery of goods is completed when the significant risks and rewards of ownership have been transferred to the customer, the Group retains neither continuing managerial involvement nor effective control over the goods sold, and the customer has accepted the goods according to the sales contract or there is objective evidence showing that all acceptance provisions have been satisfied.

(29) Government grants

Government grants are recognized at their fair value only when there is reasonable assurance that the Group will comply with any conditions attached to the grants and the grants will be received. Government grants are recognized in profit or loss on a systematic basis over the periods in which the Group recognizes expenses for the related costs for which the grants are intended to compensate.

(30) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, and the related information is addressed below:

(1) Critical judgements in applying the Group's accounting policies

None.

(2) Critical accounting estimates and assumptions

A. Evaluation of inventories

(a) As inventories are stated at the lower of cost and net realizable value, the Group must determine the net realizable value of inventories on balance sheet date using judgements and estimates. Because of the change in market demand and the sales strategy, the Group evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on the balance sheet date, and writes down the cost of inventories to the net realizable value. Such an evaluation is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

(b) As of June 30, 2017, the carrying amount of inventories was $4,522,214.

B. Calculation of net defined benefit liabilities - non-current

(a) When calculating the present value of defined pension obligations, the Group must apply judgements and estimates to determine the actuarial assumptions on the balance sheet date, including discount rates and future salary growth rate. Any change in these assumptions could significantly impact the carrying amount of defined pension obligations.

(b) As of June 30, 2017, the carrying amount of net defined benefit liabilities - non-current was $429,428.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	June 30, 2017	December 31, 2016	June 30, 2016
Cash:			
Cash on hand and petty cash	$ 785	$ 780	$ 960
Checking accounts and demand deposits	483,095	600,204	920,395
	483,880	600,984	921,355
Cash equivalents:			
Time deposits	285,204	144,637	502,862
	$ 769,084	$ 745,621	$ 1,424,217

A. The Group transacts with a variety of financial institutions all with high credit rankings to diversify credit risk, so it expects that the probability of counterparty default is remote.

B. As of June 30, 2017, December 31, 2016 and June 30, 2016, the Group has no cash and cash equivalents pledged to others.

(2) Notes receivable, net

	June 30, 2017	December 31, 2016	June 30, 2016
Notes receivable	$ 627,188	$ 691,704	$ 797,758
Less: Allowance for doubtful accounts	(985)	(985)	(1,623)
	$ 626,203	$ 690,719	$ 796,135

A. The Group has no significant past due but not impaired notes receivable.

B. Movements of financial assets that were impaired are shown in Note 6(3), “Accounts receivable, net”.

C. The Group’s notes receivable that were neither past due nor impaired were fully performing in line with the credit standards prescribed based on counterparties’ industrial characteristics, scale of business and profitability.

D. The Group did not pledge notes receivable as collateral as of June 30, 2017, December 31, 2016 and June 30, 2016.

(3) Accounts receivable, net

	June 30, 2017	December 31, 2016	June 30, 2016
Accounts receivable	$ 1,447,397	$ 1,935,093	$ 1,225,337
Less: Allowance for doubtful accounts	(57,622)	(61,654)	(58,456)
	$ 1,389,775	$ 1,873,439	$ 1,166,881

A. Aging analysis of the Group's accounts receivable, including those with related party, that are past due but not impaired is as follows:

	June 30, 2017	December 31, 2016	June 30, 2016
Within 90 days	$ 38,541	$ 31,195	$ 26,172
91 to 180 days	14,546	-	147
181 to 365 days	3,914	-	171
	$ 57,001	$ 31,195	$ 26,490

The above ageing analysis was based on past due date.

B. Movements of financial assets that were impaired including notes receivable and accounts receivable are as follows:

	Six-month periods ended June 30,	
	2017	2016
	Group provision	Group provision
At January 1	$ 62,639	$ 65,172
Reversal of impairment	(2,065)	(3,376)
Effect of foreign exchange rate changes	(1,967)	(1,717)
At June 30	$ 58,607	$ 60,079

C. The Group's accounts receivable that were neither past due nor impaired were fully performing in line with the credit standards prescribed based on counterparties' industrial characteristics, scale of business and profitability.

D. The Group did not pledge accounts receivable, including those with related party, as collateral as of June 30, 2017, December 31, 2016 and June 30, 2016.

