One. A Letter To Shareholders

Ladies and gentlemen :

In 2023, the global economy faced several challenges such as inflation and rising interest rates, geopolitical wars and political chaos, economic slowdown of China, and competition among global trade barriers. These challenges increased corporate operating risks and uncertainties, and weakened the demand for end products. The Company was no exception, resulting in a decline in overall operating performance compared with the same period in the past, but still gained profits throughout the year. We deeply thank the concerted efforts of all employees, the mutual trust and assistance of suppliers and partners, and the full trust and support of the Board of Directors and all shareholders, the Company's management team adheres to the consistent business principle of "seeking progress while maintaining stability" and the work discipline of "being steadily instead of rushing" to strive to ensure that the Company would continue to move forward stably in a changing environment. The operating performance of 2023 and future prospects are shown as follows:

(IV) Research and Development Status

Adhering to the management philosophy of “Integrity, Diligence, Innovation, and Progress to the Future”, we are committed to becoming the professional supplier of packaging materials including SPCC, PET bottle, and new bottle can (NBC) and the leader of beverages packaged them. Over the years, the Company has obtained international certifications for environmental management ISO 14001, quality management ISO 9001, safety and health management ISO 45001/TOSHMS, and food safety and health management ISO 22000/HACCP. In 2023, the Company further obtain the one and only HALAL certification for coated iron sheets and metal cans in Taiwan, providing customers with more choices of products. The TAF laboratory has also been established to conduct strict quality and safety checks for customers, suppliers, raw materials, processes and products.

II. Summary of Business Plan 2024

For 2024, the Company will pay close attention to the overall economic changes and industrial competition dynamics, adapt to changes, manage risks while seeking development opportunities, strive to strengthen the corporate resilience in sustainable operations, ensure stable operations in a changing environment, as well as reaching annual sales target of 2024, which includes 690 thousand tons of general cold-rolled, TMBP and tinplate, 665 million tinplate cans, 248 million boxes of PET and TP beverages, 5,376 million PET bottle caps, and 28 million new bottle cans (NBC) (including beverage filling of 3 million boxes).

III. Future Development Strategies of the Company

Externally, the Company strengthens relations with existing and newly developed business partners and deepens long-term cooperative relationships of mutual assistance, mutual trust, coexistence and common prosperity; internally, we improve management efficiency, fully implement work discipline, and adjust the production and sales structures. Through persistent O&M risk management, we maintain steady operations and growth of the Company.

Specific production and marketing strategies are as follows:

(I) Steel business:

1. The Company will continue to expand cooperation with major steel manufacturers in Taiwan and Japan from raw material supply to downstream product sales to establish a stable and resilient supply chain.
2. Optimize sales areas and product portfolios, improve production and sales efficiency, and promote the development of high-value products.
3. Strictly control inventory to mitigate operating risks caused by price fluctuations.

(II) Integrated packaging business:

1. Stabilize and promote existing high-quality major customers and develop and cultivate new customers with high potential.
2. Focus on the businesses of development of aseptic filling, new bottle can (NBC) filling and carbonated beverage filling, the Company will consolidate its domains with leading technology and develop new domains in the beverage market.
3. Effectively manage sales regions and production bases and plan to maximize profit through the smart use of group resources.

IV. Affect from Environments of External Competition, Regulations and

Overall Business Operation

Facing the challenges of the external situation, competitive environment and changes in laws and regulations in various countries, the Company's main focus of operations is still to seek progress while maintaining stability and abide by various legal norms. In particular, the worldwide emphasis on climate change has increased, and domestic and foreign environmental protection laws have become increasingly strict. The Company will also do the best to promote energy conservation and carbon reduction, and continuously improve its resilience, competitiveness and risk management capabilities to cope with the impact from the external environment and achieve the goals of sustainable development.

TWO. Company Profile

I. Date of Incorporation : April 14 1969

II. Milestones

Founding Phase: 1969~1973

The Company was founded by Mr. Chin-yen Kao and Uni-President Enterprise Corp. in a General Meeting in Tainan in 1969 with the appointment of Mr. Huan-yi Hung as the Chairman and Mao-lin Hsu as the President and stated capital of NT\$16 million. The Company is titled as "Ton Yi Agricultural Industrial Corporation" with principal engagement in "Ton Yi chickens" and "Ton Yi ducks" processing.

Transformation Phase: 1974~1983

Amidst the economic takeoff in Taiwan, the Company also set up the iron printing mill, canning plant and angled can plant and rechristened as "Ton Yi Industrial Corp." Mr. Chin-yen Kao was elected the Chairman by the Board of Directors. The Company also acquired "Ton Yi Industrial Co., Ltd.", a woven PP bags manufactory, to broaden the business horizon of the Company into the packaging material industry.

Growing Phase: 1984~1993

The stable economic growth of Taiwan contributed to the gradual commercialization of the society with proper international interactions. The Company introduced the technological-know-how from Japan to set up the tinplate plant, and was successfully listed in the Taiwan Stock Exchange Corporation (TWSE) for trading its stocks on January 29 1991.

Expansion Phase: 1994~2003

Ton Yi is committed to global development with roots in Taiwan, and has set up a plant in Taiwan for the manufacturing of tin mill black plates (TMBP) with successful integration of the upstream, midstream and downstream industries in tin plate manufacturing. Furthermore, the Company has also set up a can manufacturing plant in Vietnam and "Jiangsu Ton Yi Tinplate Co., Ltd." and "Fujian Ton Yi Tinplate Co., Ltd." in Mainland China. Commercial running was kickoff in this phase.

Globalization Phase: 2004~2010

In the wake of the rapid economic growth in Mainland China, the Company expanded its production lines in Guangzhou, Wuxi, and Zhangzhou for the manufacturing of canning and tinplate production in stable paces and buttressed its leading position of tinplate industry in Asia.

Diversification Phase: 2011 and beyond

In response to the growth of the beverage market in mainland China, we have deployed packaging materials and filling capacities for PET bottles and TP Tetra Paks by establishing production bases in "Beijing," "Tianjin," "Jiangsu Taizhou," "Jiangsu Kunshan," "Jiangsu Wuxi," "Fujian Zhangzhou," "Guangdong Huizhou," "Guangdong Zhanjiang," "Sichuan Chengdu Wenjiang" and "Sichuan Chengdu Xindu" in China. We have also established a joint venture with Japan's Daiwa Can Solution & Invention to invest in establishing NBC's new aluminum bottle and can packaging material production and sales base in Wuxi City, Jiangsu Province. We focus on innovation and progress by enhancing product value for clients, fulfilling corporate sustainability via environmental protection, and actively becoming a leading manufacturer of diversified packaging materials and beverages.

Note 1. All of our directors do not have any situations specified in Article 30 of the Company Act.

2. Diversity and independence of the board of directors:

(A). Diversity

- (1). Our company has established the "Corporate Governance Best Practice Guidelines" and "Director Nomination Procedures," which outline the abilities and diversity that the board of directors should possess. To ensure diversity among board members, no more than one-third of the directors should also serve as company executives. We have developed appropriate diversification policies based on our operational needs and development requirements, taking into account the following two main areas :
- (1-1) Basic qualifications and values: gender, age, nationality, and culture, etc.
- (1-2) Professional knowledge and skills: professional backgrounds (such as law, accounting, industry, finance, marketing, or technology), professional skills, and industry experience, etc.
- (1-3) Specific management goals and achievements are as follows:

Management Objectives	Achievement Status
Directors who also serve as company managers shall not exceed one-third of the number of directors:	Achieved
Setting up a board of independent directors requires a minimum of three individuals, with at least one person possessing expertise in accounting or finance.	Achieved

(2). Diversity of members of the board of directors of the company :

- (2-1) Basic Conditions and Values: gender, age, nationality, and culture.
Currently, our company has 10 members on the board of directors, with one female member. The average age is 67.2, and there are two staff members and three independent directors, all of whom are in their first term and have served for less than 9 years.
- (2-2) Professional Knowledge and Skills: Professional Background, Skills, and Industry Experience
- ① General Board Members: The members consist of various backgrounds, skills, and industry experiences, including the UCLA Anderson School of Management, Shih Chien University's Accounting Department, National Cheng Kung University's Graduate Institute of Mechanical Engineering, National Cheng Kung University's Executive Master of Business Administration program, Marymount College USA, and other professional backgrounds.
- ② Independent Board Members: The members consist of individuals with professional backgrounds, skills, and industry experiences such as a PhD in Computer Science from Purdue University, a PhD in Business Administration from National Sun Yat-Sen University, the Accounting Department of Soochow University, a Master's degree in Management from National Sun Yat-Sen University, qualification as a certified public accountant, a professor in the Accounting Department and the Institute of Finance at National Cheng Kung University, and a full-time assistant professor in the Department of Finance and Banking at Southern Taiwan University.
- ③ Composition and Professional Capabilities of the Board Members: Please refer to Note 1.

(B). Independence

Our company has three independent directors, accounting for 30% of all board members. When appointed, we conducted a qualification check for independent directors and issued a declaration. We also obtained a declaration of independence and part-time employment from each independent director to confirm compliance with Securities and Exchange Act Article 26-3(3) and (4). Please refer to Director Information (1) to confirm that our board of directors meets the independence requirement as more than half of the directors are not related by marriage or within second degree of kinship.

- (1). Remuneration paid by the Company and all companies included in the consolidated financial statements to the Company's directors, supervisors, President and Vice Presidents in the last two years, and percentage relative to consolidated or standalone net income:

Title	Year	2022	2023
		The Company and all consolidated companies(Note 1)	The Company and all consolidated companies(Note 1)
Directors		4.06%	3.35%
President		1.06%	1.44%

Note 1 : The Company's net income after-tax in 2022 was NT \$ 2,246,437,000, net income after-tax in 2023 was NT \$ 681,165,000.

Analysis instructions

- (1). The total amount and proportion of directors' remuneration in 2023 decreased compared with that in 2022, which was due to the decrease in after-tax net income in 2023.
(2). The total remuneration of the general manager in 2023 will decrease compared with 2022, but the proportion of after-tax net income will increase. The main reason is that part of it is fixed remuneration, and the conversion ratio will increase.

- (2). The Company has assembled a Remuneration Committee as required by law. This committee is responsible for the establishment and regular review of the Company's compensation policies, systems, standards, structures, packages, the procedures through which decisions are made, and association between performance and future risks:

(2-1) The distribution ratio of the Company's director remuneration complies with Article 30 of the Company's articles of incorporation. If the company makes a profit in the current year, it shall allocate no more than 2% for director remuneration. To regularly evaluate the remuneration of directors, the evaluation items of the remuneration committee according to the performance evaluation method of the Company's board of directors are as follows: Evaluation results for the ability to master company goals and tasks, awareness of directors' responsibilities, company operations participation, internal relationship management and communication, professionalism and continuous education for directors, and internal control. After reviewing the link between directors and business performance, recommend a proposal on the actual allocation ratio, and submit it to the board of directors for resolution.

(2-2) The general manager and assistant managers of the Company shall manage all the Company's affairs according to the decisions made by the board of directors pursuant to Article 26 of the Company's Articles of Incorporation. Appointment, dismissal, and remuneration of managers shall be determined by a board of directors meeting attended by over half of the directors and a resolution approved by over half of the directors present. Manager's compensation is determined based on the company's salary system and business performance evaluation procedures. The performance evaluation items for bonuses include the Company's revenue, the achievement rate of pre-tax net profit and after-tax net profit, and the major deficiencies in the departments' legal compliance and operational risk matters under the manager's jurisdiction. Contribution corresponding to the overall operation of the Company shall be reviewed and approved by the chairman of the board according to the operating performance of each manager.

(2-3) For the directors and managers listed in items 2-1 and 2-2 above, the "Salary Policies, Systems, Standards, and Structure" and "Salary Remuneration" must comply with the provisions provided by the "Regulations Governing the Appointment and Exercise of Powers by the Remuneration Committee of a Company Whose Stock is Listed on the Taiwan Stock Exchange or the Taipei Exchange" and be submitted to the Company's "Remuneration Committee" for review.

IV. Corporate Governance

(I) The State of Operation of the Board of Directors

① The State of Operation of the Board of Directors

In 2023 and as of the publication date of the annual report, the board of directors held 7 meetings (A), and the attendance of directors is as follows:

Independent Director	Yi-Chang Lin	7	-	100%	
	Lih-Chyun Shu	7	-	100%	
	Huey-Cherng Tsai	7	-	100%	

Other remarks:

- I. For board of directors meetings that meet any of the following descriptions, state the date, session, the discussed agenda, independent directors' opinions and how the company has responded to such opinions:
 - (I) Conditions described in Article 14-3 of the Securities and Exchange Act: We have set up an audit committee, so the provisions of Article 14-3 of the Securities and Exchange Act do not apply to our company. For information regarding the matters listed in Article 14-5 of the Securities and Exchange Act, please refer to the operation of the audit committee.
 - (II) Any other documented objections or qualified opinions raised by independent director against board resolution in relation to matters other than those described above: None.
- II. Disclosure regarding avoidance of interest-conflicting agendas, including the names of directors concerned, the agendas, the nature of conflicting interests, and the voting process:
 - (I) Before each board meeting to recognize and discuss matters, the emcee will read out the prohibition of insider trading and the director's avoidance system. If the proposal has an interest in himself or the legal person he represents, the emcee will remind the relevant personnel who should leave and recuse themselves.
 - (II) As of the publication date of the annual report in 2023, a total of 7 meetings were held, all of which were conducted in accordance with the "Board of Directors Rules of Procedure".
- III. A TWSE/TPEx listed company shall reveal the information such as evaluation cycles, evaluation periods, scope, method and evaluation content, and so on of self-evaluation (or peer evaluation) of the Board of Directors: In November 5th, 2019, our company passed the "Board Performance Evaluation Methods" during the 4th meeting of the 17th Board of Directors. Starting from January 1st, 2020, we have been conducting self-evaluation or peer evaluation of the Board of Directors (including functional committees) annually, and will declare the

performance evaluation results before the end of the first quarter of the following year. The performance evaluation results of the 2023 Board of Directors, board members, Compensation Committee, and Audit Committee will be reported on March 5th, 2024 by the Compensation Committee and the Board of Directors.

IV. Enhancements to the functionality of board of directors in the current and most recent year, and the progress of such enhancements

- (I) The Company established the Salary and Remuneration Committee on September 30, 2011, and the Audit Committee on June 20, 2013, to assist the Board of Directors in improving its operations. Proposals submitted to the Board of Directors for resolution by the functional committee in accordance with regulations are all approved by the committee. Afterwards, it is sent to the board of directors for adoption and implementation.
- (II) On March 28, 2017, our company established a Corporate Governance Practice Project Team to implement the "Corporate Governance Practice Guidelines" formulated by the Board of Directors. On March 25, 2019, in accordance with the "Key Points for the Establishment and Exercise of Powers by the Board of Directors of Listed Companies," the team proposed to establish the "Corporate Governance Officer," to be concurrently held by the Financial Manager, Mr. Wen-Lin Chuang. The main responsibilities of the officer include: 1. Handling matters related to meetings of the Board of Directors and shareholders' meetings in accordance with the law. 2. Preparing minutes of meetings of the Board of Directors and shareholders' meetings. 3. Assisting directors in their appointment and continuous learning. 4. Providing information necessary for the directors' business operations. 5. Assisting directors in complying with laws and regulations. 6. Review of the legality of the qualifications of independent directors. 7. Assist in handling matters related to the change of directors. 8. Other matters stipulated in the company's articles of incorporation or contracts. And on March 5, 2024, the 12th meeting of the 18th board of directors reported on the implementation of corporate governance and reviewed the independent directors' compliance with laws and regulations during their tenure.
- (III) In accordance with the Financial Supervision and Administration Commission's letter No. 1090150022 and 10901500221 on March 31, 2021 and Article 237 of the Company Law, and in conjunction with the Corporate Governance 3.0-Sustainable Development Blueprint plan, the composition of the board of directors and the number of directors will be adjusted. In order to comply with the regulations of future competent authorities, the 6th meeting of the 18th Board of Directors on March 7, 2023 passed the resolution to amend the company's "Articles of Association" and submitted it to the shareholders' meeting for approval on June 15, 2023. Implementation Items	Implementation Status			Reasons for Deviation from the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies
	Yes	No	Description	
1. Has the Company established a governance structure to promote sustainable development, set up a dedicated (part-time) unit to promote sustainable development, has the board of directors authorized senior management to handle the matter, and what is the board of directors' supervision status?	√		<p>The Company has established a “Sustainable Development Promotion Team” according to the “Corporate Social Responsibility Best Practice Principles” formulated by the Company in 2014, which was later renamed “Sustainable Development Best Practice Principles” in March 2022. The general manager of the management team authorized by the board of directors serves as the project convener, which directly plans and coordinates a cross-departmental project team to implement internal and external communication and management, formulate the Company's sustainable development policies, and implement and review the system.</p> <p>The sustainable development promotion team regularly reports the sustainable development implementation plan and results to the board of directors (at least once a year). It reported to the board of directors twice in 2023. The contents include: (1) Identifying and focusing on major themes and communication methods; (2) sustainability-related objectives and implementation results; and (3) practicing various risk descriptions and control procedures.</p> <p>The Company's board of directors has regularly considered the reports from the management team (including ESG-related content) every quarter, provided timely suggestions for the Company's proposed strategies and business performances, and improved the functions of the Company's board of directors through various organizations and mechanisms.</p>	No difference.
2. Does the company establish exclusively (or concurrently) dedicated first-line managers authorized by the board to be in charge of proposing the corporate social responsibility policies and reporting to the board?	√		<p>The scope of the disclosure is the Taiwan factory information for Ton Yi Industrial Corporation. The goal is to identify environmental, social, and corporate governance issues for risk assessment according to sustainability report analyses under the materiality principle; communications with internal and external stakeholders; and reviews of industry-related reports, documents, and evaluation data from various departments of the Company. The Company has formulated various risk management procedures to reduce the impact of related risks according to its risk management policies and regularly disclosed them on the Company's website and sustainability reports.</p>	No difference.
3. Issues of Sustainable Environment Development				
(1) Does the company endeavor to utilize all resources more efficiently and use renewable material which have low impact on the environment?	√		<p>(1) The Company has passed the ISO 14001 certification (valid from 2021.11.03~2024.10.30) and developed and implemented the Company's operations accordingly. Each year, the Company has operated according to the planned system standards, implemented internal and external audits, held regular management review meetings, and continued to improve.</p>	No difference.
(2) Does the Company devote itself in energy efficiency and using recycled materials with low impact on the environment?	√		<p>(2) The Company has always been committed to environmental protection, improving the effective use of resources, and establishing the “Environmental Protection and Green Management” policy. The goal is to reduce the load and impact on the environment, gradually replace high-energy-consuming products, select energy-saving equipment, and manage various energy-consuming systems to effectively utilize reusable and recyclable resources throughout the business development process, the pallet (wooden pallet and plastic pallet) recycling rate in 2023 is 82%</p>

