#### **2014 Business Report**

## Appendix (1)

2014 may be identified as a turn-around year. In terms of the entire economic environment and the Company's industrial trend, the price of raw materials and supplies as iron ore and petroleum declined drastically, the main market economy was improved significantly in the U.S.A., the economic structure transformed in Mainland China and the global economic drive turned to the West from the East. Though the global economic environment is transforming rapidly and the situation is changeable, the Company is relentlessly dedicated to conducting its principal business lines and to expanding new business development to increase the source of profit. The annual turnover for 2014 of Ton Yi was NTD 21.042 billion; profit before tax was NTD 930 million, and pre-tax EPS was NTD 0.59. The net profit after tax was NTD 776 million and after-tax EPS was 0.49.

Because the price of iron ore declined in the world and the economic growth in Mainland China is sluggish, the entire demand for iron and steel drops relatively. The main products of the Company, tinplate and tin mill black plate (TMBP), are essential consumer products and affected therefor. The shipment of the three products, tinplate, TMBP and cold rolled steel totaled 812,689 tons in 2014, decreasing by 17,238 tons from 829,927 tons in the previous year. Among which, the sales volume of cold rolled steel and TMBP, which are part of the steel sheet business division, was 559,447 tons, resulting in the turnover of NTD 12.329 billion. Sales volume declined by 0.13% year-on-year while operating revenue declined by 0.65%. The sales volume of the tinplate business division was 253,242 tons, resulting in the turnover of NTD 7.872 billion. Sales volume declined by 6.11 % year-on-year while operating revenue declined by 5.5%. The sales volume of the tin can business division was 152 million cans, resulting in the turnover of NTD 83 million. Sales volume declined by 10.22 % year-on-year while operating revenue declined by 5.78%.

We are the only company outside of Japan to have been awarded Japan's JIS3303 tinplate product quality certification, and also have obtained ISO9001, ISO14001, OHSAS18001 and TOSHMS certifications. Our company meets international standards of product quality, environmental management, industrial safety and hygiene. In 2014, we were also awarded ISO22000 & HACCP certification and CNS certification. Our tinplate products are highly competitive, and our ultra-slim cold rolled products are outstanding products in the industry. Our company has continuously developed our manufacturing technology to enhance productivity and yield rate which lowers our costs, and also invested consideration human resources and time in food safety management.

With regards to overseas business investment, our total revenue generated from Mainland China was RMB 5.043 billion in 2014, growing by 16.8% year-on-year. The key growth driver came from the continued expansion of newly invested businesses, among which

the sales volume of tinplate was 344,155 tons. Tin cans reached a sales volume of 601 million, tinplate's sales volume declined by 2.9% while sales volume for tin cans grew by 2.0%. Newly invested business in PET bottling materials and packaging materials brought in revenue of RMB 2.449 billion in 2014, growing by 60.4% year-on-year; the factory in Vietnam brought in revenue of USD 8.22 million through sales volume of 60,980 thousand tin cans, growing by 14% year-on-year.

In order to meet the rising demand of the beverage market in Mainland China, we have worked with Uni-President to proceed with our layout in Mainland China. We established the distinguished factories of PET beverage and packaging materials dedicated to manufacturing PET caps, bottle embryos and blown bottles, and producing hot filling and sterilized filling beverages in order to provide customers with more comprehensive products and services. Until 2014, we already have had 8 factories in Taizhou and Kunshan of Jiangsu Province, Zhangzhou of Fukien Province, Chengdu of Sichuan Province, Hueizhou and Chanjiang of Guandong Province, and Beijing. As a result, the productivity of PET and TP beverage was raised to 300 million boxes. Meanwhile, we established Changsha Ton Yi Packaging Co., Ltd. in Changsha of Hunan Province, which went into operation in 2014. Aside from the metallic packing business, Ton Yi is moving into the production of PET packaging materials and beverage production, and owns a total of 16 production and marketing locations domestically and overseas. Ton Yi has become an integrated provider of packaging materials and beverage, while continuing to provide consumers with "absolute" ease of mind in achieving our corporate social responsibility.

Looking forward to 2015, we will develop new business lines in addition to the original ones which remain well-founded. Given our core competence in the production of packaging containers and beverage materials, along with the integration of our developing beverage material production in Mainland China, we will continue to innovate in technology, nurture our talents, value environmental protection and food safety, fulfill the promotion of corporate governance, and develop sustainable environment and corporate social responsibilities, in hopes of benefiting employees, shareholders and the social environment at the same time.