E. The Group did not hold collateral on accounts receivable, including those with related party, as of June 30, 2017, December 31, 2016 and June 30, 2016.

	$ 132,439	$ 122,642	$ 103,326

A. The Group recognized fair value change in other comprehensive income (loss) of $2,995, ($5,182), $9,797 and ($27,570) for the three-month and the six-month periods ended June 30, 2017 and 2016, respectively, and no amount was reclassified from equity to profit or loss for the same periods.

B. The Group did not pledge available-for-sale financial assets-non-current as collateral as at June 30, 2017, December 31, 2016 and June 30, 2016.

(6) Financial assets carried at cost - non-current

	June 30, 2017	December 31, 2016	June 30, 2016
Unlisted stocks	$ 501,050	$ 501,050	$ 501,050

A. The Group classified some of its equity investments as available-for-sale financial assets, based on its intention. However, as these stocks are not traded in an active market, and there is no sufficient information of similar companies in the same industry, fair value of the investments cannot be measured reliably. Accordingly, the Group classified these stocks as financial assets carried at cost.

B. The Company had invested in Emivest Aerospace Corporation. The carrying amount was $－ and was liquidated as at December 31, 2016.

C. The Group did not pledge financial assets measured at cost - non-current as collateral as at June 30, 2017, December 31, 2016 and June 30, 2016.

It is expected that the provision will be settled within 50 years from the beginning of contract.

(16) Pensions

A.(a) The Company has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 14% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is not enough to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contribution for the deficit by next March.

(b) The pension costs under the defined contributions pension plans of the Company (listed under "Operating cost" and "Operating expense" for the three-month and six-month periods ended June 30, 2017 and 2016 were $6,231, $6,174, $12,461 and $12,348, respectively.

(c) Total contributions expected to be paid under the defined benefit pension plans of the Company within one year from June 30, 2017 amounts to $74,340.

B. (a)Effective July 1, 2005, the Company has established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.

(b) The Company's subsidiaries have defined contribution plans. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations are based on certain percentage of employees' monthly salaries and wages. Other than the monthly contributions, the Group has no further obligations.

(c) The pension costs under the defined contribution pension plans of the Group for the three-month and six-month periods ended June 30, 2017 and 2016 were $41,383, $46,490, $85,920 and $95,308, respectively.

(17) Share capital - Common stock

A. Movements in the number of the Company's ordinary shares outstanding are as follows (in thousands of shares):

	Six-month periods ended June 30,	
	2017	2016
Beginning and ending balance	1, 579, 145	1, 579, 145

B. As of June 30, 2017, the Company's authorized capital was $17,847,009, and the paid-in capital was $15,791,453 with a par value of $10 (in dollars) per share, consisting of 1,579,145 thousand shares of ordinary stock. All proceeds from shares issued have been collected.

(18) Capital surplus

Pursuant to the R.O.C. Company Act, capital reserve arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to offset accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital surplus to be capitalized mentioned above should not exceed 10% of the paid-in capital each year. Capital reserve should not be used to cover accumulated deficit after the legal reserve is used.

(19) Retained earnings

A. The legal reserve shall be exclusively used to offset accumulated deficit, to issue new stocks or distribute cash to shareholders in proportion to their share ownership. The use of legal reserve for the issuance of stocks or cash dividends to shareholders in proportion to their share ownership is permitted provided that the balance of such reserve exceeds 25% of the Company's paid-in capital.

B. In accordance with the Articles of Incorporation of the Company, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve and special reserve shall be set aside or reversed in accordance with related regulations. The remaining amount plus the accumulated unappropriated earnings from prior years is the accumulated distributable earnings. Of the amount to be distributed by the Company, shareholders' dividends shall comprise 50% to 100% of the accumulated distributed earnings and cash dividends shall not be lower than 30% of the total dividends distributed. The appropriation of earnings shall be proposed by the Board of Directors and resolved by the shareholders.

C. (a) In accordance with the regulations, the Company shall set aside special reserve arising from the debit balances in other equity items at the balance sheet date before distributing earnings. When debit balances in other equity items are reversed subsequently, an equal amount could then be used for distribution. For the decrease in the deduction amount to stockholder's equity is $1,075,145 for the year ended December 31, 2016. In accordance with the Company Act on special reserve, no dividends shall be distributed.