Note 1

Climate Risks and Opportunities		Potential Impact	Impact Duration	Financial impact	Management practices	Future goals
Physical risk	Increased frequency and severity of climate extremes	Increased frequency of water restrictions, resulting in production interruption or reduction, affecting delivery schedule operations.	Medium-term (3-5 years)	Impact on delivery schedule, revenue and increase in insurance expenses.	Maximize the use of water resources. The discharged water is recycled and reused after treatment to accelerate the reuse rate of water resources.	Mitigating the impact of natural disasters on business operations.
	Average temperature rise	The increase in average temperature results in more energy consumption to maintain the operating efficiency of equipment.	Long-term (over 5 years)	Electricity costs have increased.	Use energy-saving equipment.	Continue to replace energy-intensive equipment with energy-saving equipment.
Transition risk	GHG emission pricing	The "Climate Change Response Act" stipulates the mechanism of carbon fee collection.	Medium-term (3-5 years)	The increase in operating costs affects the competitiveness of products.	Inventory the Company's current carbon footprint, optimize manufacturing processes, and use energy-efficient equipment.	Reduction of carbon emissions. The goal is to reduce the Scope 1 and Scope 2 GHG emission in 2030 by 25% from the base year (2014).
	Cost of low-carbon technology transformation	As a major power user, Ton Yi Industrial has been required to install 10% renewable energy within five years in accordance with the Tainan City Government's Self-Governance Regulations.	Medium-term (3-5 years)	Renewable energy sources that are not installed in accordance with the law are required to pay government surcharge.	Construction of solar power generation system to use renewable energy. The construction of solar power facilities with a power generation capacity of 3.35MW began in 2023 and is expected to be completed in 2024. By then, it will be able to reduce power use by 4 million KWH and reduce greenhouse gas emissions by about 1,980 tons.	Utilize green renewable energy to reduce product carbon emissions.
	Changes in customer preferences	The size of the carbon footprint of a product affects customers' willingness to purchase.	Mid- and long-term (3-5 years or more than 5 years)	Reduced orders and revenues	In 2023, the Company conducted carbon footprint calculation for the Company's tinplate negative products, and strived to optimize the production process, and adopted low-energy-consumption equipment to reduce the carbon footprint of the products.	Develop and provide customers with highly recyclable and low-carbon products.

	Rising raw material costs	Affect operating costs and the selling price pass-through ability.	Short-term (0-3 years)	Test the affordability and ability to transfer the cost.	Develop high value-added products and customers.	Mitigating the impact of raw material costs on operations.
Opportunities	Diversified supply	As a local supplier, we have the advantage of stable supply to lower the impact of international steel price fluctuation and unstable supply for customers.	Short-term (0-3 years)	Reduce the supply risk of raw materials. The advantage of stable supply enables the Company to win new customers and strengthen connections with global customers, thereby increasing revenue.	Utilize the two production bases in Taiwan and China to serve global customers.	Reduce the difficulty of delivery due to force majeure caused by extreme weather.
	Changing consumer preferences	The macro environment and consumers vigorously promote environmental protection actions.	Long-term (over 5 years)	Products with recycling value are more easily promoted by environmental groups and increase their visibility.	Launched new products and materials for beverage-filling aluminum cans.	Diversified and efficient packaging materials business.

Note 2: The Company's greenhouse gas inspection and assurance in the last two years:

<p>1.Establishment of integrity policies and solutions</p> <p>(1)Does the company establish its ethical corporate management policies through adoption of Board of Directors Meeting, declare such procedures in its guidelines and external documents, as well as the commitment from its board and veteran managerial staff to implement the policies?</p> <p>(2)Does the company establish policies to detect unethical conduct, periodically analyze inspect business activities where there is high risk for unethical conducts to occur, and set up preventive measures accordingly, which includes at least preventions for conducts specified in Article 7 item 2 of Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies?</p> <p>(3)Does the company establish appropriate precautions against high-potential unethical conducts or listed activities stated in Article 2, Paragraph 7 of the Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies, and make periodical review and amendment for the aforementioned policy?</p>	<p>√</p> <p>√</p> <p>√</p>		<p>(1). The Company’s “Ethical Corporate Management Best Practice Principles” has been adopted by the Board of Directors on May 6, 2015, which has specified the ethical management policy, conducts, and the commitment that the Board and the managerial staff should make on implementing such policies. The “Ethical Corporate Management Best Practice Principles” and relevant regulations have been disclosed on the Company’s website and MOPS.</p> <p>(2).The Company follows the Group’s policy to observe various legal regulations and other laws related to business conducts. The Company’s “Ethical Corporate Management Best Practice Principles” includes the preventive measures for the conducts specified in Article 7 item 2; all sections of the organization are required to implement the rules.</p> <p>(3).The Company’s “Procedures for Ethical Management and Guidelines for Conduct” was adopted by the Board of Directors Meeting on May 6, 2015. Relevant operational procedures, guidelines of conducts, penalty for violators, and system for filing complaints have been specified in the aforementioned procedures, and the “Ethical Management promotion committee” is responsible for carrying out relevant tasks.</p>	No difference.
<p>2. Enforcing ethical management</p> <p>(1)Does the company evaluate the integrity of all counterparties it has business relationships with? Are there any integrity clauses in the agreements it signs with business partners?</p> <p>(2) Does the company establish an exclusively dedicated unit supervised by the Board to be in charge of promoting corporate integrity, and periodically (at least once a year) report to the Board about the ethical operation policy and prevention of unethical conducts?</p> <p>(3)Does the company have any policy that prevents conflict of interest, and channels that facilitate the report of conflicting interests?</p>	<p>√</p> <p>√</p> <p>√</p>		<p>(1).For the purpose of establishing counterparty’s integrity, the Company makes inquiries on the website of the Ministry of Economic Affairs before engaging trade partner in any actual transaction. Trade partners are also informed and instructed to comply with the Company’s transparency policy, while penalty clauses have been outlined in every contract to entitle the Company the right to terminate contract and claim compensation for all losses suffered as a result of trade counterparty’s default or inappropriate actions.</p> <p>(2).The Company had a designated unit for promoting ethical management. To observe the government’s policy, the Board proposed to organize the “ethical management promotion committee” on May 6, 2015. The committee directly reports to the Board of Directors, and the chairperson serves as the convener to promote corporate ethical management across various departments (including the general manager’s office, technician team, business team, planning department, department of general affairs, human resource department, procurement department, department of overseas affairs, and other sections); the state of implementation should be reported to the Board of Directors periodically (at least once a year). On March 5, 2024, a report on the implementation of integrity management was carried out.</p> <p>(3).The Company has outlined in its Corporate Governance Principles the circumstances in which stakeholders are bound to avoid conflict of interest, and that any transactions or contracts made by the Company and affiliated enterprises with shareholders must be founded on fair grounds. This principle also applies to the controlling shareholder and directors in regards to matters that concern their own interests. Offering and acceptance of private benefits are strictly prohibited.</p>	No difference.

1. Statement of Internal Control System

Ton Yi Industrial Corp.

Statement of Internal Control System

Date: March 5, 2024

The internal control system from January 1 to December 31, 2023, according to the result of self-assessment is thus stated as follows:

1. The Company acknowledges that the implementation and maintenance of internal control system is the responsibility of Board of Directors and management, and the Company has established such system. The internal capital system is aimed to reasonably assure that the goals such as the effectiveness and the efficiency of operations (including profitability, performance and protection of assets), the reliability of financial reporting and the compliance of applicable law and regulations are achieved.
2. An internal control system has inherent limitations. No matter how perfectly designed, an effective internal control system can provide only reason assurance of accomplishing its three stated objectives above. Moreover, the effectiveness of an internal control system may be subject to changes due to extenuating circumstances beyond our control. Nevertheless, our internal control system contains self-monitoring mechanisms, and the Company takes immediate remedial actions in response to any identified deficiencies.
3. The Company evaluates the design and operating effectiveness of its internal control system based on the criteria provided in the Regulations Governing the Establishment of Internal Control Systems by Public Companies (herein below, the Regulations). The criteria adopted by the Regulations identify five key components of managerial internal control: i. Control environment, ii. Risk assessment, iii. Control activities, iv. Information and communication, and v. Monitoring activities.
4. The Company has evaluated the design and operating effectiveness of its internal control system according to the aforesaid Regulations.
5. Based on the finding of such evaluation, the Company believes that, on December 31, 2023 it has maintained, in all material respects, an effective internal control system (that includes the supervision and management of our subsidiaries), to provide reasonable assurance over our operational effectiveness and efficiency, reliability, timeliness transparency of reporting, and compliance with applicable rulings, laws and regulations.
6. This Statement is an integral part of the Company's annual report for the year 2023 and prospectus, and will be made public. Any falsehood, concealment, or other illegality in the content made public will entail legal liability under Articles 20, 32, 171 and 174 of the Securities and Exchange Law.
7. This statement was approved by the board of directors in the meetings held on March 5, 2024, with none of the ten attending directors expressing dissenting opinions, and the remainder all affirming the content of this Statement.

Note 3: Cash dividend yield rate = cash dividend per share / average closing price per share for the year.

Note 4: Up to the date of publication of the annual report, the first quarter of the financial statements for 2024 is yet to be reviewed by the accountants.

Note 5: The distribution of earnings in 2023 is yet to be approved by the shareholders' meeting.

(VI) Dividend policy of the Company and pursuit of policy

1. The Company is at a stage of stable growth but in an unpredictable industry environment. The board of directors' proposal for earnings distribution shall consider the Company's future capital expenditure budget and capital demands, as well as balance the needs to meet the earnings demand for funds in order to determine the amount of earnings retained or allocated and to distribute dividends to shareholders in cash. If there are earnings in the final accounts each year, the Company shall pay the income tax on profit-seeking enterprises and make up for the previous losses. If there is still a balance, the Company shall appropriate 10% as legal reserve and special reserve in accordance with the law. After accumulating the undistributed earnings for the previous year, dividends for the shareholders may be accumulated to 50% to 100% of the distributable earnings of which stock dividends and cash dividends will account for 30% of the amount respectively. The board of directors then proposes an earnings distribution plan, which shall be submitted to the shareholders' meeting for resolution.

2. The company's future dividend distribution plan is in accordance with the dividend policy principles stipulated in the articles of association. Among them, the company's 2023 earnings distribution proposal has been approved by the board of directors on March 5, 2024. It is planned to pay a cash dividend of 0.3 yuan per share, pending the shareholders' meeting resolution.

(VII) The influence of stock dividend proposed in the upcoming General Meeting of shareholders on the operation performance and earnings per share of the Company:

Not applicable

(VIII) Remuneration to the employees and Directors

1. The percentage or range of remuneration to the employees and Directors as stated in the Articles of Incorporation of the Company:
In accordance with the Company's Articles of Incorporation, the Company shall deduct the accumulated losses according to the profitability of the current year, if there is still a balance; the Company shall distribute the compensation of employees at a rate no less than 2% and shall distribute the compensation of directors at a rate not higher than 2%.
2. The accounting of the difference between the estimates of remuneration to the employees the Directors, the basis for the calculation of outstanding shares for dividend payment and the actual amount paid out.
 - (1) The estimated amount of compensation for employees and directors of this period: The Company shall multiply the ratio of the distributable earnings after taxation of the year at a rate no more than 2% as stated in the Articles of Incorporation for the estimation of compensation to the directors.
 - (2) The calculation based on number for employee shares of stock for this period: None.
 - (3) Accounting discrepancy between the actual distributed amount of stock dividend and estimated figure: This is regarded as a change in accounting estimates and is classified as current gains and losses.
3. Information on employees and directors' remuneration approved by the board of directors for 2023
 - (1) The amount of remuneration of employees and directors in cash
 - a. Remuneration of employees in cash: NT\$ 38,101,920.
 - b. Remuneration of directors in cash: NT\$ 3,192,516.
 - (2) The proportion of employees' compensation paid by shares and their proportion of the net profit after tax and the total amount of employees' compensation in the current period: None.
4. The actual remuneration distributed to employees and directors in the previous year:
 - (1) The actual employee remuneration distributed from the 2022 surplus is NT\$139,557,567, which is no different from what is recognized in the financial report.
 - (2) The actual distribution of directors' remuneration from the 2022 surplus is NT\$52,472,741, an increase of NT\$12,036,860 compared with the recognition in the financial report. This is mainly due to the difference in estimation and calculation, which has been adjusted in the profit and loss for 2023.

(VIII) The company bought back the company's shares: None.

II. Handling of corporate bonds: None.

III. Preferred shares, overseas depositary receipts, employee stock option certificates, RSA, merger and acquisition or acceptance of new shares from assignment: None.

IV. Attainment of the capital utilization plan: None.

- (1) Tinplate packaging products: TMBP, SPCC, tinplate, and color printed tinplate, tin cans / rectangular cans.
- (2) Plastic packaging (including fillings) products: PET bottle caps, perform, filling PET bottled beverages and TP beverages.
- (3) Aluminum packaging (including filling) products: NBC, lid of NBC, and beverage filling for NBC.

(II) Industry overview

1. Current status and development of the industry

Tinplate packaging products:

Tinplate features a number of advantages and properties, which provides good physical and chemical protection of the contents, making it suitable for a wide range of applications; from food and beverage packaging material to grease cans, chemical tanks and other types of cans. Tinplate has excellent processing properties, and has recently been used in electronic parts, cables, batteries, stationery, hardware, etc. As the economy in Asia rapidly develops, the increase of income shall drive the growth of tinplate for packaging, especially in Mainland China, Southeast Asia and India. Tinplate is an iron sheet with a layer of tin/chromium plating on the surface. It was called tinplate in the early days, and its official name should be tin/chromium-plated steel sheet. The upstream industry uses hot-rolled coils as raw materials to produce downstream products such as tinplate negatives, general cold-rolled steel plates, tinplate, and iron cans.

Tinplate can provide good protection in terms of physical and chemical properties (waterproof, airproof, and lightproof) for the contents of the package. Empty cans/empty barrels made of tinplate can be used to fill and pack various canned foods and beverages, edible oil, and processed chemical products such as paints, resins, and inks. In addition, tinplate negatives/general cold-rolled plates and tinplate have good processability, so they are also widely used in galvanized varnished sheets, automotive gaskets, automotive oil filters, electronic parts, cables, batteries, stationery, hardware and other products

Related products made from tinplate are daily necessities and are less affected by economic fluctuations. In addition, tinplate is recyclable and has a high reuse rate. Even if it is discarded, it can be naturally decomposed and returned to the earth, in line with the requirements of environmental protection trends!

Plastic packaging (including filling) products:

PET bottle has the advantages of light weight, easy carrying and durability, and is widely used. Compared with other packaging materials, its light weight is low in transportation cost, and has good commercial competitiveness and prospects. It is one of the mainstream packaging products in the market at present.

