INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Ton Yi Industrial Corp.

Opinion

We have audited the accompanying parent company only balance sheets of Ton Yi Industrial Corp. (the "Company") as of December 31, 2025 and 2024, and the related parent company only statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the parent company only financial statements, including a summary of material accounting policies.

In our opinion, the accompanying parent company only financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2025 and 2024, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the parent company only financial statements section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountants of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Company's 2025 parent company only financial statements. These matters were addressed in the context of our audit of the parent company only financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Existence of sales revenues

Description

Refer to Note 4(27) for accounting policy on revenue recognition and Note 6(18) for details of operating revenue.

The Company has a large volume of transactions from sales of numerous kinds of products to a wide range of customers in many different locations such as Taiwan, Asia, Europe, America, etc. For the customers and dealers who are from remote districts, the sales revenue transactions need more time for verification. This matter also exists in the subsidiaries of the Company (listed under investments accounted for using equity method). Thus, the existence of sales revenue has been identified as a key audit matter.

How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

1. Inspecting whether approved additions to the merchandise master file data had been correctly entered in the merchandise master file which include basic information of customers, such as name of representative, location of company, amount of capital and scope of business for evaluating the creditworthiness of buyers.
2. Understanding, evaluating and validating management's controls in respect of the Company's sales transactions from customer's order approval, goods delivery, sales recording, reconciliation of cash receipts and customer's records to subsequent settlement of trade receivables. In addition, testing the effectiveness of internal control environment over revenue recognition.

3. Performing substantive test on selected sales transactions including confirming orders, shipping documents, invoices and cash receipts to verify the existence of sales revenues.

Inventory valuation

Description

Refer to Note 4(7) for accounting policy on inventories, Note 5(2) for the critical accounting estimates and assumptions uncertainty in relation to inventory valuation and Note 6(4) for details of inventories. For the year ended December 31, 2025, inventory and allowance for price decline of inventories amounted to NT\$1,952,950 thousand and NT\$21,000 thousand, respectively.

The Company's raw materials are often subject to fluctuations in the international steel prices. However, as the Tin Plate products are considered necessities, such price changes may not be immediately reflected in material costs that would impact the estimation of net realizable value of inventory. This matter also applies to the subsidiaries of the Company (listed under investments accounted for using equity method). Thus, the inventory valuation has been identified as a key audit matter.

How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

1. Evaluating the adequacy of allowance for inventory and the consistency of provision policy.
2. Assessing the reasonableness of the estimation of net realizable value of Tin Plate products and discussing with management and examining related documents to confirm the adequacy of allowance for price decline.

Responsibilities of management and those charged with governance for the parent company only financial statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the Regulations Governing the Preparation

of Financial Reports by Securities Issuers, and for such internal control as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the Company's financial reporting process.

Auditors' responsibilities for the audit of the parent company only financial statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud

may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance, including audit committee, regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance, including audit committee, with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, including audit committee, we determine those matters that were of most significance in the audit of the parent company only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

TON YI INDUSTRIAL CORP.
NOTES TO THE PARENT COMPANY ONLY FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2025 AND 2024

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANIZATION

- (1) Ton Yi Industrial Corp. (the “Company”) was incorporated as a company limited by shares under the provisions of the Company Act of the Republic of China (R.O.C.) on April 14, 1969. The Company is primarily engaged in the manufacture, processing and sales of various cans of steel and tin plate.
- (2) The common shares of the Company have been listed on the Taiwan Stock Exchange since January 1991.
- (3) Uni-President Enterprises Corp. holds 45.55% equity interest in the Company and is the ultimate parent company.

2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE PARENT COMPANY ONLY FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION

These parent company only financial statements were authorized for issuance by the Board of Directors on March 3, 2026.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

- (1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS[®]”) Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by the FSC and became effective from 2025 are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by International Accounting Standards Board (“IASB”)</u>
Amendments to IAS 21, ‘Lack of exchangeability’	January 1, 2025

The above standards and interpretations have no significant impact to the Company’s financial condition and financial performance based on the Company’s assessment.