(b) The amounts previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Jin-Guan-Zheng-Fa-Zi Letter No. 1010012865, dated April 6, 2012, shall be reversed proportionately when the relevant assets, those other than land, are used, disposed of or reclassified subsequently. Such amounts are reversed upon disposal or reclassified if the assets are land.

D. The Company recognized dividends distributed to owners amounting to $600,075 ($0.38 (in dollars) and $505,327 ($0.32 (in dollars) per share) as cash dividends for the years ended December 31, 2017 and 2016, respectively.

(b) Risk management is carried out by a central treasury department (Group Finance Department) under policies approved by the Board of Directors. Group Finance Department identifies, evaluates and hedges financial risks in close cooperation with the Group's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

C. Significant financial risks and degrees of financial risks

a. Market risk

(a) Foreign exchange risk

i The Group operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the USD and China Yuan (the 'CNY'). Foreign exchange risk arises from future commercial transactions, recognized assets and liabilities and net investments in foreign operations.

ii The Group has certain investments in foreign operations, whose net assets are exposed to foreign currency translation risk. The Group's foreign operations are considered strategic investments; thus, no hedging for the purpose is conducted.

iii The Group's businesses involve some non-functional currency operations (the Company's functional currency: NTD; certain subsidiaries' functional currency: USD, CNY and VND.) The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

	June 30, 2017		
(Foreign currency: functional currency)	Foreign Currency Amount (in thousands)	Exchange Rate	Book Value
Financial assets			
Monetary items			
USD : NTD	$ 11,966	30.42	$ 364,006
USD : CNY	2,093	6.78	63,669
Financial liabilities			
Monetary items			
CNY :USD	142,000	0.147473	639,511
USD : NTD	8,511	30.42	258,905

(Foreign currency: functional currency)	December 31, 2016 Foreign Currency Amount (in thousands)	Exchange Rate	Book Value
Financial assets			
Monetary items			
USD : NTD	$ 8,857	32.25	$ 285,638
USD : CNY	1,326	6.95	42,764
Financial liabilities			
Monetary items			
CNY :USD	142,000	0.143988	659,395
USD : NTD	6,983	32.25	225,202

(Foreign currency: functional currency)	June 30, 2016 Foreign Currency Amount (in thousands)	Exchange Rate	Book Value
Financial assets			
Monetary items			
USD : NTD	$ 7,080	32.275	$ 228,507
USD : CNY	2,148	6.66	69,327
Financial liabilities			
Monetary items			
CNY : USD	142,000	0.1501	687,990
USD : NTD	853	32.275	27,531

iv As of June 30, 2017 and 2016, if the exchange rate of the Group's functional currency to USD had appreciated/depreciated by 1%, with all other factors remaining constant, the post-tax profit for the six-month periods ended June 30, 2017 and 2016 would have increased/decreased by $1,401 and $2,244, respectively. If the exchange rate of the Group's functional currency to CNY had appreciated/depreciated by 1%, with all other factors remaining constant, the post-tax profit for the six-month periods ended June 30, 2017 and 2016 would have increased/decreased by $5,308 and $5,710, respectively.

v The total exchange gain (loss), including realized and unrealized arising from significant foreign exchange variation on the monetary items held by the Group for the three-month and the six-month periods ended June 30, 2017 and 2016 amounted to $9,109, $3,308, ($47,038) and ($5,045), respectively.

(b) Price risk

i The Group is exposed to equity securities price risk because of investments held by the Group and classified on the consolidated balance sheet as available-for-sale. To manage its price risk arising from investments in equity securities, the Group has carefully determined its investing portfolio and has set various stop-loss points to ensure that it is not exposed to significant risks. Accordingly, no material market risk is expected.

ii The Group's investments in equity securities comprise domestic as well as foreign listed and unlisted stocks. The prices of equity securities would fluctuate due to the uncertainty of the future value of investee companies. During the six-month periods ended June 30, 2017 and 2016, if the prices of these equity securities had increased/decreased by 1% with all other variables held constant, other comprehensive income for the six-month periods ended June 30, 2017 and 2016 would have increased/decreased by $1,324 and $1,033 as a result of valuation gains/losses on equity securities classified as available-for-sale, respectively.