The Company's business scope has expanded into plastic packaging (PET bottles, PET bottle preforms, bottle caps) and beverage filling (PET bottles, TP), and has focused on aseptic beverages through resource integration within the Group. For the refilling and carbonated beverage filling businesses, the Company will continue to promote and solidify its leading technologies and develop new areas of the beverage market.

In recent years, as consumers have become increasingly concerned about health and environmental protection, packaging materials products have also faced new challenges and opportunities. We will continue to improve the production process and enhance the sustainability of products to respond to future market changes.

Aluminum packaging (including filling) products:

Aluminum-clad beverage cans bring convenience to consumers due to their light weight, easy transportation, and fast cooling speed. At the same time, their high recycling rate has become an important option for beverage brands moving towards sustainability.

The Company's new bottle can (NBC) functions as a packaging material composed of aluminum that has been film-coated. In conjunction with the advantageous properties of metal cans, including resistance to external influences, effective preservation, and extended shelf life, the NBC's resealable cap caters to the drinking habits of consumers in a convenient manner. Beverages including coffee, tea, carbonated drinks, fruit juice, sports drinks, functional drinks, and alcoholic beverages can all be contained within the NBC packaging. The manufacturing procedure satisfies standards for food safety and environmental protection and can be contracted by major brands to increase the market competitiveness of their products.

2. The relationship between upstream, midstream and downstream

The correlation between the upper, middle and lower reaches of the tinplate, plastic and aluminum packaging materials (including filling) industries of our company's products will be explained:

(1) Tinplate products

Upstream: hot rolled steel raw materials

Midstream: Tinplate negatives/tinplate products

Downstream: metal processing industry/food/beverage/chemical products

(2) Plastic packaging materials (including filling) products

Upstream: beverage raw materials/plastic raw materials

Midstream: plastic packaging and filling services

Downstream: beverage brand industry/consumers

(3) Aluminum packaging materials (including filling) products

Upstream: beverage raw materials/aluminum coils

Midstream: Aluminum packaging and filling services

Downstream: beverage brand industry/consumers

3. Product development trends and competition

Tinplate products are widely available. General cold-rolled steel products can be used for electronic parts, household items, steel furniture, building materials, etc., whereas tinplate products and plastic packaging materials are used more for food and beverages. With the rapid development of the economies and technologies of Mainland China, Southeast Asia and India, more people are now pursuing convenience and a leisure lifestyle in these markets. In turn, this is leading to the growth of various packaged food and beverage products. The regions mentioned above are densely populated and are experiencing rapid economic growth which attracts capital and operations from all over the world to compete. With their sizeable markets and consumption ability, along with the Company's stable foundation in the tinplate industry, the Company remains confident despite the intense competition. The products of Ton Yi Industrial have a wide range of applicability. General cold-rolled steel products can be used for electronic components, home appliances, steel furniture, construction materials, etc., while tinplate, plastic and aluminum packaging products are mostly used in consumer goods such as food and beverage. With the development of economy and technology, especially the rapid economic growth in Mainland China, Southeast Asia and India, people seek convenience and leisure life. Therefore, the consumption

of various packaged foods and beverages grows considerably each year. This area is densely populated and economically growing. However, the market is large and the consumption power is strong. In addition, the Company has a stable foundation in the tinplate industry, coupled with the advantages of the Group, and is confident despite the competition.

(III) Technology and R&D

Our company continuously maintains and elevates the levels of quality and technology through strict quality control, standardization, automation, and other internal controls. In 1992, we were honored to receive JIS certification from the Japanese Ministry of International Trade and Industry, becoming the first company outside of Japan's steel industry to obtain JIS certification for galvanized steel. This fully demonstrates our company's consistent commitment to excellence and quality control. Additionally, we obtained ISO 14001 environmental management system and ISO 9001 quality management system certification in 1997 and 2005, respectively, which we have continuously maintained to date. In pursuit of both environmental management and prioritizing quality, we have developed SPCL ultra-high adherence galvanized steel that aligns with environmentally protective measures. We have also developed new steel sheets for emerging computer components and various deep-drawn material products, responding to the new trends of the times.

There is a dedicated Quality Assurance Research and Development Department which oversees units in Research and Development and Quality Management. The department regularly sends representatives to receive professional training both domestically and abroad, and gathers information on technological and market developments both domestically and internationally. They are responsible for improving production processes in both theory and practice, enhancing product quality, and developing new products.

Specific goals: (1).Build a renewable energy power generation system. (2).Respond to the thinner material trend. (3).CAL ultra-low carbon steel new product development. (4).Provide employees with a safer and friendlier work environment. (5).Reuse of water resources and energy saving and carbon reduction.

Specific achievements: (1).Completed the photovoltaic system project contracting operation and will be completed in the second half of 2024. (2).Improve TMBP material uniformity and processability to meet the clients' diversified demands. (3).Commercialization of ultra-low carbon steels. (4).R&D on the applicable properties of ultra-low tin sheet and coated iron. (5).Develop ultra-thin steel plate process technology. (6). Continue to optimize the program control, software and hardware of existing production lines to improve energy efficiency. (7). Introduce labor-saving and automatic devices to reduce the burden on the workforce. (8).Develop the recycling and reuse of discharged water.

In addition to supplying tinplate to food, beverage, and container manufacturers all over the world, TYCI has also added plastic packaging and beverage filling materials since 2011 to extend its original food and beverage related R&D technology, which was introduced in 2014 ISO 22000 & HACCP food safety management system, and obtained CNS national standard product certification, and obtained HALAL certification in July 2022 to provide consumers with the best protection. The Overseas Integrated Packaging Business has established a food safety testing center for food contact materials and finished products in 2020, which is accredited by CNAS.

(IV) Business Development Plan in the Long and Short Run

1. Short-term business development plans:

Integration of the production bases in Taiwan, Mainland China and Vietnam to perform the best in division of labor in production and sales.

2. Long-term business development plans:

In response to various global and regional economic and trade agreements and economic integration

and the increasingly frequent international trade barriers in the future., the Company diversifies risks for maximum benefits by having production bases in Taiwan, Mainland China and Vietnam and cooperates with upstream and downstream raw material suppliers and product customers for a tight supply chain system.

II. Market Sale and Production

(I) Market Analysis

1. Premium items

Unit: NT\$ in millions

Product \ Year	Consolidated revenue in 2023		Distribution by marketing region	
	Amount	Percentage	Mainland China	Outside Mainland China
Tinplate packaging products	16,684	47.34	37%	63%
Plastic packaged beverage products	18,556	52.66	100%	0%
Total	35,240	100.00%	70%	30%

2. Market analysis of TMBP

Ton Yi Industrial Corp. is the only tinplate manufacturer in Taiwan to produce TMBP. It also has the world's first production line that combines pickling line and string rolling machine. Its product quality has been certified by JIS Tinplate Quality and ISO9001 and ISO14001 international environmental management certification which is the best tool for the Company's business development, and is deeply recognized by the international.

In addition to supplying raw materials of tinplate, our TMBP plant also develops high value-added cold-rolled steel sheets. The designed annual production capacity of our TMBP plant is approximately 1 million tons, of which around 700,000 tons of tinplate coils are provided for our own use and external sale, and the remaining 300,000 tons of general cold-rolled steel sheets are sold to external customers. We adjust our production and sales strategies in response to market trends.

3. Market analysis of tinplate

Tinplate is made from iron sheet plated with tin/tin free and is mainly used for beverage cans, food cans, high pressure spray cans, fiber optic cable housings, automotive parts (engine gaskets, oil filter components), electronic parts, battery casings, stationery, gift boxes hardware, etc. In addition to the needs of the Taiwan market, the Company's tinplate covers a wide range of marketing areas around the world, and because the Company's self-produced supply is stable, high quality TMBP is used as raw material to enhance competitiveness. In terms of sales volume, Taiwan and Mainland China subsidiaries have a sale volume of approximately 54% and 46%. The quality of the tinplate produced by the Company is recognized locally and by foreign customers, so that the local and foreign markets will continue to grow.

4. Market analysis of tin cans

The Tin cans have advantages such as high-temperature sterilization, corrosion resistance, opacity, and excellent sealing, making them suitable for packaging beverages (tea, coffee, juice), canned foods (vegetables, fruits, seafood, meats), edible oils, fruit and vegetable juices, powdered milk, biscuits, and other processed foods. They are also appropriate for packaging paints, resins, inks, and other chemical products.

The Company's market share in Taiwan is about 25% for tin cans and 30% for rectangular cans. In addition to Taiwan, the Company has long-term partnerships with well-known companies/brands in Southeast Asia such as China, Japan, Vietnam, the Philippines, and Thailand. The iron can business has developed steadily in line with the economic growth in China and Asia.

The Company's new bottle can (NBC) product has a film-coated aluminum body and is manufactured using dry forming technology that does not require water, making it an environmentally friendly and low-consumption packaging material. The product uses patented technology and meets food safety and environmental standards. It is suitable for a wide range of beverages, including coffee, tea, milk-based drinks, carbonated drinks, fruit juice, sports drinks, functional drinks, and alcoholic beverages. We work with a variety of beverage brands to develop a broader range of products for marketing, meeting customer needs, and future development.

5. Market analysis of plastic packaging materials (including fillings)

With the stable growth of the beverage market in mainland China, we remain committed to aseptic filling and carbonated beverage production, as well as technology research and development. Utilize the Group's resources and marketing team to build a comprehensive raw material supply chain system through systematic management, providing customers with peace of mind and worry-free service, as well as common growth to create higher value.

6. Advantage, disadvantages and countermeasures of competitive niche and development prospects:

(1) Favorable factors

- A. Technology Advantage: The leading industrial manufacturer, and is one among the few manufacturers in the world that has the production technology of tinplate (TMBP), and has the tinplate iron sheet, with the midstream tin plating and canning downstream, the printing process integration technology, and the ultra-thin cold rolling production technology..
- B. Group Advantage: The Company is Uni-President Group's affiliate enterprise which remains deep plowing in Taiwan and has been cooperating with corporate groups for many years in Mainland China. Tinplates account for approximately 72% of Taiwan's tinplate market and 5% of Mainland China's first-class tinplate market which has advantages in sales, production capacity and access.
- C. Competitive Advantage: It is the largest tinplate factory in Taiwan and a major player in Asia. There is only one TMBP manufacturer in Taiwan.
- D. Capital Advantage: It is the largest TMBP manufacture in Taiwan with an annual output of 1 million tons. Competitors have high barriers to reach when entering into the industry.
- E. Industry Advantage: With the economic growth of emerging Asian countries, especially Mainland China with its domestic demand for improving people's livelihood, the supply and demand of the tinplate industry is stable and remains less affected by changes in the economy.

(2) Unfavorable factors

- A.The access to raw materials for hot rolled steel is limited by the furnace industry at upstream.
- B.The price of steel is affected by the iron ore and coal supply, the price continues to stay high making the cost of iron cans higher than other packaging materials.

(3) Countermeasures

- A.Actively developing supply chain relationships with major steel mills in Asia in order to have a sufficient source of raw materials
- B.Making full use of the product advantages of cold-rolled ultra-thin steel plates, developing a customer base in a unique product field, and differentiating the market by competitors.
- C.Robust development of the consumer market in Mainland China, in conjunction with the market of food and beverages of the parent company Uni-President Enterprise, to invest in a variety of packaging material production bases for beverages and foods in Mainland China that diversifies various product areas, in order to pursue further space for corporate development.

(II) Primary use and production process of its premium products important

1. Important uses of major products

Tinplate is a type of material which can be extensively used in different areas. Due to its beautiful appearance, good processing properties, corrosion resistance, painting, printing, as well as its strong material, excellent protection, deformation and fire resistance, tinplate remains a mainstream packaging material. The most common food and beverage packaging material on the market used in grease cans, chemical cans, caps, batteries, electronic components, household items, stationery, toys and other types of cans. Not only does it have excellent physical and chemical protection of the contents, it also ensures the hygiene of food and beverages, and prevents the content from easily spoiling.

PET (polyethylene terephthalate) has good isolation and pressure resistance, it has no odor and is beautiful and easy to form which has been widely used in food, beverages, cosmetics, medical and other applications. TP is used mainly to produce aseptic beverage cartons, and its packaging method ensures that the product maintains its freshness and does not lose nutrients.

(1) Canned food:

Tinplate ensures the hygiene of food and meets the modern demands for convenience and speed in food consumption. Regions worldwide that produce agricultural and fishery products for canned food materials are the main areas of production and consumption for the canned food industry.

(2) Beverage cans:

Tinplate cans, PET bottles, TP and new aluminum bottle and can packaging materials, which can be filled with coffee, tea, carbonated drinks, juice, sports drinks, functional drinks and other beverages to meet the needs of beverage packaging and consumption. The person's hobby.

(3) Grease cans:

Light can trigger and accelerate the oxidation reaction of oil and fats that reduce the nutritional value and may also produce harmful substances. More seriously, it may also destroy oily vitamins, especially vitamins D and A. The opaque effect of tinplate and the sealing effect of sealed air insulation is the best solution for packaging fatty foods.

(4) Chemical tank:

Tinplate is strong and has great protection; its non-deformable and fire-resistant properties are the best packaging material for chemicals.

(5) Spray and other cans:

Tinplate cans that are resistant to high temperatures and pressures which are especially suitable for high pressure filling spray cans. In addition, various shapes of cans and beautifully printed cookie tins, stationery cases and milk powder cans are all products of tinplate.

(6) Electronics industry:

Applied in cables, electronically molded components for emerging industrial applications, with high added value.

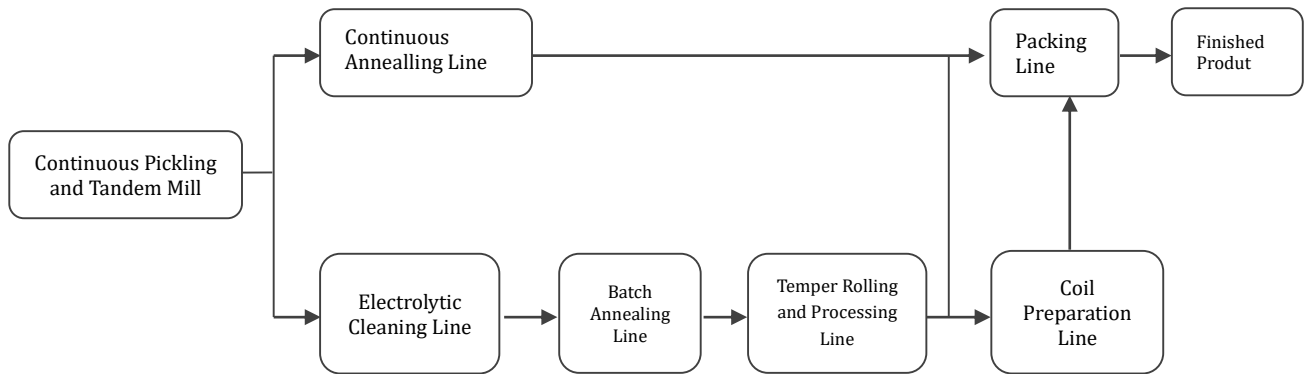

In addition, the application range of cold-rolled products is also extensive. The Company has ultra-thin cold-rolling manufacturing technology, which is applied to high-value cold-rolling production capacity of small value-added products for small household items and electro-galvanized products for electrical appliances, and is widely used in downstream industries.