- (2) Effect of new issuances of or amendments to IFRS Accounting Standards as endorsed by the FSC but not yet adopted by the Company

New standards, interpretations and amendments endorsed by the FSC effective from 2026 are as follows:

New Standards, Interpretations and Amendments	Effective date by IASB
Amendments to IFRS 9 and IFRS 7, 'Amendments to the classification and measurement of financial instruments'	January 1, 2026
Amendments to IFRS 9 and IFRS 7, 'Contracts referencing nature-dependent electricity'	January 1, 2026

Annual Improvements to IFRS Accounting Standards – Volume 11	January 1, 2026

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

(3) IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRS Accounting Standards as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by IASB
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by IASB
IFRS 18, 'Presentation and disclosure in financial statements'	January 1, 2027 (Note)
IFRS 19, 'Subsidiaries without public accountability: disclosures'	January 1, 2027
Amendments to IAS 21, 'Translation to a Hyperinflationary Presentation Currency'	January 1, 2027

Note : The FSC has announced in a press release on September 25, 2025 that public companies will apply IFRS 18 starting from the fiscal year 2028. Additionally, entities can choose to adopt IFRS 18 earlier based on their requirements after the FSC endorses IFRS 18.

Except for the following, the above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

IFRS 18, 'Presentation and disclosure in financial statements':

IFRS 18 replaces IAS 1. The standard introduces a defined structure of the statement of profit or loss, disclosure requirements related to management- defined performance measures, and enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these parent company only financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

These parent company only financial statements are prepared by the Company have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

(2) Basis of preparation

- A. Except for the following items, the parent company only financial statements have been prepared under the historical cost convention:
- a. Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - b. Financial assets at fair value through other comprehensive income.
 - c. Defined benefit assets and liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC[®] Interpretations, and SIC[®] Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the “IFRSs”) requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the parent company only financial statements are disclosed in Note 5 ‘Critical accounting judgements, estimates and key sources of assumption uncertainty’.

(3) Foreign currency translation

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (the “functional currency”). The parent company only financial statements are presented in New Taiwan Dollars, which is the Company’s functional currency.

- A. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.
- B. Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
- C. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences

are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.

- D. All foreign exchange gains and losses based on the nature of those transactions are presented in the statement of comprehensive income within other gains and losses.

(4) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
 - a. Assets that are expected to be realized, or are intended to be sold or consumed in the normal operating cycle;
 - b. Assets that are held primarily for the purpose of trading;
 - c. Assets that are expected to be realised within twelve months after the reporting period;
 - d. Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities for at least twelve months after the reporting period.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
 - a. Liabilities that are expected to be paid off in the normal operating cycle;
 - b. Liabilities that are held primarily for the purpose of trading;
 - c. Liabilities that are due to be paid off within twelve months after the reporting period;
 - d. It does not have the right at the end of the reporting period to defer settlement of the liability at least twelve months after the reporting period.

(5) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortized cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value and recognizes the transaction costs in profit or loss. The Company subsequently measures the financial assets at fair value, and recognizes the gain or loss in profit or loss.

(6) Notes and accounts receivable

- A. Notes and accounts receivable entitle the Company a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term notes and accounts receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(7) Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted-average method. The cost of finished goods and work in process comprises raw materials,

direct labor, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale. When the cost of inventory is higher than net realizable value, a write down is provided and recognized in operating costs. If the circumstances that caused the write-down cease to exist, such that all or part of the write down is no longer needed, it should be reversed to that extent and recognized as deduction of operating costs.

(8) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Company has made an irrevocable election at initial recognition to recognize changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:
- a. The objective of the Company's business model is achieved both by collecting contractual cash flows and selling financial assets; and
 - b. The assets' contractual cash flows represent solely payments of principal and interest on the principal outstanding.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. The Company subsequently measures the financial assets at fair value:
The changes in fair value of equity investments that were recognized in other comprehensive income. Cumulative gain or loss previously recognized in comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the instrument. Dividends are recognized as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

(9) Impairment of financial assets

For debt instruments measured at fair value through other comprehensive income and financial assets at amortized cost, at each reporting date, the Company recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for receivables or contract assets that do not contain a significant financing component, the Company recognizes the impairment provision for lifetime ECLs.