(c) Interest rate risk

i The Group's interest rate risk arises from short-term and long-term borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk which is partially offset by cash and cash equivalents held at variable rate. Borrowings issued at fixed rates expose the Group to fair value interest rate risk. For the six-month periods ended June 30, 2017 and 2016, the Group's borrowings at variable rate were denominated in NTD, USD, JPY and CNY.

ii During the six-month periods ended June 30, 2017 and 2016, if interest rates on borrowings had been 1% higher/lower with all other variables held constant, post-tax profit for the six-month periods ended June 30, 2017 and 2016 would have decreased/ increased by $1,916 and $2,433, respectively, mainly as a result of higher/lower interest expense on floating rate borrowings.

b. Credit risk

(a) Credit risk refers to the risk that the clients or counterparties of financial instruments will cause a financial loss for the Group by failing to discharge a contractual obligation. According to the Group's credit policy, each local entity in the Group is responsible for managing and analyzing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual credit limit is set by management through evaluating internal and external credit ratings. The utilisation of credit limits is regularly monitored. Credit risk arises from cash and cash equivalents and outstanding receivables and committed transactions. For banks and financial institutions, only independently rated parties with good ratings are accepted. The Group transacts with several banks to mitigate risk.

(b) For the six-month periods ended June 30, 2017 and 2016, no credit limits were breached during the reporting periods, and management does not expect any significant losses from non-performance by these counterparties.

(c) The Group provides endorsements and guarantees based on the Group's policies and procedures on endorsements and guarantees. The Group only provides endorsement or guarantee for subsidiaries that the Group directly holds more than 50% ownership, or for entities that the Group holds more than 50% ownership, either directly or indirectly, as well as the power to govern the policies. No collateral is requested for the endorsements and guarantees as the Group can control the credit risk of the subsidiary. The maximum credit risk is the guaranteed amount.

(d) For the credit ratings of the Group's financial assets, please refer to Note 6, Financial assets.

c. Liquidity risk

(a) Cash flow forecasting is performed in the operating entities of the Group and aggregated by the Group Finance Department. Group Finance Department monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Group does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities.

(b) Surplus cash held by the operating entities over and above the balance required for working capital management are transferred to the Group Finance Department. Group Finance Department invests surplus cash in interest bearing current accounts, time deposits and marketable securities, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the above mentioned forecasts.

(c) The table below analyses the Group's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

(d) The Group does not expect the maturity date to end early nor the actual cash flow to be materially different.

(3) Fair value information

A. Details of the fair value of the Group's financial assets and financial liabilities not measured at fair value is provided in Note 12(2)A, "Fair value information of financial instruments". Details of the fair value of the Group's investment property measured at cost is provided in Note 6(8), "investment property - net".

B. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in foreign exchange contracts is included in Level 2.

Level 3: Unobservable inputs for the asset or liability.

C. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities at June 30, 2017, December 31, 2016 and June 30, 2016 is as follows:

June 30, 2017	Level 1	Level 2	Level 3	Total
Assets:				
Recurring fair value measurements				
Available-for-sale financial assets				
Equity securities	$ 132,439	$ -	$ -	$ 132,439

December 31, 2016	Level 1	Level 2	Level 3	Total
Assets:				
Recurring fair value measurements				
Available-for-sale financial assets				
Equity securities	$ 122,642	$ -	$ -	$ 122,642

June 30, 2016	Level 1	Level 2	Level 3	Total
Assets:				
Recurring fair value measurements				
Available-for-sale financial assets				
Equity securities	$ 103,326	$ -	$ -	$ 103,326

D. The methods and assumptions the Group used to measure fair value are as follows:

a. The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	Listed shares
Market quoted price	Closing price

b. The valuation of derivative financial instruments is based on valuation model widely accepted by market participants, such as present value techniques and option pricing models. Forward exchange contracts are usually valued based on the current forward exchange rate.

E. For the six-month periods ended June 30, 2017 and 2016, there was no transfer into or out between Level 1 and Level 2.

F. For the six-month periods ended June 30, 2017 and 2016, there was no transfer into or out from Level 3.

13. SUPPLEMENTARY DISCLOSURES

According to the current regulatory requirements, the Group is only required to disclose the information for the six-month period ended June 30, 2017. The financial information of investees was reviewed by the independent accountants and disclosed individually. Elimination and adjustments for consolidation were not considered.