2. Production process of major products:

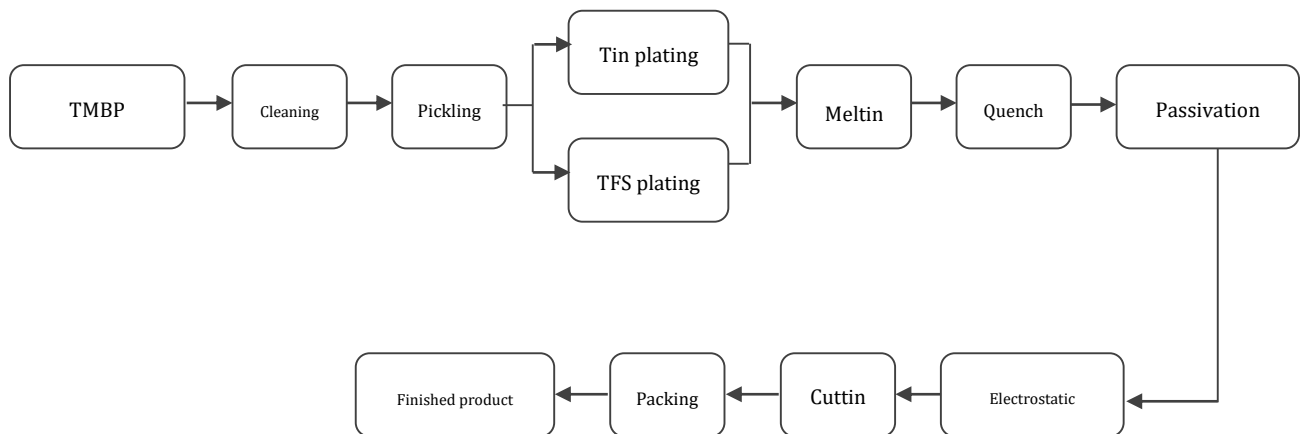

The upstream materials for tinplate and cold rolled industry is hot rolled coils from which cold rolled coils, TMBP, tinplate, and cans can be made. The relation of the upstream, midstream, and downstream operations is shown in the diagram below:

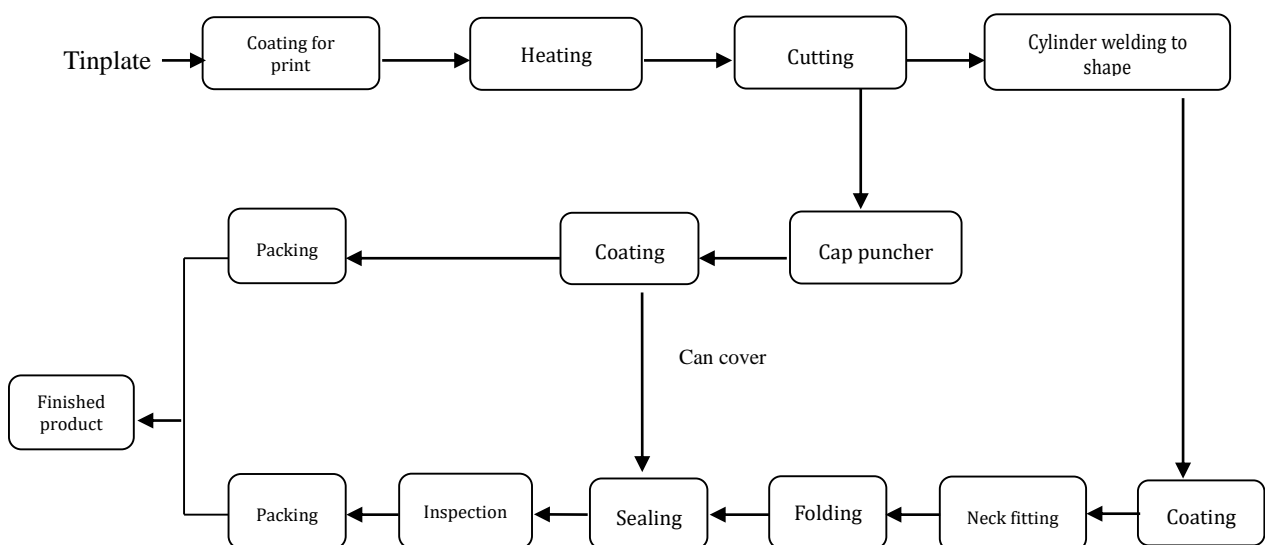

(1) Production process of cold rolled coils and TMBP: TMBP (Tin Mill Black Plate) is a kind of cold rolled low carbon steel, and is primarily used in the making of tinfoil, TFS plates for the canning industry. The production process is shown in the diagram below:

(III) Supply of key materials applications and production processes of the main products

The Company's various tinplate and PET products are supplied by a number of long-term local and foreign manufacturers to ensure a stable source of raw materials. The rest of the tinplate and cans are made of self-sufficient tinplate and TMBP.

(IV) The names of the customers that accounted for more than 10% of the total purchase (sale) of the total purchase (sale) in any of the last 2 years, and the amount and proportion of purchase (sale) names of key suppliers/customers with purchase/sale amount accounting for over 10% of the aggregate in any single year over the past two years and their respective purchase/sale amount and percentage.**1. IV. Information on environmental protection expenditure

The Company adopts an environmental policy that focuses on "Green Operations." It aims to minimize energy, waste and impact to the environment in all of its activities from business development to daily operations. The Company constantly adopts scientific and technological improvements to refine its production procedures and avoid activities that have adverse impacts on the environment. It complies with regulatory requirements and dedicates itself to making ongoing improvements. By adopting environmental sustainability action plans, the Company actively manages the waste it produces and promotes the use of renewable energy to create a better environment. The Company's environmental protection spending amounted to NT\$63,354 thousand in 2023.

As of the printing date of the annual report for the year 2023, there have been no losses due to environmental pollution (including compensation and violations of environmental protection regulations resulting from inspections). Therefore, there is no record of the total amount of penalties, which should include the date of penalty, the reference number of penalty, the violated regulation, the content of violation, and the details of the penalty.

V. Labor Management relation

(I) Various aspects of employee welfare measures, further education training, job training, retirement system and its implementation, as well as labor agreements, labor rights and employment protection measures:

1. Employee Benefits Policy:

- (1) We offer comprehensive benefits and facilities to our employees, including free group insurance, regular life and accident insurance, annual holiday gifts, subsidies for employee marriages, funerals, childbirth, and children's education, as well as birthday bonuses. We organize Lunar New Year banquets, Labor Day recreational activities, and provide senior employees with paid leave and subsidies for travel. Our employees also have access to affordable dormitories, a great cafeteria, and sports facilities such as basketball courts, table tennis tables, billiards tables, and free rental of camping tents. Additionally, we have partnered with a kindergarten to provide preferential childcare services, offering our colleagues more affordable and safer institutional information for raising children.
- (2) An effective development and training plan includes employee pre-job training, safety and health education, on-the-job training, and offsite training to enhance employees' professional skills and provide them with new knowledge.

2. Employee retirement system:

To enhance the post-retirement life security of our employees, we have established a Labor Retirement Reserve Supervisory Committee in accordance with the law and formulated retirement regulations. We allocate retirement reserves to our Taiwan Bank retirement account at a ratio of 6% of each employee's monthly salary. We will announce the income and expenditure status of the account every quarter to safeguard the rights and interests of our employees. For employees covered by the Labor Retirement Pension Act, we will deduct 6% of their monthly salary as an employee's contribution to the Labor Insurance Bureau's individual account for the new employee retirement pension program. This is to take care of the employees' post-retirement life. When employees apply for retirement, in addition to the above retirement benefits, we also award a retirement commemorative medal as a token of gratitude for their hard work and contribution to the company.

3. Measures to safeguard employees' rights and interests:

The company established a corporate union on August 26, 1989. Except for employees who are not allowed to join the corporate union in accordance with labor laws, corporate union members account for up to 90% of the total number of employees.

In order to protect the rights and interests of both labor and management and strengthen cooperation between the two parties, the first group agreement was signed on November 1, 2013, and the fourth group agreement was signed on December 1, 2022, to continue to enhance the protection of enterprise trade union members and not be subject to For employees covered by the group agreement, we will still abide by consistent labor conditions and labor contract regulations in accordance with company policies, and will not be affected by whether or not the group agreement is covered. The company has various smooth communication channels, and the enterprise trade union can integrate employees' opinions and feedback to the company, so that both labor and management can fully communicate.

VI. Information Security Management

(I) Describe the information security risk management frameworks, information security policies, specific management plans, and resources invested in information security management.

The Company has formulated an information security policy and management framework to enhance the security and stable operation of the Company's information operations. The goal is to ensure the availability, integrity, and confidentiality of important information assets such as information data, information equipment and systems, and personnel to smoothly promote the Company's businesses. Please read the Company's website for details.

1. Specific targets:

- (1) Strengthen information security management, improve protection capabilities, and establish a safe and reliable information operating environment.
- (2) Ensure the confidentiality of relevant information and protect confidential information from leakage.
- (3) Ensure the availability and integrity of relevant information while improving operational efficiency and quality.
- (4) Ensure the continuous operation of relevant information without interruption.

2. Scope of coverage: Apply to all Company colleagues as well as software and hardware manufacturers who have contact with or provide information services.

3. Related strategies:

- (1) Set up an information security management team and division of responsibilities.
- (2) Evaluate the security needs of information operations, establish key information security management points, and comply with the relevant laws and regulations.
- (3) Establish information security incident reporting procedures to handle and control information security incidents properly.
- (4) Perform information security audits regularly to ensure effective information security management procedures are implemented.

4. Organization and resources: The general manager shall serve as the chief information security officer to promote and supervise information security management matters. The information security supervisor and personnel shall formulate relevant information security policies and plans. The auditing unit shall conduct audits every 6 months to ensure the operations comply with regulations.

5. At present, there is no information security insurance, but information security risk prevention has been implemented by constructing and improving the information security protection framework and other specific management measures.

(II) List the losses, possible impacts, and countermeasures due to major information security incidents in the most recent year and as of the publication date for this annual report. If it cannot be reasonably estimated, state why it cannot be reasonably estimated.

There have been no information loss or security-related incidents in the most recent year and as of the printing date of this annual report.

	Financial leverage	(7.07)	0.31	1.09	1.05	28.54	

Reasons for changes in financial ratios in the last 2 years:

1. Decrease in quick ratio: mainly due to the decrease in accounts receivable.
2. The interest coverage ratio decreased: mainly due to the decrease in operating income compared with the same period last year, resulting in a decrease in pre-tax profits for the current period.
3. Decrease in inventory turnover rate and increase in average sales days: This is mainly due to the decrease in ending inventory and the decrease in cost of goods sold due to the decrease in sales volume of tinplate products compared with the same period last year.
4. The decrease in turnover rate of real estate, plants and equipment and total asset turnover rate: mainly due to the decrease in operating income in this period compared with the same period last year.
5. Decrease in various indicators of profitability: mainly due to the decrease in pre-tax and after-tax profits in the current period.
6. Decrease in cash flow ratio and cash reinvestment ratio: Mainly due to the decrease in pre-tax net profit compared with the same period last year, resulting in a decrease in net cash flow from operating activities in the current period.
7. Increase in leverage ratio: Mainly due to the decrease in operating income and operating profits compared with the same period last year.

Note 1: The annual financial information in the above table has been checked and certified by accountants.

Note 2: As of the printing date of the annual report, the financial data for the first quarter of 2024 has not yet been reviewed by the accountant.

Note 3: The formula is as follows:

1. Financial structure

(1) Debt Ratio = Total Liabilities / Total Assets

(2) Long-term Fund to Property, Plant and Equipment Ratio = (Shareholder's Equity Non-current Liabilities) / Net Property, Plant and Equipment

2. Solvency

(1) Current Ratio = Current Assets / Current Liabilities

(2) Quick Ratio (Current Assets – Inventories – Prepaid Expenses) / Current Liabilities

(3) Times Interest Earned = Earnings before Interest and Taxes / Interest Expenses

3. Operating Performance

(1) Average Collection Turnover = Net Sales / Average Trade Receivables

(2) Days Sales Outstand = 365 / Average Collection Turnover

(3) Average Inventory Turnover = Cost of Sales / Average Inventory

(4) Average Inventory Turnover Days = 365 / Average Inventory Turnover

(5) Average Payment Turnover = Cost of Sales / Average Trade Payables

(6) Property, Plant and Equipment Turnover = Net Sales / Average Net Property, Plant and Equipment

(7) Total Assets Turnover = Net Sales / Average Total Assets

4. Profitability

(1) Return on Total Assets = (Net Income + Interest Expenses x (1 – Effective Tax Rate)) / Average Total Assets

(2) Return on Equity = Net Income / Average Equity

(3) Net Margin = Net Income / Net Sales

(4) Earnings Per Share = (Net Income Attributable to Shareholders of the Parent – Preferred Stock Dividend) / Weighted Average Number of Share Outstanding

5. Cash Flow

(1) Cash Flow Ratio = Net Cash Provided by Operating Activities / Current Liabilities

(2) Cash Flow Adequacy Ratio = Five-year Sum of Cash from operations / Five-year Sum of Capital Expenditures, Inventory Additions, and Cash Dividend

(3) Cash Flow Reinvestment Ratio = (Cash Provided by Operating Activities – Cash Dividend) / (Gross Property, Plant and Equipment + Long-term Investments + Other Non-current Assets + Working Capital)

6. Leverage

(1) Operating Leverage = (Net Sales – Variable Cost) / Income from Operations

(2) Financial Leverage = Income from Operations / (Income from Operations – Interest Expenses)

Current net profit	681,165	2,246,437	(1,565,272)	(69.68)

The significant changes in the previous and late period over 20% are explained below:

1. Decrease in operating income, cost and gross profit: Mainly due to the decrease in sales volume and selling price of tinplate products compared with the same period last year, the cost of raw materials also decreased compared with last year, and the decrease in average selling price was greater than the decrease in average cost of goods sold.
2. Decrease in operating expenses: Mainly due to the decrease in freight charges and accrued rewards compared with last year.
3. Decrease in operating profit: Mainly due to the decrease in operating gross profit being greater than the decrease in operating expenses.
4. Increase in non-operating income and losses: Mainly due to the increase in recognized transfer income in this period compared with the same period last year.
5. Decrease in income tax expenses: Mainly due to the decrease in profits for the current period, resulting in a decrease in income tax expenses.
6. The decrease in pre-tax net profit and net profit for the current period: mainly due to the decrease in profit for the current period.

(II) The expected sale amount and its basis, and the Company's future financial performance and the plan for any possible impact :

The Company's estimation for the production and sales for the coming year is based on the current situation of the international steel and the beverage market in Mainland China's as well as the future economy. Judging by the competitive strength of the Company in the steel industry and one of the members of the Uni-President Group, the Company is able to respond to both financial and business aspects of the steel industry and comprehensive packaging market. The estimation of expected sales volumes in the next year: TMBP and steel sheet up to 690 thousand tons, tinplate cans up to 665 million cans, beverage filling up to 248 million boxes, 5,376 million PET bottle lids, and 28 million New Bottle Cans(Including filling up to 3 million boxes).

III. Cash flow analysis

(I) Analysis of cash flow changes for the most recent two years

Cash flow analysis - consolidated

Item \ Year	2023	2022	Variation (%)
Cash flow ratio	52.84	105.99	(50.15)
Cash flow adequacy ratio	137.23	155.37	(11.68)
Cash reinvestment ratio	1.31	7.34	(82.15)

Analysis of the increase (decrease) ratio change:

Mainly due to the decrease in pre-tax net profit compared to the same period last year, resulting in a decrease in net cash flow from operating activities in the current period and an increase in cash dividends compared to last year.

(II) Analysis of cash flow for the coming year

Liquidity analysis for the next year - consolidated

Unit: NT\$ thousands

Opening cash balance	Net cash flow from operating activities for the year	Annual cash outflow	Cash surplus (deficit)	Financing of cash deficits	
				Investment plans	Investment plans
3,308,211	3,418,029	2,656,078	4,070,162	N/A	N/A

1. It is expected that the prices of packaging materials for Mascot Steel in 2024 will continue to fluctuate. While the comprehensive packaging business is experiencing stable profit growth and increasing investments, surplus cash will be used to repay maturing loans and distribute cash dividends.

2. Responsive measures and liquidity analysis for cash flow deficits: N/A.

IV. Significant capital expenditures in the most recent year and the influence on the operation and financial position

(I) The application and funding sources of the Company's major capital expenditures

Unit: NT\$ thousands

Item	Sources of funds	completion date	Total funds	Fund utilization	
				2023	2024
Solar photovoltaic power generation equipment case	Historical earnings	2024.12	128,350	12,500	115,850

(II) Impact on the company's financial business: In compliance with the "Renewable Energy Development Ordinance", the company, as a large electricity consumer, must fulfill its obligation to build green power device capacity. This capital expenditure has no significant impact on the company's financial operations.

V. The primary cause of profit or loss for direct investment policy of the most recent year, the remedy and the investment plan for the year ahead:

(I) Reinvestment policy in the most recent year, the main reason for profit or loss, and improvement plan:

In recent years, reinvested tinplate factories in mainland China have faced lower-than-expected local economic growth as well as the impact of international trade conflicts, resulting in a severe supply-demand imbalance and steel manufacturers cutting prices to compete with one another. Several unfavorable factors have intensified, resulting in reinvested tinplate losses. For the time being, the Company will concentrate on reducing its sales position in the region to reduce losses. In addition, we will seek the best combination of raw material sources and actively pursue long-term collaboration with international large corporations.

(II) Investment plans for the coming year:

The Company established a PET bottle beverage packaging and filling plant in mainland China, which has received support from the group and external customers while generating positive results under strict work discipline. The Company intend to add one aseptic filling production equipment line to both existing Wuxi Ton Yi Industrial Packing Co., Ltd. and Zhangzhou Ton Yi Industrial Co., Ltd., expanding the beverage processing business to meet rising beverage processing orders in East and South China. The new production lines are expected to begin operations in 2025.