(10) Derecognition of financial assets

The Company derecognizes a financial asset when one of the following conditions is met;

- A. The contractual rights to receive cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows from the financial asset have been transferred and the Company has transferred substantially all risks and rewards of ownership of the financial asset.
- C. The contractual rights to receive cash flows from financial asset have been transferred, and the Company has not retained control of the financial asset.

(11) Investments accounted for using equity method / Subsidiaries

- A. Subsidiaries are all entities (including structured entities) controlled by the Company. The Company controls an entity when the Company is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.
- B. Unrealized profit (loss) from the transactions between the Company and subsidiaries has been offset. The accounting policies of the subsidiaries have been adjusted to ensure consistency with the policies of the Company.
- C. The Company's share of its subsidiaries' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Company's share of losses in a subsidiary equals or exceeds its interest in the subsidiary, the Company continues to recognize losses proportionate to its ownership.
- D. Pursuant to the Regulations Governing the Preparation of Financial Reports by Securities Issuers, profit (loss) of the current period and other comprehensive income in the parent company only financial statements shall equal to the amount attributable to owners of the parent in the consolidated financial statements. Owners' equity in the parent company only financial statements shall equal to equity attributable to owners of the parent in the consolidated financial statements.

(12) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Property, plant and equipment apply the cost model. Except for land, other property, plant and

equipment are depreciated using the straight-line method to allocate their cost over their estimated useful lives. If each component of property, plant and equipment is significant, it is depreciated separately.

- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance sheet date. If expectations for the assets' residual values and useful lives differ from previous estimates or the consumption patterns of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Asset	Useful Lives
Buildings	5 ~ 55 years
Machinery	2 ~ 30 years
Transportation equipment	3 ~ 20 years
Office equipment	2 ~ 8 years
Other equipment	2 ~ 40 years

(13) Leasing arrangements (lessor) — operating leases

Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

(14) Leasing arrangements (lessee) — right-of-use assets/ lease liabilities

A. Leases are recognized as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Company. For short-term leases or leases of low value assets, lease payments are recognized as an expense on a straight-line basis over the lease term.

B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate or the interest rate implicit in the lease. Lease payments are comprised of the following:

- a. Fixed payments, less any lease incentives receivable; and
- b. Variable lease payments that depend on an index or a rate.

The Company subsequently measures the lease liability at amortized cost using the interest method and recognizes interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognized as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

C. At the commencement date, the right-of-use asset is stated at cost comprising the following:

- a. The amount of the initial measurement of lease liability;
- b. Any lease payments made at or before the commencement date; and
- c. Any initial direct costs incurred by the lessee.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognized as an adjustment to the right-of-use asset.

D. For lease modifications that decrease the scope of the lease, the lessee shall decrease the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize the difference between remeasured lease liability in profit or loss. For all other lease modifications, the lessee shall remeasure the lease liability and adjust the right-of-use asset, correspondingly.

(15) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model.

(16) Impairment of non-financial assets

The Company assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

(17) Borrowings

Borrowings comprises long-term and short-term bank borrowings. Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.

(18) Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(19) Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability specified in the contract is discharged, cancelled or expired.

(20) Offsetting financial instruments

Financial assets and liabilities are offset and reported at net amount on the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

(21) Non-hedging derivatives

Non-hedging derivatives are initially recognized at fair value on the date a derivative contract is entered into and recorded as financial assets or financial liabilities at fair value through profit or loss. They are subsequently remeasured at fair value and the gains or losses are recognized in profit or loss.

(22) Provisions

Provisions (decommissioning liabilities) are recognized when the Company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date, which is discounted using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to passage of time is recognized as interest expense.

(23) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid and should be recognized as expenses in that period when the employees render service.