(1) Significant transactions information

A. Loans to others: Please refer to Table 1.

B. Provision of endorsements and guarantees to others: None.

C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Please refer to Table 2.

D. Acquisition or sale of the same security with the accumulated cost exceeding NT$300 million or 20% of the Company's paid-in capital: None.

E. Acquisition of real estate reaching NT$300 million or 20% of paid-in capital or more: None.

F. Disposal of real estate reaching NT$300 million or 20% of paid-in capital or more: None.

G. Purchases or sales of goods from or to related parties reaching NT$100 million or 20% of paid-in capital or more: Please refer to Table 3.

H. Receivables from related parties reaching NT$100 million or 20% of paid-in capital or more: Please refer to Table 4.

I. Trading in derivative financial instruments undertaken during the reporting periods: None.

J. Significant inter-company transactions during the reporting periods: Please refer to Table 5.

(2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China): Please refer to Table 6.

(3) Information on investments in Mainland China

A. Basic information: Please refer to Table 7.

B. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area: Please refer to Table 8.

14. SEGMENT INFORMATION

(1) General information

The management of the Group has identified the operating segments based on information provided to the Group's chief operating decision-maker in order to make strategic decisions. The Group's organization, basis of identification and measurement of segment information had no significant changes in this period.

(2) Measurement of segment information

The chief operating decision-maker evaluates the performance of operating segments based on segment pre-tax income.

(3) Information about segment profit or loss and assets

The segment information provided to the chief operating decision-maker for the reportable segments was as follows:

	Six-month period ended June 30, 2017				
	Taiwan	Tinplate Manufacturing (in Mainland China)	PET Package manufacturing (in Mainland China)	Others	Total
Revenue from external customers	$ 5,663,872	$ 2,572,813	$ 6,729,190	$ 674,771	$ 15,640,646
Revenue from internal customers	2,720,613	338,164	4,327	40,349	3,103,453
Segment revenue	$ 8,384,485	$ 2,910,977	$ 6,733,517	$ 715,120	$ 18,744,099
Segment income (loss)	$ 313,575	($ 58,800)	$ 496,211	$ 260,163	$ 1,011,149
Segment assets	$ 25,697,259	$ 8,352,809	$ 13,935,412	$ 16,403,932	$ 64,389,412

	Six-month period ended June 30, 2016				
	Taiwan	Tinplate Manufacturing (in Mainland China)	PET Package manufacturing (in Mainland China)	Others	Total
Revenue from external customers	$ 5,111,532	$ 2,934,532	$ 7,909,598	$ 851,392	$ 16,807,054
Revenue from internal customers	2,122,197	451,195	-	2,016,803	4,590,195
Segment revenue	$ 7,233,729	$ 3,385,727	$ 7,909,598	$ 2,868,195	$ 21,397,249
Segment income (loss)	$ 687,013	($ 126,176)	$ 631,516	$ 356,893	$ 1,549,246
Segment assets	$ 26,185,464	$ 8,878,144	$ 16,694,701	$ 18,214,983	$ 69,973,292

(4) Reconciliation for segment income (loss) and assets

A. Sales between segments were carried out at arm's length. Basis of measurement remained consistent with revenue in the statements of comprehensive income and revenue from external parties reported to the chief operating decision-maker. A reconciliation of segment profit or loss before tax to the profit or loss before tax from continuing operations is shown below:

	Six-month periods ended June 30, 2017	Six-month periods ended June 30, 2016
Reportable segments profit and loss	$ 750,986	$ 1,192,353
Other segments profit and loss	260,163	356,893
Elimination of intersegment transactions	(586,106)	(720,229)
Net income before income tax from continuing operations	$ 425,043	$ 829,017

B. The amount of total assets provided to the chief operating decision-maker adopts the same basis of measurement as assets in the Group's financial statements. The reconciliations between reportable segments' assets and total assets are as follows:

	June 30, 2017	June 30, 2016
Assets of reportable segments	$ 47,985,480	$ 51,758,309
Assets of other operating segments	16,403,932	18,214,983
Elimination of intersegment transactions	(25,115,243)	(27,124,310)
Total assets	$ 39,274,169	$ 42,848,982