VI. Risks and Assessment of Risks

(I) The effect upon the Company's profits (losses) of interest and exchange rate fluctuations and changes in the inflation rate, and response measures to be taken in the future:

Item	2023(NT\$ thousands)
Interest expense	185,034
Net foreign currency exchange benefit (loss)	1,268

The Company regularly evaluates the interest rates of loans from various banks. In addition to strengthening operational control and using cash flows generated from business activities to repay bank loans, we maintain close contact with banks to obtain more favorable loan rates. As the Company import raw materials from abroad and mainly export the Company's products, the foreign currency receivables and payables generated in our operations are partially naturally offsetting due to exchange rate fluctuations. For the remaining foreign currency differences, the Company engage in derivative financial instrument transactions to hedge against exchange rate risks. Looking back at 2023, the NTD depreciated against the USD, mainly due to the US launching an interest rate hike cycle to curb inflation. This led to a stronger performance of the USD, which in turn affected the performance of the NTD. As of the publication date of the annual report, changes in the global supply chain and regional conflicts have not only affected global economic activities, but even the way of life of human beings. Therefore, it is necessary to pay more attention to changes in interest rates and exchange rates. The Company will persist in monitoring shifts in the market, fostering positive relationships with suppliers and customers, enhancing product quality and value proposition, and implementing moderate price adjustments. The Company will also maintain inventory and accounts receivable under strict control. The Company shall ensure that we remain more vigilant regarding fluctuations in the pertinent economic landscape and market circumstances in order to prevent any detrimental effects on the profitability of the Company.

(II) The Company's policy regarding high-risk investments, highly leveraged investments, loans to others, endorsements guarantees, and derivatives transactions; the main reasons for the profits/losses generated thereby; and response measures to be taken in the future:

The Company has not engage in high-risk, high-leverage investments, funding loans to others, endorsing guarantees, or trading in derivative products. In accordance with relevant regulations of the Financial Supervisory Commission, we have established policies on "Operating Procedures for Lending Funds to Others", "Operating Procedures for Endorsing Guarantees", and "Procedures for Acquiring or Disposing of Assets", which are evaluated for risk and effectively controlled by internal dedicated units. In addition, our audit unit has established relevant systems for risk management and operational review in accordance with the "Guidelines for Establishing Internal Control Systems for Public Companies".

(III) Research and development work to be carried out in the future, and further expenditures expected for research and development work:

The Company has become a comprehensive packaging company. Apart from providing packaging materials, it has ventured into beverage filling production in recent years, and is very strict on controlling the quality and safety of the products. The Company has established state-level laboratories and is committed to the development of environmentally and human-friendly coatings, as well as lightweight container programs to reduce the environment impact. The Company is expected to invest NT\$57,595 thousand in 2024.

(IV) Effect on the Company's financial operations of important policies adopted and changes in the legal environment at home and abroad, and measures to be taken in response:

The Company pays constant attention to new government policies and laws that are likely to affect its operations. Following the implementation of "Personal Information Protection Act," the Company established its own "Personal Information Security System" and "Personal Information Security Management Center" in 2012, and later created an "Information Security Team," an "Internal Audit and Evaluation Team," a "Policy Execution Team," and an "Operations Team" under the Center to enforce information security throughout the Company

(V) Impacts of Technological (including information security risks) and Industrial Changes on the Company's Financial Business and Countermeasures:

The company attaches great importance to the impact of technology development. In addition to building an information security risk management framework (refer to the company's website), strengthening security protection, maintaining company data confidentiality and personal data protection, and setting up a video conference system, Erection of Internet telephony and the use of encrypted private networks, etc., the proper use of information technology to reduce corporate costs and enhance corporate competitiveness.

(VI) Effect on the Company's crisis management of changes in the Company's corporate image, and measures to be taken in response:

For corporate crisis management, the "Crisis Handling Guidelines" were established in January 2014. When various types of crises occur, relevant response mechanisms are activated and a "Notification Center" is established to coordinate the handling of major crisis events.

(VII) Expected benefits and possible risks associated with any merger and acquisitions, and mitigation measures being or to be taken: None.

(VIII) Expected benefits and possible risks associated with any plant expansion and mitigation measures being or to be taken:

All of the Company's plant expansion projects undergo complete, careful and expert evaluation that takes full account of investment yields and possible risks.

(IX) Risks associated with any consolidation of sales or purchasing operations, mitigation measures being or to be taken:

1. Purchases: The Company purchases steel materials mainly from leading suppliers in Asia that offer transparent pricing and open information. Other secondary materials and parts are purchased according to the Company's procurement and payment procedures. The Company completes all its purchases after proper comparison and negotiation; there was no significant concentration to any particular supplier.
2. Sales: The Company sells products mainly to related companies as a result of its vertical integration. The Company's business activity is not concentrated to any single customer, and therefore is not exposed to any significant concentration of credit risk. Furthermore, the Company monitors the credibility of its customers very strictly, and has not encountered any major credit loss. The Company sells goods on credit only to reputable customers; smaller customers may be required to make advance payment or provide collateral or guarantee for their purchase.

(X) Effect upon and risks to the Company in the event a major quantity of shares belonging to a director, supervisor, or shareholder holding greater than a 10 percent stake in the Company has been transferred or has otherwise changed hands, and mitigation measures being or to be taken:

The transfer and replacement of equity is a financial management activity of the shareholders which has no impact on the Company. Starting from January 1, 2023 up to the date of publication of the annual report, there has not been any significant transfer or replacement of equity.

(XI) Effect upon and risks to the Company associated with any change in governance personnel or top management, and mitigation measures being or to be taken:

The structure of the Company's shareholder is stable, which consists of professional managers. In the event of a change in management rights, it shall not damage the Company's operations and management. Starting from January 1, 2023 up to the date of publication of the annual report, there has not been any significant transfer or replacement of equity.

(XII) Litigious and non-litigious matters that may have a significant impact on shareholders' equity or securities prices: None.

(XIII) Other important risks, and mitigation measures being or to be taken: None.

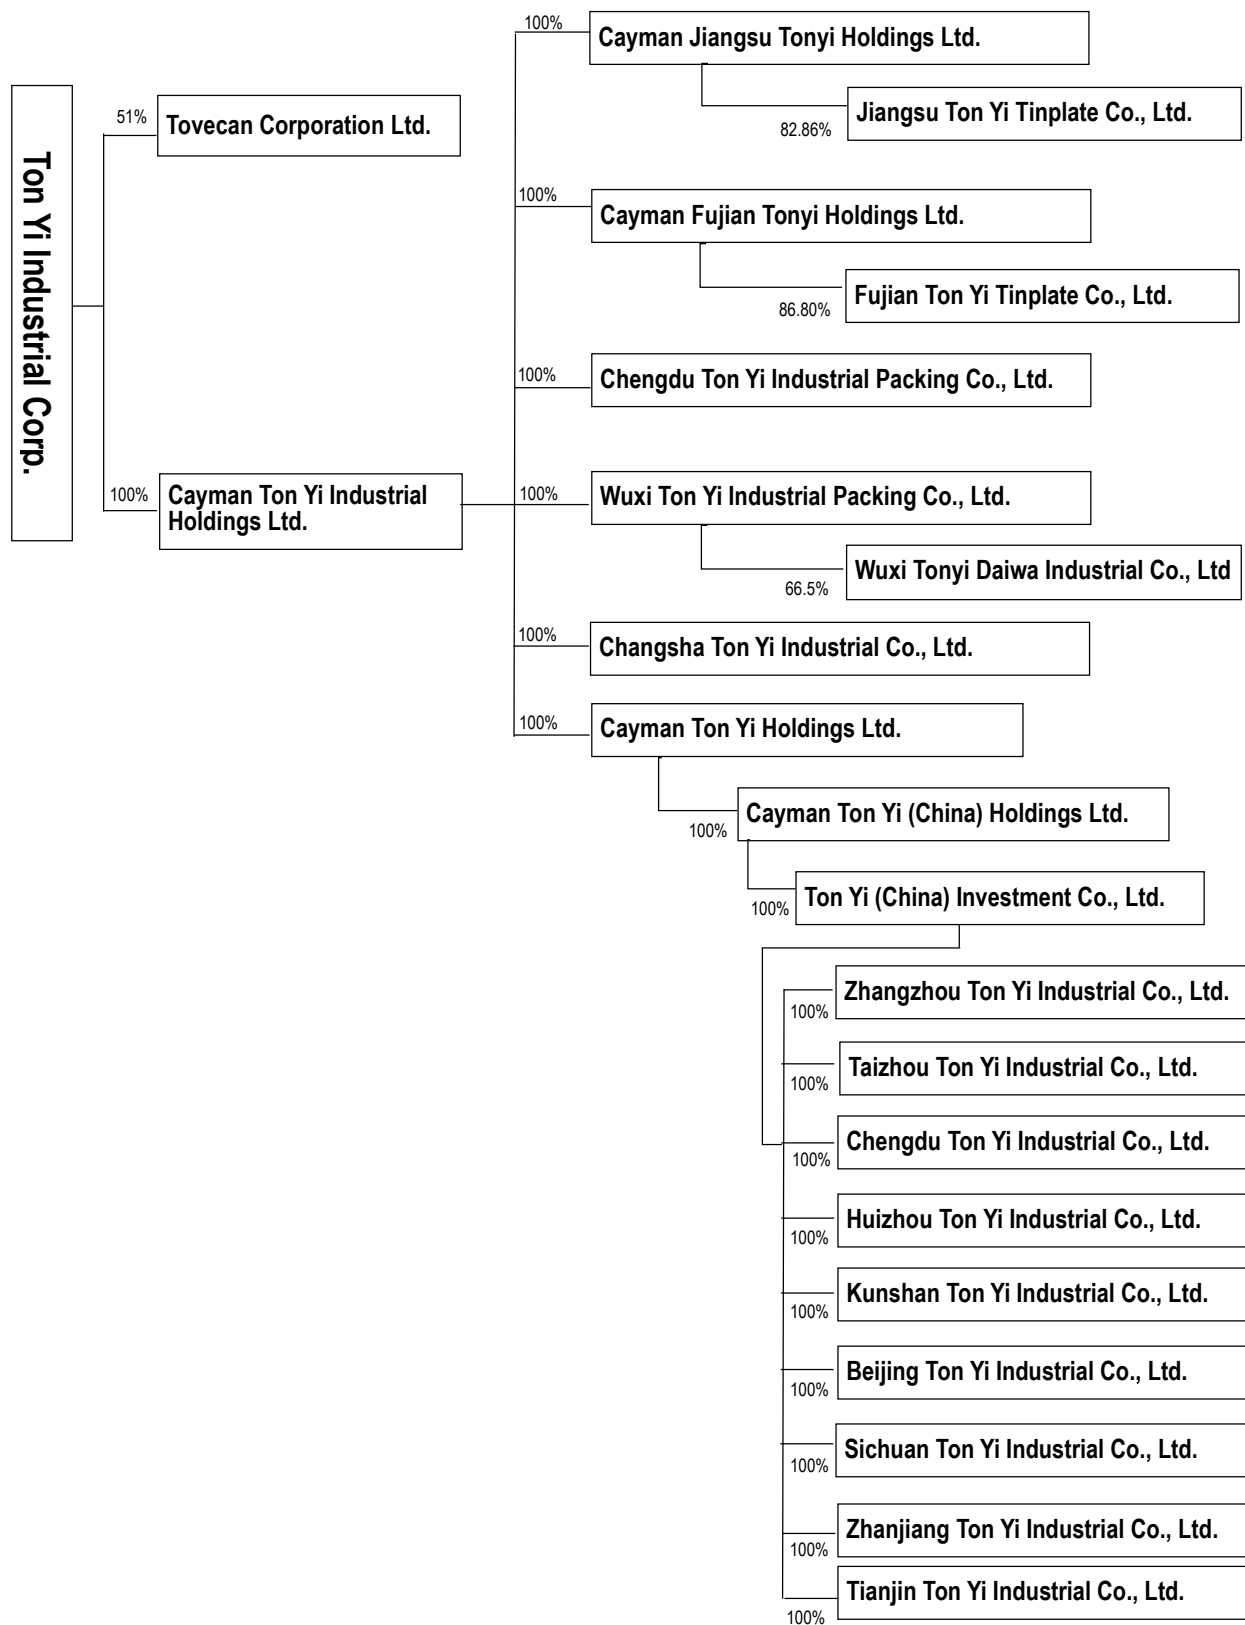

VII. Other materiality: None.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Group's 2023 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Existence of sales revenues of Tin Plate products

Description

Refer to Note 4(28) for the accounting policy on revenue recognition.

The Group has a large volume of transactions from sales of numerous kinds of products to a wide range of customers in many different locations such as Taiwan, Asia, Europe, America, etc. For the customers and dealers who are from remote districts, the sales revenue transactions need more time for verification. Thus, the existence of sales revenue of tin plate products has been identified as a key audit matter.

How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

1. Inspecting whether approved additions to the merchandise master file data had been correctly entered in the merchandise master file which include basic information of customers, such as name of representative, location of company, amount of capital and scope of business for evaluating the creditworthiness of buyers.
2. Understanding, evaluating and validating management's controls in respect of the Group's sales transactions from customer order's approval, goods delivery, sales recording, reconciliation of cash receipts and customer's records to subsequent settlement of trade receivables. In addition, testing the effectiveness of internal control environment over revenue recognition.

3. Performing substantive test on selected sales transactions including confirming orders, shipping documents, invoices and cash receipts to verify the existence of sales revenues.

Inventory valuation of Tin Plate products

Description

Refer to Note 4(9) for accounting policy on inventory, and Note 5(2) for the critical accounting estimates and assumptions uncertainty in relation to inventory valuation and Note 6(4) for details of inventories. For the year ended December 31, 2023, inventory and allowance for price decline of inventories amounted to NT\$4,340,626 thousand and NT\$196,931 thousand, respectively.

The Group's raw materials are often subject to fluctuations in the international steel prices. However, as the Tin Plate products are considered necessities, such price changes may not be immediately reflected in material costs. In addition, the competition landscape within the steel industry in China will continue to affect the price of raw materials that would impact the estimation of net realizable value of inventory. Thus, the inventory valuation has been identified as a key audit matter.

How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

1. Evaluating the adequacy of allowance for inventory and the consistency of provision policy.
2. Assessing the reasonableness of the estimation of net realizable value of Tin plate products and discussing with management and examining related documents to confirm the adequacy of allowance for price decline.

Other matter – Parent company only financial reports

We have audited and expressed an unqualified opinion on the parent company only financial statements of Ton Yi Industrial Corp. as of and for the years ended December 31, 2023 and 2022.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the Group's financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements. As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists,

we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance, including audit committee, regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance, including audit committee, with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, including audit committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we

determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

TON YI INDUSTRIAL CORP. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2023 AND 2022

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANIZATION

- (1) Ton Yi Industrial Corp. (the “Company”) was incorporated as a company limited by shares under the provisions of the Company Act of the Republic of China (R.O.C.) on April 14, 1969. The Company is primarily engaged in the manufacture, processing and sales of various cans of steel and tin plate. For more information regarding the scope of business the Company and its subsidiaries (the “Group”) are engaged in, refer to Note 4(3), ‘Basis of consolidation’.
- (2) The common shares of the Company have been listed on the Taiwan Stock Exchange since January 1991.
- (3) Uni-President Enterprises Corp. holds 45.55% equity interest in the Company and is the ultimate parent company.

2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION

These consolidated financial statements were authorized for issuance by the Board of Directors on March 5, 2024.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

- (1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS[®]”) Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by the FSC and became effective from 2023 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board (“IASB”)
Amendments to IAS 1, ‘Disclosure of accounting policies’	January 1, 2023
Amendments to IAS 8, ‘Definition of accounting estimates’	January 1, 2023
Amendments to IAS 12, ‘Deferred tax related to assets and liabilities arising from a single transaction’	January 1, 2023
Amendments to IAS 12, ‘International tax reform — pillar two model rules’	May 23, 2023

The above standards and interpretations have no significant impact to the Group’s financial position and financial performance based on the Group’s assessment.

(2) Effect of new issuances of or amendments to IFRS Accounting Standards as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC and will become effective from 2024 are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by IASB</u>
Amendments to IFRS 16, 'Lease liability in a sale and leaseback'	January 1, 2024
Amendments to IAS 1, 'Classification of liabilities as current or non-current'	January 1, 2024
Amendments to IAS 1, 'Non-current liabilities with covenants'	January 1, 2024
Amendments to IAS 7 and IFRS 7, 'Supplier finance arrangements'	January 1, 2024

The above standards and interpretations have no significant impact to the Group's financial position and financial performance based on the Group's assessment.

(3) IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRS Accounting Standards as endorsed by the FSC are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by IASB</u>

IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 — comparative information'	January 1, 2023
Amendments to IAS 21, 'Lack of exchangeability'	January 1, 2025

The above standards and interpretations have no significant impact to the Group's financial position and financial performance based on the Group's assessment.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, International Financial Reporting Standards, International Accounting Standards, IFRIC[®] Interpretations, and SIC[®] Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the "IFRSs").