B. Pensions

a. Defined contribution plan

For defined contribution plan, the contributions are recognized as pension expenses on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

b. Defined benefit plan

(a) Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Company in current period or prior periods. The liability recognized in the balance sheet in respect of the defined benefit pension plan is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) of a currency and term consistent with the currency and term of the employment benefit obligations.

(b) Remeasurements arising on defined benefit plan are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.

C. Employees' compensation and directors' remuneration

Employees' compensation and directors' remuneration are recognized as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is distributed by shares, the Company calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

(24) Income tax

- A. The tax expense for the period comprises current and deferred tax. Income tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.
- B. The Company's current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred income tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the parent company only balance sheet. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred income tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.
- D. Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred income tax assets are reassessed.

(25) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.

(26) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares and share premium on the effective date of new shares issuance.

(27) Revenue recognition

Sales of goods

A. The Company manufactures and sells tinsplate products and selling PET package products. Sales are recognized when control of the products has transferred, being when the products are delivered to the wholesaler, the wholesaler has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the wholesaler's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the wholesaler, and either the wholesaler has accepted the products in accordance with the sales contract, or the Company has objective evidence that all criteria for acceptance have been satisfied.

B. Revenue from these sales is recognized based on the price specified in the contract, net of the estimated sales discounts and volume discounts. The products are often sold with volume discounts based on historical experience. Accumulated experience is used to estimate and provide for the sales discounts and volume discounts and revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur. The estimation is subject to an assessment at each reporting date. A refund liability is recognized for expected sales discounts and volume discounts payable to customers in relation to sales made until the end of the reporting period.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these parent company only financial statements requires management to make critical judgements in applying the Company's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, and the related information is addressed below:

(1) Critical judgements in applying the Company's accounting policies

None.

(2) Critical accounting estimates and assumptions

Evaluation of inventories

A. As inventories are stated at the lower of cost and net realizable value, the Company must determine the net realizable value of inventories on balance sheet date using judgements and estimates. Because of the change in market demand and the sales strategy, the Company evaluates the

amounts of price fluctuations of inventories, obsolete inventories or inventories without market selling value on the balance sheet date, and writes down the cost of inventories to the net realizable value. Such an evaluation is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

B. As of December 31, 2025, the carrying amount of inventories was \$1,931,950.

6. DETAILS OF SIGNIFICANT ACCOUNTS

It is expected that the provision will be settled within 50 years from the beginning of contract.

(14) Pensions

A. The Company has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 3% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. The rate was 6% and was reduced to 3% since April 2024 as approved by the Bureau of Labor Affairs, Tainan City Government on April 18, 2024. Also, the Company would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contributions to cover the deficit by next March.

(c) The Bank of Taiwan was commissioned to manage the Fund of the Company's defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan asset fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2025 and 2024 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.

Future salary increase rate	<u>3. 00%</u>	<u>3. 00%</u>

Future mortality rate was estimated based on the 6th Taiwan Standard Ordinary Experience Mortality Table for the years ended December 31, 2025 and 2024.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	<u>Discount rate</u>		<u>Future salary increase rate</u>	
	<u>Increase</u>	<u>Decrease</u>	<u>Increase</u>	<u>Decrease</u>
<u>December 31, 2025</u>	<u>0.25%</u>	<u>0.25%</u>	<u>0.25%</u>	<u>0.25%</u>
Effect on present value of defined benefit obligation	<u>(\$ 27,222)</u>	<u>\$ 27,986</u>	<u>\$ 26,838</u>	<u>(\$ 26,247)</u>
<u>December 31, 2024</u>				
Effect on present value of defined benefit obligation	<u>(\$ 28,848)</u>	<u>\$ 29,718</u>	<u>\$ 28,643</u>	<u>(\$ 27,955)</u>

The sensitivity analysis above was arrived at based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

(e) Expected contributions to the defined benefit pension plan of the Company for the year ending December 31, 2026 amount to \$13,008.

(f) As of December 31, 2025, the weighted average duration of that retirement plan is 10 years.