(2) Basis of preparation

- A. Except for the following items, these consolidated financial statements have been prepared under the historical cost convention:
 - a. Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - b. Financial assets at fair value through other comprehensive income.
 - c. Defined benefit assets and liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5 'Critical accounting judgements, estimates and key sources of assumption uncertainty'.

(3) Basis of consolidation

- A. Basis for preparation of consolidated financial statements:
 - a. All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
 - b. Inter-company transactions, balances and unrealized gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
 - c. Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.
 - d. Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity.

- e. When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognized in profit or loss. All amounts previously recognized in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognized in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

(4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan Dollars, which is the Company's functional and presentation currency.

A. Foreign currency transactions and balances

- a. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.
- b. Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
- c. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and

liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.

- d. All foreign exchange gains and losses based on the nature of those transactions are presented in the consolidated statements of comprehensive income within “Other gains and losses”.

B. Translation of foreign operations

- a. The financial performance and financial position of all the group entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
 - (a) Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
 - (b) Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
 - (c) All resulting exchange differences are recognized in other comprehensive income.
- b. When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, even when the Group still retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.

(5) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
 - a. Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
 - b. Assets held mainly for trading purposes;
 - c. Assets that are expected to be realized within twelve months from the balance sheet date;
 - d. Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
 - a. Liabilities that are expected to be paid off within the normal operating cycle;
 - b. Liabilities arising mainly from trading activities;
 - c. Liabilities that are to be paid off within twelve months from the balance sheet date;
 - d. Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(6) Cash equivalents

- A. Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.
- B. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(7) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortized cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value and recognizes the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognizes the gain or loss in profit or loss.

(8) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(9) Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted-average method. The cost of finished goods and work in process comprises raw materials, direct labor, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale. When the cost of inventory is higher than net realizable value, a write down is provided and recognized in operating costs. If the circumstances that caused the write-down cease to exist, such that all or part of the write down is no longer needed, it should be reversed to that extent and recognized as deduction of operating costs.

(10) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognize changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:
 - a. The objective of the Group's business model is achieved both by collecting contractual cash flows and selling financial assets; and

- b. The assets' contractual cash flows represent solely payments of principal and interest on the principal outstanding.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value:
The changes in fair value of equity instruments that were recognized in other comprehensive income. Cumulative gain or loss previously recognized in comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the instrument. Dividends are recognized as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(11) Impairment of financial assets

For debt instruments measured at fair value through other comprehensive income and financial assets at amortized cost, at each reporting date, the Group recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for receivables or contract assets that do not contain a significant financing component, the Group recognizes the impairment provision for lifetime ECLs.

(12) Derecognition of financial assets

The Group derecognizes a financial asset when one of the following conditions is met:

- A. The contractual rights to receive cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows from the financial asset have been transferred and the Group has transferred substantially all risks and rewards of ownership of the financial asset.
- C. The contractual rights to receive cash flows from the financial asset have been transferred, and the Group has not retained control of the financial asset.

(13) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

- C. Property, plant and equipment apply the cost model. Except for land, other property, plant and equipment are depreciated using the straight-line method to allocate their cost over their estimated useful lives. If each component of property, plant and equipment is significant, it is depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance sheet date. If expectations for the assets' residual values and useful lives differ from previous estimates or the consumption patterns of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

<u>Asset</u>	<u>Useful Lives</u>
Buildings	5 ~ 55 years
Machinery	2 ~ 30 years
Transportation equipment	3 ~ 20 years
Office equipment	2 ~ 10 years
Other equipment	2 ~ 40 years

(14) Leasing arrangements (lessor) — operating leases

Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

(15) Leasing arrangements (lessee) — right-of-use assets/ lease liabilities

- A. Leases are recognized as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low value assets, lease payments are recognized as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of the following:
- Fixed payments, less any lease incentives receivable; and
 - Variable lease payments that depend on an index or a rate.

The Group subsequently measures the lease liability at amortized cost using the interest method and recognizes interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognized as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:
- The amount of the initial measurement of lease liability;
 - Any lease payments made at or before the commencement date; and

c. Any initial direct costs incurred by the lessee.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognized as an adjustment to the right-of-use asset.

D. For lease modifications that decrease the scope of the lease, the lessee shall decrease the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize the difference between remeasured lease liability in profit or loss.

(16) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 20 years.

(17) Intangible assets

A. Goodwill

Goodwill arises in a business combination accounted for by applying the acquisition method.

B. Computer software

Computer software is stated at cost and amortized on a straight-line basis over its estimated useful life of 10 years.

(18) Impairment of non-financial assets

A. The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

B. The recoverable amounts of goodwill shall be evaluated periodically. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. Impairment loss of goodwill previously recognized in profit or loss shall not be reversed in the following years.

C. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units, or groups of cash-generating units, that is/are expected to benefit from the synergies of the business combination.

(19) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.

(20) Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(21) Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability specified in the contract is discharged, cancelled or expired.

(22) Offsetting financial instruments

Financial assets and liabilities are offset and reported at net amount on the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

(23) Provisions

Provisions (decommissioning liabilities) are recognized when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date, which is discounted using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to passage of time is recognized as interest expense.

(24) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid and should be recognized as expenses in that period when the employees render service.

B. Pensions

a. Defined contribution plans

For defined contribution plans, the contributions are recognized as pension expenses on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

b. Defined benefit plans

- (a) Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior period. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) of a currency and term consistent with the currency and term of the employment benefit obligations.
- (b) Remeasurements arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.

C. Employees' compensation and directors' remuneration

Employees' compensation and directors' remuneration are recognized as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is distributed by shares, the Group calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

(25) Income tax

- A. The tax expense comprises current and deferred tax. Income tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which case the tax is recognized in other comprehensive income or equity.
- B. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Group and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the shareholders resolve to retain the earnings.
- C. Deferred income tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

D. Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognized and recognized deferred income tax assets are reassessed.

(26) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.

(27) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares and share premium on the effective date of new shares issuance.

(28) Revenue recognition

Sales of goods

- A. The Group manufactures and sells tinsplate and PET package products. Sales are recognized when control of the products has transferred, being when the products are delivered to the customers, the customers have full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customers' acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customers, and either the customers have accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.
- B. Revenue from these sales is recognized based on the price specified in the contract, net of the estimated sales discounts and volume discounts. The products are often sold with volume discounts based on estimated sales of each year. Accumulated experience is used to estimate and provide for the sales discounts and volume discounts, using the expected value method, and revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur. The estimation is subject to an assessment at each reporting date. A refund liability is recognized for expected sales discounts and volume discounts payable to customers in relation to sales made until the end of the reporting period.

(29) Government grants

Government grants are recognized at their fair value only when there is reasonable assurance that the Group will comply with any conditions attached to the grants and the grants will be received. Government grants are recognized in profit or loss on a systematic basis over the periods in which the Group recognizes expenses for the related costs for which the grants are intended to compensate.

(30) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, and the related information is addressed below:

(1) Critical judgements in applying the Group's accounting policies

None.

(2) Critical accounting estimates and assumptions

Evaluation of inventories

A. As inventories are stated at the lower of cost and net realizable value, the Group must determine the net realizable value of inventories on balance sheet date using judgements and estimates. Because of the change in market demand and the sales strategy, the Group evaluates the amounts of price fluctuations of inventories, obsolete inventories or inventories without market selling value on the balance sheet date, and writes down the cost of inventories to the net realizable value. Such an evaluation is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

B. As of December 31, 2023, the carrying amount of inventories was \$4,143,695.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	<u>\$ 825,320</u>	<u>\$ 3,365,349</u>	<u>\$ 1,044,665</u>	<u>\$ 3,705,783</u>

The above aging analysis was based on credit date.

- B. As of December 31, 2023 and 2022, notes receivable and accounts receivable were all from contracts with customers. As of January 1, 2022, the balance of receivables (including related parties) from contracts with customers amounted to \$5,384,523.
- C. The Group did not pledge notes receivable and accounts receivable as collateral.
- D. Without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the notes receivable and accounts receivable held by the Group was the book value.
- E. Information relating to credit risk of notes receivable and accounts receivable is provided in Note 12(2), “Financial instruments”.

(3) Transfer of financial assets

Transferred financial assets that are derecognized in their entirety.

- A. The Group entered into a factoring agreement with China Construction Bank to sell its notes receivable. Under the agreement, the Group is not obligated to bear the default risk of the transferred notes receivable, but is liable for the losses incurred on any business dispute. The Group does not have any continuing involvement in the transferred notes receivable. As of December 31, 2023 and 2022, the Group derecognized the transferred notes receivable, and the related information is as follows:

December 31, 2023				
Purchase of notes receivable	Notes receivable transferred	Amount derecognized	Amount advanced	Interest rate of amount advanced
China Construction Bank	\$ 88,482	\$ 88,482	\$ 88,482	(Note)
December 31, 2022				
Purchase of notes receivable	Notes receivable transferred	Amount derecognized	Amount advanced	Interest rate of amount advanced
China Construction Bank	\$ 125,783	\$ 125,783	\$ 125,783	3.30%

(Note) The financial expense when transferring the derecognized notes receivable was not borne by the Group.

- B. The Group has recognized financial expense (listed under “Finance costs”) of \$570 and \$291, respectively, when transferring the derecognized notes receivable for the years ended December 31, 2023 and 2022, respectively. Part of the financial expense when transferring the derecognized notes receivable was not borne by the Group.

A. No borrowing costs were capitalized as part of intangible assets for the years ended December 31, 2023 and 2022.

B. Details of amortization on intangible assets are as follows:

	For the years ended December 31,	
	2023	2022

C. For information about impairment loss of the intangible assets, refer to Note 6(11), “Impairment of non-financial assets”.

D. The Group had no intangible assets pledged as collateral as at December 31, 2023 and 2022.

(11) Impairment of non-financial assets

A. The Group recognized (impairment loss) gain on reversal of impairment loss (listed under “Other gains and losses”) for the year ended December 31, 2022, and the details are as follows:

Item	For the year ended December 31, 2022	
	Recognized in profit or loss	Recognized in other comprehensive income
Gain on reversal of impairment loss — Property, plant and equipment	\$ 13,290	\$ —
Impairment loss — Goodwill	(289,139)	—
	<u>(\$ 275,849)</u>	<u>\$ —</u>

There was no such situation for the year ended December 31, 2023.

- B. The (impairment loss) gain on reversal of impairment loss reported by operating segments is as follows:

Segments	For the year ended December 31, 2022	
	Recognized in profit or loss	Recognized in other comprehensive income
Others	\$ 13,290	\$ —
Tinplate factories located in mainland China	(289,139)	—
	<u>(\$ 275,849)</u>	<u>\$ —</u>

- C. The Group's goodwill is tested for impairment on an annual basis. As the tinplate factories located in Mainland China was affected by raw material costs, product prices, supply and demand in the local market and government policies, the Group expected that the future operations of the cash-generating unit would not reach the Group's expectation and the recoverable amount will be lower than its carrying amount. Thus, the Group assessed that the goodwill is impaired. Additionally, in accordance with the impairment assessment report of goodwill issued by the external appraisal expert who was commissioned by the company, the recoverable amount is estimated according to the fair value less costs to sell. The fair value is based on the evaluation result after adjusting the various assets and liabilities of the cash-generating unit according to the market method with reference to the valuation multiples, transaction price of similar targets in the region or according to the cost method after considering various factors such as the use of various assets and liabilities. The fair value is at level 3 and has reflected the specific risks of the relevant operating units. Based on the Group's assessment, the recoverable amount of goodwill which was determined based on the fair value less costs to sell is less than the carrying amount. Thus, an impairment loss was recognized amounting to \$289,139 for the year ended December 31, 2022, and the cost of goodwill has been fully recognized in impairment loss by the Group. Impairment loss of goodwill previously recognized in profit or loss will not be reversed in the following years.

According to the policy published, applicable agreement or the law and regulation, the Group has obligations to restore certain property, plant and equipment located in Yong-Kang District, Tainan City in the future. A provision is recognized for the present value of costs to be incurred for dismantling, removing the asset and restoring the site. It is expected that the provision will be settled within 50 years from the beginning of contract.

(15) Pensions

A. The Company has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 10% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. The rate was reduced to 6% since May 2023 and approved by the Bureau of Labor Affairs, Tainan City Government on May 19, 2023. Also, the Company would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contributions to cover the deficit by next March.

- c. The Bank of Taiwan was commissioned to manage the Fund of the Company's defined benefit pension plan in accordance with the Fund's annual investment and utilization plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund" (Article 6: The scope of utilization for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilization of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan assets fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2023 and 2022 is given in the Annual Labor Retirement Fund Utilization Report announced by the government.
- d. The principal actuarial assumptions used were as follows:

	For the years ended December 31,	
	2023	2022
Discount rate	1.63%	1.75%
Future salary increase rate	3.00%	3.00%

Future mortality rate was estimated based on the 6th Taiwan Standard Ordinary Experience Mortality Table for the years ended December 31, 2023 and 2022.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	Discount rate		Future salary increase rate	
	Increase	Decrease	Increase	Decrease
	0.25%	0.25%	0.25%	0.25%
<u>December 31, 2023</u>				
Effect on present value of defined benefit obligation	(\$ 31,568)	\$ 32,585	\$ 31,416	(\$ 30,604)
<u>December 31, 2022</u>				
Effect on present value of defined benefit obligation	(\$ 35,743)	\$ 36,963	\$ 35,726	(\$ 34,737)

The sensitivity analysis above was arrived at based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method of analyzing sensitivity and the method of calculating net pension liability in the balance sheet are the same. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

- e. Expected contributions to the defined benefit pension plan of the Company for the year ending December 31, 2024 amount to \$27,621.
- f. As of December 31, 2023, the weighted average duration of the retirement plan is 11 years. The analysis of timing of the future pension payment was as follows:

Within 1 year	\$	41, 990
2-5 years		228, 605
6-10 years		450, 781
The 11th year		101, 488
	\$	<u>822, 864</u>

- B. Effective July 1, 2005, the Company has established a defined contribution pension plan (the “New Plan”) under the Labor Pension Act (the “Act”) , covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees’ monthly salaries and wages to the employees’ individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment. The Group’s subsidiaries have defined contribution plans. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations are based on certain percentage of employees’ monthly salaries and wages. Other than the monthly contributions, the Group has no further obligations. The pension costs under the defined contribution pension plans of the Group (listed under “Operating cost” and “Operating expense”) for the years ended December 31, 2023 and 2022 were \$217,751 and \$203,611, respectively.

(16) Share capital - Common stock

- A. Movements in the number of the Company’s ordinary shares outstanding are as follows (in thousands of shares):

	For the years ended December 31,	
	2023	2022
Balance as of January 1 and December 31	<u>1, 579, 145</u>	<u>1, 579, 145</u>

- B. As of December 31, 2023, the Company’s authorized capital was \$17,847,009, and the paid-in capital was \$15,791,453, consisting of 1,579,145 thousand shares of ordinary stock with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected.

(17) Capital surplus

Pursuant to the R.O.C. Company Act, capital reserve arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to offset accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital surplus to be capitalized mentioned above should not exceed 10% of the

paid-in capital each year. Capital reserve should not be used to cover accumulated deficit after the legal reserve is used.

Movement of the Company's capital reserve for the years ended December 31, 2023 and 2022 are as follows:

	For the year ended December 31, 2023				
	Share premium	Treasury share transactions	Donations	Others	Total

(18) Retained earnings

- A. The legal reserve shall be exclusively used to offset accumulated deficit, to issue new stocks or distribute cash to shareholders in proportion to their share ownership. The use of legal reserve for the issuance of stocks or cash dividends to shareholders in proportion to their share ownership is permitted provided that the balance of such reserve exceeds 25% of the Company's paid-in capital.
- B. According to the Articles of Incorporation of the Company, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve and special reserve shall be set aside or reversed in accordance with related regulations. The remaining amount plus the accumulated unappropriated earnings from prior years is the accumulated distributable earnings. Of the amount to be distributed by the Company, shareholders' dividends shall comprise 50% to 100% of the accumulated distributable earnings and cash dividends shall not be lower than 30% of the

total dividends distributed. The appropriation of earnings shall be proposed by the Board of Directors and resolved by the shareholders.

C. Special reserve

- a. In accordance with the regulations, the Company shall set aside special reserve arising from the debit balances in other equity items at the balance sheet date before distributing earnings. When debit balances in other equity items are reversed subsequently, an equal amount could be included in the distributable earnings. For the years ended December 31, 2023 and 2022, special reserve of (\$417,533) and \$18,069, respectively, was (reversed) set aside in accordance with the Company Act on special reserve.
- b. The amounts previously set aside by the Company as special reserve of \$826,453 on initial application of IFRSs in accordance with Jin-Guan-Zheng-Fa-Zi Letter No. 1090150022, dated March 31, 2021, shall be reversed proportionately when the relevant assets, those other than land, are used, disposed of or reclassified subsequently. Such amounts are reversed upon disposal or reclassified if the assets are investment property of land, and reversed over the use period if the assets are investment property other than land.