The analysis of timing of the future pension payment was as follows:

Within 1 year	\$	53,050

(17) Retained earnings

- A. According to the Articles of Incorporation of the Company, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve and special reserve shall be set aside or reversed in accordance with related regulations until the accumulated legal capital reserve equals paid-in capital. The remaining amount plus the accumulated unappropriated earnings from prior years is the accumulated distributable earnings. Of the amount to be distributed by the Company, shareholders' dividends shall comprise 50% to 100% of the accumulated distributable earnings and cash dividends shall not be lower than 30% of the total dividends distributed. The appropriation of earnings shall be proposed by the Board of Directors and resolved by the shareholders.
- B. The legal reserve shall be exclusively used to offset against accumulated deficit, to issue new stocks or distribute cash to shareholders in proportion to their share ownership. The use of legal reserve for the issuance of stocks or cash dividends to shareholders in proportion to their share ownership is permitted provided that the balance of such reserve exceeds 25% of the Company's paid-in capital.
- C. Special reserve
- In accordance with the regulations, the Company shall set aside special reserve arising from the debit balances in other equity items at the balance sheet date before distributing earnings. When debit balances in other equity items are reversed subsequently, an equal amount could be included in the distributable earnings.
 - The amounts previously set aside by the Company as special reserve of \$826,453 on initial application of IFRSs in accordance with Jin-Guan-Zheng-Fa-Zi Letter No. 1090150022, dated March 31, 2021, shall be reversed proportionately when the relevant assets, those other than land, are used, disposed of or reclassified subsequently. Such amounts are reversed upon disposal or reclassified if the assets are investment property of land, and reversed over the use

period if the assets are investment property other than land.

- D. The appropriations of 2024 and 2023 earnings were resolved by the shareholders on June 18, 2025 and June 21, 2024, respectively, as follows:

- B. Directors' remuneration is determined by the board of directors and measured according to the level of importance and value of contribution of directors to the Company, usually with an average level. President, vice president, and directors' remuneration are determined in accordance with the Company's articles of incorporation and business performance. The reward which the Company offers to the employees for the services rendered is measured based on the

level of employees' position, contribution and value to the Company. It has a positive correlation with the performance of the Company's business. It mainly includes basic salary, bonus and fringe benefits. Basic salary is assessed by taking into account of the Company's articles of salary promotion; the bonus is considered with each individual and divisional achievement or entire performance of the Company; the fringe benefits is planned in accordance with the law to meet the needs of employees.

- C. According to the amended Articles of Incorporation of the Company resolved by the shareholders on June 18, 2025, a ratio of current year's earnings, after covering accumulated losses, shall be distributed as employees' compensation and directors' remuneration. The ratio shall not be less than 2% for employees' compensation, of which at least 60% shall be allocated for rank-and-file employees and shall not be higher than 2% for directors' remuneration. Before the amendments, a ratio of distributable profit of the current year, after covering accumulated losses, shall be distributed as employees' compensation and directors' remuneration. The ratio shall not be lower than 2% for employees' compensation and shall not be higher than 2% for directors' remuneration.
- D. For the years ended December 31, 2025 and 2024, employees' compensation and directors' remuneration were recognized based on profit of current year distributable and the percentage specified in the Articles of Incorporation of the Company. Under the terms of the loan agreement, if any of the financial covenants were not met, and the Company has not improved its financial condition with four months, the bank has the right to cancel or reduce the credit line.

As of December 31, 2025 and 2024, the Company has not violated any of the above covenants.

10. SIGNIFICANT DISASTER LOSS

None.

11. SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE

None.

12. OTHERS

(1) Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

(2) Financial instruments

A. Financial instruments by category

Details of financial instruments by category of the Company are described in Note 6 for various financial assets.