- D. The Company recognized dividends distributed to owners amounting to \$1,579,145, constituting \$1 (in dollars) per share as cash dividend from the distribution of 2021 earnings. On June 15, 2023, the stockholders during their meeting resolved for the distribution of cash dividends from 2022 earnings in the amount of \$2,337,135 at \$1.48 (in dollars) per share. On March 5, 2024, the Board of Directors proposed for the distribution of cash dividends from 2023 earnings amounting to \$473,744, constituting \$0.3 (in dollars) per share.

12. OTHERS

(1) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders, maintain an optimal capital structure to both reduce the cost of capital and to meet the monetary needs of improving productivity. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

(2) Financial instruments

A. Financial instruments by category

Details of financial instruments by category of the Group are described in Note 6, 'Financial assets.'

B. Financial risk management policies

- a. The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, price risk and interest rate risk), credit risk and liquidity risk. The Group seeks to minimize potential adverse effects on the Group's financial performance. The Group hedges foreign exchange risk by using forward foreign exchange contracts.
- b. Risk management is carried out by a central treasury department (Group Finance Department) under policies approved by the Board of Directors. Group Finance Department identifies, evaluates and hedges financial risks in close cooperation with the Group's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

C. Significant financial risks and degrees of financial risks

a. Market risk

(a) Foreign exchange risk

- i. The Group operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the USD and EUR. Foreign exchange risk arises from future commercial transactions, recognized assets and liabilities and net investments in foreign operations.
- ii. The Group has certain investments in foreign operations, whose net assets are exposed to foreign currency translation risk. The Group's foreign operations are considered strategic investments; thus, no hedging for the purpose is conducted.
- iii. The Group's businesses involve some non-functional currency operations (the Company's functional currency: NTD; certain subsidiaries' functional currency: USD, CNY and VND). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

(Foreign currency: Functional currency)	December 31, 2023		
	Foreign Currency (in thousands)	Exchange Rate	Carrying Amount
<u>Financial assets</u>			
<u>Monetary items</u>			
USD : NTD	\$ 20,846	30.71	\$ 640,181
EUR : NTD	604	33.98	20,524
USD : CNY	1,832	7.10	56,261
<u>Financial liabilities</u>			
<u>Monetary items</u>			
USD : NTD	14,036	30.71	431,046
USD : CNY	5,519	7.10	169,488

(Foreign currency: Functional currency)	December 31, 2022		
	Foreign Currency (in thousands)	Exchange Rate	Carrying Amount
<u>Financial assets</u>			
<u>Monetary items</u>			
USD : NTD	\$ 33,163	30.71	\$ 1,018,436
USD : CNY	2,975	6.90	91,362
EUR : NTD	3,818	32.72	124,925
<u>Financial liabilities</u>			
<u>Monetary items</u>			
USD : NTD	14,594	30.71	448,182
USD : CNY	10,605	6.90	325,680
USD : VND	1,149	23,633.00	35,286

iv. As of December 31, 2023 and 2022, if the functional currency exchange rate had appreciated/depreciated by 1%, with all other factors remaining constant, the Group's post-tax profit for the years ended December 31, 2023 and 2022 would have increased/decreased by \$931 and \$3,405, respectively.

v. The total exchange gain, including realized and unrealized arising from significant foreign exchange variation on the monetary items held by the Group for the years ended December 31, 2023 and 2022 amounted to \$1,268 and \$223,394, respectively.

(b) Price risk

- i. The Group's equity securities, which are exposed to price risk, are held as financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Group evaluates investment activities carefully. Accordingly, no material market risk is expected.
- ii. The Group's investments in equity securities comprise the prices of equity securities would change due to the change of the future value of investee companies. If the prices

of these equity securities had increased/decreased by 1% with all other variables held constant, other components of equity for the years ended December 31, 2023 and 2022 would have increased/decreased by \$1,188 and \$892, respectively, as a result of other comprehensive income classified as equity investment at fair value through other comprehensive income.

(c) Cash flow and fair value interest rate risk

- i. The Group's interest rate risk arises from short-term and long-term borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk which is partially offset by cash and cash equivalents held at variable rate. For the years ended December 31, 2023 and 2022, the Group's borrowings at variable rate were mainly denominated in New Taiwan dollars, US dollars and Japanese yens.
- ii. If the borrowing interest rate had increased/decreased by 1% with all other variables held constant, profit, net of tax for the years ended December 31, 2023 and 2022 would have decreased/increased by \$1,033 and \$910, respectively. The main factor is that changes in interest expense result from floating rate borrowings.

b. Credit risk

- (a) Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the notes and accounts receivable based on the agreed terms, and the contract cash flows of debt instruments stated at amortized cost.
- (b) The Group manages its credit risk taking into consideration the entire Group's concern. For banks and financial institutions, only those with a high credit rating are accepted. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.
- (c) In line with credit risk management procedure, when the contract payments are past due over certain number days, the default has occurred.
- (d) The Group adopts the following assumptions to assess whether there has been a significant increase in credit risk on that instrument since initial recognition:
 - i. If the contract payments are past due over certain number of days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
 - ii. If any external credit rating agency rates these bonds as investment grade, the credit risk of these financial assets is low. If the credit rating grade of an investment target degrades

two scales, there has been a significant increase in credit risk on that instrument since initial recognition.

- (e) The Group classifies customers' notes and accounts receivable in accordance with credit rating of customers. The Group applies the simplified approach using the provision matrix to estimate expected credit loss, and used the forecastability concern to adjust historical and timely information to assess the default possibility of notes and accounts receivable. Movements in relation to the Group applying the simplified approach to provide loss allowance for notes and accounts receivable are as follows:

	For the year ended December 31, 2023		
	Notes	Accounts	Total
	receivable	receivable	
At January 1	\$ 2,446	\$ 32,217	\$ 34,663
Expected credit gains	(590)	(1,782)	(2,372)
Write-off of allowance for doubtful accounts	–	(14,702)	(14,702)
Effect of foreign exchange	(23)	(666)	(689)
At December 31	<u>\$ 1,833</u>	<u>\$ 15,067</u>	<u>\$ 16,900</u>

	For the year ended December 31, 2022		
	Notes	Accounts	Total
	receivable	receivable	
At January 1	\$ 2,303	\$ 42,753	\$ 45,056
Expected credit losses (gains)	126	(11,287)	(11,161)
Effect of foreign exchange	17	751	768
At December 31	<u>\$ 2,446</u>	<u>\$ 32,217</u>	<u>\$ 34,663</u>

c. Liquidity risk

- (a) Cash flow forecasting is performed in the operating entities of the Group and aggregated by the Group Finance Department. Group Finance Department monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times.
- (b) Surplus cash held by the operating entities over and above the balance required for working capital management are transferred to the Group Finance Department. Group Finance Department invests surplus cash in interest bearing current accounts and time deposits, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the abovementioned forecasts.
- (c) The table below analyzes the Group's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the

contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

December 31, 2023	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	More than 5 years
Non-derivative financial liabilities:				
Short-term borrowings	\$ 2,743,366	\$ -	\$ -	\$ -

Long-term borrowings	60,056	2,090,393	1,769,158	-
Guarantee deposits received	-	7,570	10,907	17,806

(d)The Group does not expect the maturity date to end early nor the actual cash flow to be materially different.

(3) Fair value information

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

- B. The carrying amounts of financial instruments not measured at fair value including cash and cash equivalents, notes receivable, accounts receivable (including related parties), other receivables, other financial assets - current, guarantee deposits paid, short-term borrowings, accounts payable (including related parties), other payables (including related parties), other financial liabilities - current, refund liabilities - current, long-term borrowings and guarantee deposits received are approximate to their fair values.
- C. The related information on financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities are as follows:

<u>December 31, 2023</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets:				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through other comprehensive income				
Equity securities	<u>\$ 118,781</u>	<u>\$ –</u>	<u>\$ –</u>	<u>\$ 118,781</u>
<u>December 31, 2022</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets:				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through other comprehensive income				
Equity securities	<u>\$ 89,241</u>	<u>\$ –</u>	<u>\$ –</u>	<u>\$ 89,241</u>

- D. The methods and assumptions the Group used to measure fair value are as follows:
The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:
- | | |
|---------------------|----------------------|
| | <u>Listed shares</u> |
| Market quoted price | Closing price |
- E. For the years ended December 31, 2023 and 2022, there was no transfer into or out between Level 1 and Level 2.
- F. For the years ended December 31, 2023 and 2022, there was no such situation of Level 3.

13. SUPPLEMENTARY DISCLOSURES

(3) Information on investments in Mainland China

- A. Basic information: Refer to table 7.
- B. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area: Refer to table 8.

(4) Major shareholders information

Major shareholders information: Refer to table 9.

14. SEGMENT INFORMATION

(1) General information

The management of the Group has identified the operating segments based on information provided to the Group's chief operating decision-maker in order to make strategic decisions. The Group's organization, basis of identification and measurement of segment information had no significant changes in this period.

(2) Measurement of segment information

The chief operating decision-maker evaluates the performance of operating segments based on segment pre-tax income.

(3) Information about segment profit or loss and assets

The segment information provided to the chief operating decision-maker for the reportable segments is as follows:

For the year ended December 31, 2023					
	Taiwan	Tinplate Products (in Mainland China)	Plastic Products (in Mainland China)	Others	Total
Revenue from external customers	\$ 10,119,598	\$ 3,690,024	\$ 18,522,243	\$ 2,908,337	\$ 35,240,202

(4) Reconciliation for segment income (loss) and assets

A. Sales between segments were carried out at arm's length. Basis of measurement remained consistent with revenue in the consolidated statements of comprehensive income and revenue from external parties reported to the chief operating decision-maker. A reconciliation of segment profit or loss before tax and the profit or loss before tax from continuing operations is shown below:

	For the years ended December 31,	
	2023	2022
Reportable segments profit or loss	\$ 1,759,729	\$ 3,223,200
Other segments profit or loss	700,664	21,499
Elimination of intersegment transactions	(1,435,801)	(331,336)
Net income before income tax from continuing operations	<u>\$ 1,024,592</u>	<u>\$ 2,913,363</u>

B. The amount of total assets provided to the chief operating decision-maker adopts the same basis of measurement as assets in the Group's financial statements. The reconciliations between reportable segments' assets and total assets are as follows:

	December 31, 2023	December 31, 2022
Assets of reportable segments	\$ 52,244,877	\$ 54,246,352
Assets of other operating segments	20,224,262	20,659,996
Elimination of intersegment transactions	(39,896,299)	(40,000,385)
Total assets	<u>\$ 32,572,840</u>	<u>\$ 34,905,963</u>

(5) Information on products and services

The Group's revenue information for the years ended December 31, 2023 and 2022 is as follows:

	For the years ended December 31,	
	2023	2022
Revenue from products of Tinplate	\$ 16,684,456	\$ 26,587,130

TON YI INDUSTRIAL CORP.
PARENT COMPANY ONLY FINANCIAL
STATEMENTS AND INDEPENDENT AUDITORS’
REPORT
DECEMBER 31, 2023 AND 2022

For the convenience of readers and for information purpose only, the auditors’ report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors’ report and financial statements shall prevail.

INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Ton Yi Industrial Corp.

Opinion

We have audited the accompanying parent company only balance sheets of Ton Yi Industrial Corp. (the “Company”) as of December 31, 2023 and 2022, and the related parent company only statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the parent company only financial statements, including a summary of material accounting policies.

In our opinion, the accompanying parent company only financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the parent company only financial statements section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountants of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Company's 2023 parent company only financial statements. These matters were addressed in the context of our audit of the parent company only financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Existence of sales revenues

Description

Refer to Note 4(26) for the accounting policy on revenue recognition.

The primary business of the Company is selling Tin Plate products. The Company has a large volume of transactions from sales of numerous kinds of products to a wide range of customers in many different locations such as Taiwan, Asia, Europe, America, etc. For the customers and dealers who are from remote districts, the sales revenue transactions need more time for verification. This matter also exists in the subsidiaries of the Company (listed as investments accounted for using equity method). Thus, the existence of sales revenue has been identified as a key audit matter.

How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

1. Inspecting whether approved additions to the merchandise master file data had been correctly entered in the merchandise master file which include basic information of customers, such as name of representative, location of company, amount of capital and scope of business for evaluating the creditworthiness of buyers.

2. Understanding, evaluating and validating management's controls in respect of the Company's sales transactions from customer order's approval, goods delivery, sales recording, reconciliation of cash receipts and customer's records to subsequent settlement of trade receivables. In addition, testing the effectiveness of internal control environment over revenue recognition.
3. Performing substantive test on selected sales transactions including confirming orders, shipping documents, invoices and cash receipts to verify the existence of sales revenues.

Inventory valuation

Description

Refer to Note 4(7) for accounting policy on inventory and Note 5(2) for the critical accounting estimates and assumptions uncertainty in relation to inventory valuation and Note 6(3) for details of inventories. For the year ended December 31, 2023, inventory and allowance for price decline of inventories amounted to NT\$2,484,060 thousand and NT\$131,000 thousand, respectively.

The Company's raw materials are often subject to fluctuations in the international steel prices. However, as the Tin Plate products are considered necessities, such price changes may not be immediately reflected in material costs. In addition, the competition landscape within the steel industry in China will continue to affect the price of raw materials that would impact the estimation of net realizable value of inventory. This matter also applies to the subsidiaries of the Company (investments accounted for using equity method). Thus, the inventory valuation has been identified as a key audit matter.

How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

1. Evaluating the adequacy of allowance for inventory and the consistency of provision policy.

2. Assessing the reasonableness of the estimation of net realizable value of Tin Plate products and discussing with management and examining related documents to confirm the adequacy of allowance for price decline.

Responsibilities of management and those charged with governance for the parent company only financial statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and for such internal control as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the Company's financial reporting process.

Auditors' responsibilities for the audit of the parent company only financial statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance, including audit committee, regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance, including audit committee, with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, including audit committee, we determine those matters that were of most significance in the audit of the parent company only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC[®] Interpretations, and SIC[®] Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the “IFRSs”) requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the parent company only financial statements are disclosed in Note 5. ‘Critical accounting judgements, estimates and key sources of assumption uncertainty’.

(3) Foreign currency translation

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (the “functional currency”). The parent company only financial statements are presented in New Taiwan Dollars, which is the Company’s functional currency.

- A. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.
- B. Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
- C. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.

- D. All foreign exchange gains and losses based on the nature of those transactions are presented in the statement of comprehensive income within other gains and losses.

(4) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
- a. Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
 - b. Assets held mainly for trading purposes;
 - c. Assets that are expected to be realized within twelve months from the balance sheet date;
 - d. Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
- a. Liabilities that are expected to be paid off within the normal operating cycle;
 - b. Liabilities arising mainly from trading activities;
 - c. Liabilities that are to be paid off within twelve months from the balance sheet date;
 - d. Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(5) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortized cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value and recognizes the transaction costs in profit or loss. The Company subsequently measures the financial assets at fair value, and recognizes the gain or loss in profit or loss.

(6) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Company a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(7) Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted-average method. The cost of finished goods and work in process comprises raw materials, direct labor, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale. When the cost of inventory is higher than net realizable value, a write down is provided and recognized in operating costs. If the circumstances that caused the write-down cease to exist, such that all or part of the write down is no longer needed, it should be reversed to that extent and recognized as deduction of operating costs.

(8) Financial assets at fair value through other comprehensive income

A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Company has made an irrevocable election at initial recognition to recognize changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:

- a. The objective of the Company's business model is achieved both by collecting contractual cash flows and selling financial assets; and
- b. The assets' contractual cash flows represent solely payments of principal and interest on the principal outstanding.

B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognized and derecognized using trade date accounting.

C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. The Company subsequently measures the financial assets at fair value:

The changes in fair value of equity investments that were recognized in other comprehensive income. Cumulative gain or loss previously recognized in comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the instrument. Dividends are recognized as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

(9) Impairment of financial assets

For debt instruments measured at fair value through other comprehensive income and financial assets at amortized cost, at each reporting date, the Company recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for receivables or contract assets that do not contain a significant financing component, the Company recognizes the impairment provision for lifetime ECLs.

(10) Derecognition of financial assets

The Company derecognizes a financial asset when one of the following conditions is met;

- A. The contractual rights to receive cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows from financial asset have been transferred and the Company has transferred substantially all risks and rewards of ownership of the financial asset.
- C. The contractual rights to receive cash flows from financial asset have been transferred, and the Company has not retained control of the financial asset.