B. Financial risk management policies

- a. The Company's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, price risk and interest rate risk), credit risk and liquidity risk. The Company seeks to minimize potential adverse effects on the Company's financial performance. The Company may hedge foreign exchange risk by using forward foreign exchange contracts.
- b. Risk management is carried out by a central treasury department under policies approved by the Board of Directors. Company treasury identifies, evaluates and hedges financial risks in close cooperation with the Company's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

C. Significant financial risks and degrees of financial risks

a. Market risk

(a) Foreign exchange risk

- i. The Company operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the USD , EUR and JPY. Foreign exchange risk arises from future commercial transactions, recognized assets and liabilities and net investments in foreign operations.
- ii. For more information about forward foreign exchange contracts that are used to hedge risk by the Company for the years ended December 31, 2025, refer to Note 6(2), “Financial assets at fair value through profit or loss – current”.
- iii. The Company has certain investments in foreign operations, whose net assets are exposed to foreign currency translation risk. The Company’s foreign operations are considered strategic investments; thus, no hedging for the purpose is conducted.
- iv. The Company’s businesses involve some non-functional currency operations (the Company’s functional currency: NTD). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

	December 31, 2025		
(Foreign currency: functional currency)	Foreign Currency Amount (in thousands)	Exchange Rate	Carrying amount
<u>Financial assets</u>			
<u>Monetary items</u>			
USD : NTD	\$ 38,765	31.43	\$ 1,218,384
EUR : NTD	2,891	36.90	106,678
<u>Investments accounted for using equity method</u>			
USD : NTD	588,164	31.43	18,485,995
VND : NTD	41,677,945	0.001195	49,805
<u>Financial liabilities</u>			
<u>Monetary items</u>			
USD : NTD	13,430	31.43	422,105
JPY : NTD	245,894	0.20	49,179

December 31, 2024

(Foreign currency: functional currency)	Foreign Currency Amount (in thousands)	Exchange Rate	Carrying amount
<u>Financial assets</u>			
<u>Monetary items</u>			
USD : NTD	\$ 42,336	32.79	\$ 1,388,197
EUR : NTD	1,499	34.14	51,176
<u>Investments accounted for using equity method</u>			
USD : NTD	567,398	32.79	18,604,980
VND : NTD	44,494,364	0.001286	57,220
<u>Financial liabilities</u>			
<u>Monetary items</u>			
USD : NTD	17,745	32.79	581,859

- v. As of December 31, 2025 and 2024, if the functional currency exchange rate had appreciated/depreciated by 1%, with all other factors remaining constant, the Company's post-tax profit for the years ended December 31, 2025 and 2024 would have increased/decreased by \$6,830 and \$6,860, respectively.
- vi. The total exchange (loss) gain, including realized and unrealized arising from significant foreign exchange variation on the monetary items held by the Company for the years ended December 31, 2025 and 2024 amounted to (\$32,580) and \$85,152, respectively.

(b) Price risk

- i. The Company's equity securities, which are exposed to price risk, are held as financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Company evaluates investment activities carefully. Accordingly, no material market risk is expected.
- ii. The Company's investments in equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had decreased/increased by 1% with all other variables held constant, other components of equity for the years ended December 31, 2025 and 2024 would have increased/decreased by \$1,003 and \$934, respectively, as a result of other comprehensive income on equity investment classified as at fair value through other comprehensive income.

(c) Cash flow and fair value interest rate risk

- i. The Company's interest rate risk arises from short-term and long-term borrowings. Borrowings issued at variable rates expose the Company to cash flow interest rate risk which is partially offset by cash and cash equivalents held at variable rate. For the years ended December 31, 2025 and 2024, the Company's borrowings at variable rate were denominated in New Taiwan dollars, Japanese yen and US dollars.
- ii. If the borrowing interest rate had increased/decreased by 1% with all other variables held constant, post-tax profit for the years ended December 31, 2025 and 2024 would have increased/decreased by \$889 and \$1,185, respectively. The main factor is that changes in interest expense result from floating rate borrowings.

b. Credit risk

- (a) Credit risk refers to the risk of financial loss to the Company arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the notes and accounts receivable based on the agreed terms and the contract cash flows of debt instruments stated at amortized cost.
- (b) The Company manages its credit risk taking into consideration the entire Company's concern. For banks and financial institutions, only those with a high credit rating are accepted. According to the Company's credit policy, the Company is responsible for managing and analyzing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. The utilization of credit limits is regularly monitored.
- (c) In line with credit risk management procedure, when the contract payments are past due over certain number days, the default has occurred.
- (d) The Company adopts following assumptions to assess whether there has been a significant increase in credit risk on that instrument since initial recognition:
 - i. If the contract payments are past due over certain number of days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
 - ii. If any external credit rating agency rates these bonds as investment grade, the credit risk of these financial assets is low. When the investment target of the independent credit rating is set to be reduced by two grades, the company judges that the credit risk of the investment target has increased significantly.

- (e) The Company classifies customers' receivables in accordance with credit rating of customers. The Company applies the simplified approach using the provision matrix to estimate expected credit loss, and used the forecastability concern to adjust historical and timely information to assess the default possibility of receivables. Movements in relation to the Company applying the simplified approach to provide loss allowance for notes and accounts receivable are as follows:

	<u>For the year ended December 31, 2025</u>		
	Notes	Accounts	
	receivable	receivable	Total
At January 1	\$ 868	\$ 14,637	\$ 15,505
Expected credit gains	(246)	(1,684)	(1,930)
At December 31	<u>\$ 622</u>	<u>\$ 12,953</u>	<u>\$ 13,575</u>
	<u>For the year ended December 31, 2024</u>		
	Notes	Accounts	
	receivable	receivable	Total
At January 1	\$ 1,120	\$ 6,352	\$ 7,472
Expected credit (gains) losses	(252)	8,285	8,033
At December 31	<u>\$ 868</u>	<u>\$ 14,637</u>	<u>\$ 15,505</u>

C. Liquidity risk

- (a) Finance Department monitors rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times.
- (b) Surplus cash held by the Company over and above the balance required for working capital management are transferred to the Finance Department. Finance Department invests surplus cash in interest bearing current accounts, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the abovementioned forecasts.

(c) The table below analyses the Company's non-derivative financial liabilities into relevant maturity groupings and based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

<u>December 31, 2025</u>	<u>Less than 1 year</u>	<u>Between 1 and 2 years</u>	<u>Between 2 and 5 years</u>	<u>More than 5 years</u>
Non-derivative financial liabilities:

Long-term borrowings	71,485	2,441,421	1,368,355	-
Guarantee deposits received	-	4,000	-	-

(d) The Company does not expect the maturity date to end early nor the actual cash flow to be materially different.

(3) Fair value information

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Company's investment in listed stocks is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Company's investment in foreign exchange contracts is included in Level 2.

Level 3: Unobservable inputs for the asset or liability.

B. The carrying amounts of financial assets and financial liabilities not measured at fair value (including cash and cash equivalents, notes receivable, accounts receivable (including related parties), other receivables, guarantee deposits paid, short-term borrowings, notes payable, accounts payable, other payables, other financial liabilities - current, refund liabilities - current, long-term borrowings, and guarantee deposits received) are approximate to their fair values.

C. The related information on financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities are as follows:

<u>December 31, 2025</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets:				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through other comprehensive income				
Equity securities	<u>\$ 100,274</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 100,274</u>
<u>December 31, 2024</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets:				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through profit or loss				
Forward foreign exchange contracts	<u>\$ -</u>	<u>\$ 757</u>	<u>\$ -</u>	<u>\$ 757</u>
Financial assets at fair value through other comprehensive income				
Equity securities	<u>\$ 93,379</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 93,379</u>

- D. The methods and assumptions the Company used to measure fair value are as follows:
- a. The instruments the Company used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	<u>Listed shares</u>
Market quoted price	Closing price
 - b. Forward foreign exchange contracts are usually valued based on the current forward exchange rate at balance sheet date.
- E. For the years ended December 31, 2025 and 2024, there was no transfer into or out between Level 1 and Level 2.
- F. For the years ended December 31, 2025 and 2024, there was no such situation of Level 3.