(11) Investments accounted for using equity method / Subsidiaries

- A. Subsidiaries are all entities (including structured entities) controlled by the Company. The Company controls an entity when the Company is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.
- B. Unrealized profit (loss) from the transactions between the Company and subsidiaries has been offset. The accounting policies of the subsidiaries have been adjusted to ensure consistency with the policies of the Company.
- C. The Company's share of its subsidiaries' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Company's share of losses in a subsidiary equals or exceeds its interest in the subsidiary, the Company continues to recognize losses proportionate to its ownership.
- D. Pursuant to the Regulations Governing the Preparation of Financial Reports by Securities Issuers, profit (loss) of the current period and other comprehensive income in the parent company only financial statements shall equal to the amount attributable to owners of the parent in the consolidated financial statements. Owners' equity in the parent company only financial statements shall equal to equity attributable to owners of the parent in the consolidated financial statements.

(12) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Property, plant and equipment apply the cost model. Except for land, other property, plant and equipment are depreciated using the straight-line method to allocate their cost over their estimated useful lives. If each component of property, plant and equipment is significant, it is depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance sheet date. If expectations for the assets' residual values and useful lives differ from previous estimates or the consumption patterns of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

<u>Asset</u>	<u>Useful Lives</u>
Buildings	5 ~ 55 years
Machinery	2 ~ 30 years
Transportation equipment	3 ~ 20 years
Office equipment	2 ~ 8 years
Other equipment	2 ~ 40 years

(13) Leasing arrangements (lessor) — operating leases

Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

(14) Leasing arrangements (lessee) — right-of-use assets/ lease liabilities

- A. Leases are recognized as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Company. For short-term leases or leases of low value assets, lease payments are recognized as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of the following:
 - a. Fixed payments, less any lease incentives receivable; and
 - b. Variable lease payments that depend on an index or a rate.

The Company subsequently measures the lease liability at amortized cost using the interest method and recognizes interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognized as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

C. At the commencement date, the right-of-use asset is stated at cost comprising the following:

- a. The amount of the initial measurement of lease liability;
- b. Any lease payments made at or before the commencement date; and
- c. Any initial direct costs incurred by the lessee.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognized as an adjustment to the right-of-use asset.

D. For lease modifications that decrease the scope of the lease, the lessee shall decrease the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize the difference between remeasured lease liability in profit or loss.

(15) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model.

(16) Impairment of non-financial assets

The Company assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

(17) Borrowings

Borrowings comprises long-term and short-term bank borrowings. Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.

(18) Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(19) Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability specified in the contract is discharged, cancelled or expired.

(20) Offsetting financial instruments

Financial assets and liabilities are offset and reported at net amount on the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

(21) Provisions

Provisions (decommissioning liabilities) are recognized when the Company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date, which is discounted using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to passage of time is recognized as interest expense.

(22) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid and should be recognized as expenses in that period when the employees render service.

B. Pensions

a. Defined contribution plan

For defined contribution plan, the contributions are recognized as pension expenses on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

b. Defined benefit plan

(a) Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Company in current period or prior periods. The liability recognized in the balance sheet in respect of the defined benefit pension plan is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) of a currency and term consistent with the currency and term of the employment benefit obligations.

(b) Remeasurements arising on defined benefit plan are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.

C. Employees' compensation and directors' remuneration

Employees' compensation and directors' remuneration are recognized as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is distributed by shares, the Company calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

(23) Income tax

- A. The tax expense for the period comprises current and deferred tax. Income tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.
- B. The Company's current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred income tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the parent company only balance sheet. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred income tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.
- D. Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred income tax assets are reassessed.

(24) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.

(25) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares and share premium on the effective date of new shares issuance.

(26) Revenue recognition

Sales of goods

- A. The Company manufactures and sells tinplate and PET package products. Sales are recognized when control of the products has transferred, being when the products are delivered to the wholesaler, the wholesaler has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the wholesaler's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the wholesaler, and either the wholesaler has accepted the products in accordance with the sales contract, or the Company has objective evidence that all criteria for acceptance have been satisfied.
- B. Revenue from these sales is recognized based on the price specified in the contract, net of the estimated sales discounts and volume discounts. The products are often sold with volume discounts based on estimated sales of each year. Accumulated experience is used to estimate and provide for the sales discounts and volume discounts, using the expected value method, and revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur. The estimation is subject to an assessment at each reporting date. A refund liability is recognized for expected sales discounts and volume discounts payable to customers in relation to sales made until the end of the reporting period.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these parent company only financial statements requires management to make critical judgements in applying the Company's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, and the related information is addressed below:

(1) Critical judgements in applying the Company's accounting policies

None.

(2) Critical accounting estimates and assumptions

Evaluation of inventories

A. As inventories are stated at the lower of cost and net realizable value, the Company must determine the net realizable value of inventories on balance sheet date using judgements and estimates. Because of the change in market demand and the sales strategy, the Company evaluates the amounts of price fluctuations of inventories, obsolete inventories or inventories without market selling value on the balance sheet date, and writes down the cost of inventories to the net realizable value. Such an evaluation is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

B. As of December 31, 2023, the carrying amount of inventories was \$2,353,060.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Cash:		
Cash on hand	\$ 12	\$ 28
Checking deposits and demand deposits	<u>106,559</u>	<u>160,077</u>
	<u>\$ 106,571</u>	<u>\$ 160,105</u>

A. The Company transacts with a variety of financial institutions all with high credit quality to diversify credit risk, so it expects that the probability of counterparty default is remote.

B. The Company did not pledge cash and cash equivalents as collateral as at December 31, 2023 and 2022.

(2) Notes and accounts receivable, net

The above aging analysis was based on credit date.

- B. As of December 31, 2023 and 2022, notes receivable and accounts receivable were all from contracts with customers. As of January 1, 2022, the balance of receivables (including related parties) from contracts with customers amounted to \$2,555,446.
- C. The Company did not pledge notes receivable and accounts receivable as collateral as at December 31, 2023 and 2022.
- D. Without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the notes receivable and accounts receivable held by the Company was the book value.
- E. Information relating to credit risk of notes receivable and accounts receivable is provided in Note 12(2), “Financial instruments.”

According to the policy published, applicable agreement or the law and regulation, the Company has obligations to restore certain property, plant and equipment located in Yong-Kang District, Tainan City in the future. A provision is recognized for the present value of costs to be incurred for dismantling, removing the asset and restoring the site. It is expected that the provision will be settled within 50 years from the beginning of contract.

(13) Pensions

A. The Company has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 10% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. The rate was reduced to 6% since May 2023 and approved by the Bureau of Labor Affairs, Tainan City Government on May 19, 2023. Also, the Company would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contributions to cover the deficit by next March.

- (c) The Bank of Taiwan was commissioned to manage the Fund of the Company's defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan asset fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2023 and 2022 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.
- (d) The principal actuarial assumptions used were as follows:

	For the years ended December 31,	
	2023	2022
Discount rate	1.63%	1.75%
Future salary increase rate	3.00%	3.00%

Future mortality rate was estimated based on the 6th Taiwan Standard Ordinary Experience Mortality Table for the years ended December 31, 2023 and 2022.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	Discount rate		Future salary increase rate	
	Increase	Decrease	Increase	Decrease
<u>December 31, 2023</u>	<u>0.25%</u>	<u>0.25%</u>	<u>0.25%</u>	<u>0.25%</u>
Effect on present value of defined benefit obligation	(\$ 31,568)	\$ 32,585	\$ 31,416	(\$ 30,604)
<u>December 31, 2022</u>				
Effect on present value of defined benefit obligation	(\$ 35,743)	\$ 36,963	\$ 35,726	(\$ 34,737)

The sensitivity analysis above was arrived at based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

(e) Expected contributions to the defined benefit pension plan of the Company for the year ending December 31, 2024 amount to \$27,621.

(f) As of December 31, 2023, the weighted average duration of that retirement plan is 11 years. The analysis of timing of the future pension payment was as follows:

Within 1 year	\$	41,990
2~5 years		228,605
6~10 years		450,781
The 11th year		<u>101,488</u>
	\$	<u>822,864</u>

B. Effective July 1, 2005, the Company has established a defined contribution pension plan (the “New Plan”) under the Labor Pension Act (the “Act”), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees’ monthly salaries and wages to the employees’ individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment. The pension costs under the defined contribution pension plan of the Company (listed under “Operating cost” and “Operating expense”) for the years ended December 31, 2023 and 2022 were \$26,370 and \$26,079, respectively.

(14) Share capital - Common stock

A. Movements in the number of the Company’s ordinary shares outstanding are as follows (in thousands of shares):

	For the years ended December 31,	
	2023	2022
Balance as of January 1 and December 31	<u>1,579,145</u>	<u>1,579,145</u>

B. As of December 31, 2023, the Company’s authorized capital was \$17,847,009, and the paid-in capital was \$15,791,453, consisting of 1,579,145 thousand shares of ordinary stock with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected.

(15) Capital surplus

Pursuant to the Company Act, capital reserve arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to offset accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the Securities and Exchange Law requires that the amount of capital surplus to be capitalized mentioned above should not exceed 10% of the paid-in capital each year. Capital reserves should not be used to cover accumulated deficit after the legal reserve is used. Movements of the Company's capital reserve for the years ended December 31, 2023 and 2022 are as follows:

	For the year ended December 31, 2023				
	Share premium	Treasury share transactions	Donations	Others	Total

At December 31	<u>\$ 58,271</u>	<u>\$ 169,088</u>	<u>\$ 819</u>	<u>\$ 3,867</u>	<u>\$ 232,045</u>

(16) Retained earnings

- A. The legal reserve shall be exclusively used to offset against accumulated deficit, to issue new stocks or distribute cash to shareholders in proportion to their share ownership. The use of legal reserve for the issuance of stocks or cash dividends to shareholders in proportion to their share ownership is permitted provided that the balance of such reserve exceeds 25% of the Company's paid-in capital.
- B. According to the Articles of Incorporation of the Company, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve and special reserve shall be set aside or reversed in accordance with related regulations. The remaining amount plus the accumulated unappropriated earnings from prior years is the accumulated distributable earnings. Of the amount to be distributed by the Company, shareholders' dividends shall comprise 50% to 100% of the accumulated distributable earnings and cash dividends shall not be lower than 30% of the total dividends distributed. The appropriation of earnings shall be proposed by the Board of Directors and resolved by the shareholders.
- C. Special reserve
 - a. In accordance with the regulations, the Company shall set aside special reserve arising from the debit balances in other equity items at the balance sheet date before distributing earnings. When debit balances on other equity items are reversed subsequently, an equal amount could be included in the distributable earnings. For the years ended December 31, 2023 and 2022, special reserve of (\$417,533) and \$18,069, respectively, was (reversed) set aside in accordance with the Company Act on special reserve.
 - b. The amounts previously set aside by the Company as special reserve of \$826,453 on initial application of IFRSs in accordance with Jin-Guan-Zheng-Fa-Zi Letter No. 1090150022, dated March 31, 2021, shall be reversed proportionately when the relevant assets, those other than land, are used, disposed of or reclassified subsequently. Such amounts are reversed upon disposal or reclassified if the assets are investment property of land, and reversed over the use period if the assets are investment property other than land.
- D. The Company recognized dividends distributed to owners amounting to \$1,579,145, constituting \$1 (in dollars) per share as cash dividend from the distribution of 2021 earnings. On June 15, 2023, the stockholders during their meeting resolved the distribution of cash dividends from 2022 earnings in the amount of \$2,337,135 at \$1.48 (in dollars) per share. On March 5, 2024, the Board of Directors proposed for the distribution of cash dividends from 2023 earnings amounting to \$473,744, constituting \$0.3 (in dollars) per share.

12. OTHERS

(1) Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

(2) Financial instruments

A. Financial instruments by category

Details of financial instruments by category of the Company are described in Note 6, 'Finance assets.'

B. Financial risk management policies

- a. The Company's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, price risk and interest rate risk), credit risk and liquidity risk. The Company

seeks to minimize potential adverse effects on the Company's financial performance. The Company may hedge foreign exchange risk by using forward foreign exchange contracts.

- b. Risk management is carried out by a central treasury department under policies approved by the Board of Directors. Company treasury identifies, evaluates and hedges financial risks in close cooperation with the Company's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

C. Significant financial risks and degrees of financial risks

a. Market risk

(a) Foreign exchange risk

- i. The Company operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the USD and EUR. Foreign exchange risk arises from future commercial transactions, recognized assets and liabilities and net investments in foreign operations.
- ii. The Company has certain investments in foreign operations, whose net assets are exposed to foreign currency translation risk. The Company's foreign operations are considered strategic investments; thus, no hedging for the purpose is conducted.
- iii. The Company's businesses involve some non-functional currency operations (the Company's functional currency: NTD). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

	December 31, 2023

<u>Financial liabilities</u>			
<u>Monetary items</u>			
USD : NTD	14,594	30.71	448,182

- iv. As of December 31, 2023 and 2022, if the functional currency exchange rate had appreciated/depreciated by 1%, with all other factors remaining constant, the Company's post-tax profit for the years ended December 31, 2023 and 2022 would have increased/decreased by \$1,837 and \$5,561, respectively.
- v. The total exchange gain, including realized and unrealized arising from significant foreign exchange variation on the monetary items held by the Company for the years ended December 31, 2023 and 2022 amounted to \$16,906 and \$278,142, respectively.
- (b) Price risk
- The Company's equity securities, which are exposed to price risk, are held as financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Company evaluates investment activities carefully. Accordingly, no material market risk is expected.
 - The Company's investments in equity securities comprise the prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, other components of equity for the years ended December 31, 2023 and 2022 would have increased/decreased by \$1,188 and \$892, respectively, as a result of other comprehensive income classified as equity investment at fair through other comprehensive income.
- (c) Cash flow and fair value interest rate risk
- The Company's interest rate risk arises from short-term and long-term borrowings. Borrowings issued at variable rates expose the Company to cash flow interest rate risk which is partially offset by cash and cash equivalents held at variable rate. For the

years ended December 31, 2023 and 2022, the Company's borrowings at variable rate were denominated in New Taiwan dollars, Japanese yen and US dollars.

- ii. If the borrowing interest rate had increased/decreased by 1% with all other variables held constant, profit, net of tax for the years ended December 31, 2023 and 2022 would have decreased/increased by \$1,028 and \$907, respectively. The main factor is that changes in interest expense result from floating rate borrowings.

b. Credit risk

- (a) Credit risk refers to the risk of financial loss to the Company arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the notes and accounts receivable based on the agreed terms and the contract cash flows of debt instruments stated at amortized cost.
- (b) The Company manages its credit risk taking into consideration the entire Company's concern. For banks and financial institutions, only those with a high credit rating are accepted. According to the Company's credit policy, the Company is responsible for managing and analyzing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. The utilization of credit limits is regularly monitored.
- (c) In line with credit risk management procedure, when the contract payments are past due over certain number days, the default has occurred.
- (d) The Company adopts following assumptions to assess whether there has been a significant increase in credit risk on that instrument since initial recognition:
 - i. If the contract payments were past due over certain number of days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
 - ii. If any external credit rating agency rates these bonds as investment grade, the credit risk of these financial assets is low. When the investment target of the independent credit rating is set to be reduced by two grades, the company judges that the credit risk of the investment target has increased significantly.

- (e) The Company classifies customers' notes and accounts receivable in accordance with credit rating of customers. The Company applies the simplified approach using the provision matrix to estimate expected credit loss, and used the forecastability concern to adjust historical and timely information to assess the default possibility of notes and accounts receivable. Movements in relation to the Company applying the simplified approach to provide loss allowance for notes and accounts receivable are as follows:

C. Liquidity risk

- (a) Finance Department monitors rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times.
- (b) Surplus cash held by the Company over and above the balance required for working capital management are transferred to the Finance Department. Finance Department invests surplus cash in interest bearing current accounts, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the abovementioned forecasts.

(c) The table below analyses the Company's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

<u>December 31, 2023</u>	<u>Less than 1 year</u>	<u>Between 1 and 2 years</u>	<u>Between 2 and 5 years</u>	<u>More than 5 years</u>

(d) The Company does not expect the maturity date to end early nor the actual cash flow to be materially different.

(3) Fair value information

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Company's investment in listed stocks is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

- B. The carrying amounts of financial assets and financial liabilities not measured at fair value including cash and cash equivalents, notes receivable, accounts receivable (including related parties), other receivables, guarantee deposits paid, short-term borrowings, accounts payable, other payables, other financial liabilities - current, refund liabilities - current, long-term borrowings, and guarantee deposits received are approximate to their fair values.
- C. The related information on financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities are as follows:

<u>December 31, 2023</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets:				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through other comprehensive income				
Equity securities	<u>\$ 118,781</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 118,781</u>
<u>December 31, 2022</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets:				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through other comprehensive income				
Equity securities	<u>\$ 89,241</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 89,241</u>

- D. The methods and assumptions the Company used to measure fair value are as follows:

The instruments the Company used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	<u>Listed shares</u>
Market quoted price	Closing price

- E. For the years ended December 31, 2023 and 2022, there was no transfer into or out between Level 1 and Level 2.

F. For the years ended December 31, 2023 and 2022, there was no transfer in or out of Level 3.
